Repeals Punjab Act. VIII of 1925.

90. The Sikh Gurdwara Act, 1925 is hereby repealed.

STATEMENT OF OBJECTS AND REASONS

The Sikh Gurdwaras both historic and others are situated and squattered in almost all States and parts of India and are held in great esteem and reverence by the entire Sikh Community. For lack of uniform legislation they are managed and governed by different sets of rules and regulations mostly influenced by local customs and usages. There is no uniformity in the performance of Sikh rites and ceremonies in the Sikh Gurdwaras.

The Bill seeks to secure better administration of the Sikh Gurdwaras which may be duly notified by the Government by having more effective and efficient supervision and superintendence of the Board over the Committees of Management of Gurdwaras spread over various territories of India. The Bill also seeks to bring uniformity in the performance of all religious rites in all the Sikh Gurdwaras

Hence this Bill.

16th June, 1958. A. S. SAIGAL.

(7) Whether suspension for 4 days of Shri Ananda Bihar was justified; what relief is he entitled to?

Decision

Before going into the controversy it is necessary to state certain facts as are either admitted or established in evidence for proper appreciation of the evidence. Messrs. Indian Hume Pipe Company Ltd. (hereafter called the Company) is a public limited Company having its Head Office in Bombay. The Company engages itself in the manufacture and sale of

cement concrete articles like Hume Pipes, R.C.C. Poles, etc. The Hume Pipes are of various sizes and dimensions. The Poles are also of various sizes. The articles manufactured by the Company are very heavy and bulky and cannot easily be transported from place to place. The Company has, therefore, factories and establishments numbering more than 60 spread over India, Pakistan and Ceylon.

The Company has a factory at Barakar in the district of Burdwan in West Bengal. It manufactures in the said factory at Barakar reinforced concrete pipes and similar other concrete products. The Company claims that the factory at Barakar is akin to ceramic industry while its Bombay factory which manufactures machinery, Hume Steel Shells and Hume Steel Special Wires of various gauges falls under Engineering unit. Be that as it may, the Company employs 30 daily-rated workmen at present in the factory at Barakar besides monthly-paid staff.

On 9th December 1955 the Barakar Hume Pipe Workers' Union (hereafter called the Union) on behalf of the daily-rated workmen submitted a charter of demands under 10 heads in pursuance of the decision in the meeting held on 4th December 1955. The demands are alleged by the Company to have included the claims as in issues 1, 2 and 4. Failing to get response the Union served a strike notice on 16th March 1956 (Annexure 1 to the Company's written statement) with copy to the Assistant Regional Labour Commissioner and Ministry of the Labour Department and others. Thereupon conciliation proceedings started. In course of the conciliation a settlement was effected on 29th November 1956 (Annexure 2 to Company's written statement) after discussions and settlements of certain items on 10th August 1956 (Annexure 3 to Company's written statement). By the agreement, dated 29th November 1956, the Company agreed to enhance the D.A. of the daily-rated workmen both permanent and temporary at the rate of annas two per day making it Rs. 1-6 per day from 1st September 1956, as also to grant usual increment of annas two in basic wages on completing 2 years' service from 1st September 1956, while the Union abandaned claim for increase of festival holidays for the present. On 29th May 1957 the Union submitted two demands, one for increase in dearness allowance, and another for quarters or quarters allowance for the workers. Following this, conciliation again started. While the claim was pending conciliation, a new development in the factory took place. Engine Driver Shri Ram Surath Prosad went on leave with effect from 19th August 1957. Shri Benu Binode Dingal and Shri Ananda Bihar were asked to work as Engine Driver during absence on leave of the Engine Driver but they did not do so for reason to be considered later on. As a result the factory remained closed from 19th August 1957 to 27th August 1957. Shri Ram Surath Prosad came back from leave on 28th August 1957 and with his joining, factory was reopened from 28th August 1957 and normal work resumed. For not working as Engine Driver Shri Benu Binode Dingal and Shri Ananda Bihar were given charge-sheets and ultimately Shri Benu Binode Dingal was dismissed while Shri Ananda Bihar was suspended for four days. On 1st September 1957 Union submitted new demands following closure of the factory from 19th August 1957 to 27th August 1957. On 7th September 1957 the Company submitted its comments on the demands to the Assistant Labour Commissioner (Annexure 4 to company's written statement). Then subsequent to the dismissal of Shri Benu Binode Dingal and suspension of Shri Ananda Bihar the Union also submitted its demands in these respects. As ultimately no settlement was possible the disputes were referred to this Tribunal for adjudication. Let us now consider the issues separately.

Before entering into merits let us first consider the preliminary objection taken by the Company regarding maintainability of issues 1, 2 and 4. The Company maintains that as on the basis of charter of demands (Annexure 1 to the Company's written statement) there was settlement on 29th November 1956 in respect of the demands before the conciliation officer and as the said settlement has not been terminated in accordance with section 19 of the Industrial Disputes Act, the Union is precluded from reagitating the matter as involved in issues 1, 2 and 4. The Union does not dispute that the settlement, dated 29th November 1956 (Ext. A) has not been terminated under section 19 of the Industrial Disputes Act, and that the settlement would in absence of such termination continue to be in operation and binding between the parties. The Union, however, contends that there was no settlement in respect of the issues—claims as in issues 1, 2 and 4 of the present reference. Let us see whether there has been settlement in respect of issues 1, 2 and 4 as claimed by the Company. In the demands (Annexure 1) there was, of course, claim by the Union for introduction of grade system as also for designation of the workers according to their nature of work (demand No. 6). But in the agreement (Ext. A) no mention has been made about such demand at all. So, it cannot be said that there was any settlement in respect of this demand. In the settlement (Ext. A) it is not even stated that the terms as agreed upon were in settlement of all the demands made by the Union. So, by no stretch of imagination it can be said that demand No. 6 was settled. So, claim in issue No. 1 it is obvious, is not barred.

Regarding issue No. 2, it, however, appears, there was a demand for increase of 50 per cent. of the basic wages of all employees (demand No. 5). When there has been settlement about the demand in item No. 1 of the settlement (Ext. A), I agree that claim in this respect over again as in issue No. 2 cannot be entertained without termination of the settlement.

Regarding issue No. 4, the Union, of course, made demand for increase in the number of holidays in demand No. 4 but then under the agreement there was no settlement about it. The Union only abandoned the claim in this respect for the present. This cannot be said to be a settlement. The claim as in issue No. 4 cannot, therefore, be accepted as barred.

Then it appears that there is difference between the parties regarding the scope of the reference. According to th Company as the Union does not represent the monthly-rated clerical staff, the said monthly-rated clerical staff are not covered in terms of the reference but only the workers. As there is no evidence on the side of the Union to the contrary I accept that the reference does not include the clerks but only the workers including the three watchmen whom the Union represents.

Issue No. 1: This relates to categorisation of workmen and fixation of scales of pay. The case of the Union is that the Company has not categorised and designated the workmen in Barakar Factory and most of them are designated as factory workers. As a result the Company compels the workmen to work in whichever job the Company likes without giving any extra benefit for work in the higher job. Payments, if any, for such work are rarely made and that in a whimsical manner. The wages which the Company pays are very low and there is no pay scale. There was no increment for the last several years; while with the passage of time, the workers have to bear greater family responsibilities. The Union accordingly demands that the workmen should be given designation and categorised as shown in Annexure I (Ext. 10) and their wages and pay scales should be fixed in accordance with those mentioned therein. The Union further

demands that the workmen should be given 25 per cent. increase in wages for the present high rise in index number and for the purpose of fitting in the pay scale, they should be given one extra increment for every past two years' service in the Company.

In Ext. 10 the Union gave the names of the daily-rated workmen with their proposed designations, categories, present wages and the pay scales as claimed for each of them as also names of monthly-paid staff and the demands for them. According to the recitals in Ext. 10, the workmen would come under designations:—(1) Engine Driver, (2) Moulder, (3) Mixer, (4) Reinforcer, (5) Mason, (6) Helper Reinforcer, (7) Assembler, (8) Dismantler, (9) General Labour, (10) Office Peon, (11) Watchman, and (12) Senior Moulder and they would be of categories of skilled, semi-skilled and unskilled.

The Company, on the other hand, pleads that the workmen in its factory at Barakar, as is the case in its other factories, is mostly unskilled and to a very little extent semi-skilled and none skilled except the Engine Driver. This has been so found in awards by Industrial Tribunals in Delhi and Coimbatore. It is said that the work being essentially of unskilled nature, whether the unskilled worker pushes pipes in tank, whether he carries sand and cement or whether he throws the cement concrete mixture in the moulds, and whether he ties steel rods, screws and unscrews nuts and bolts is immaterial. The work being unskilled, there is no necessity of any separate nomenclature. Without prejudice to the above contention the Company is, however, willing to classify the workmen on the lines of Coimbatore award. According to the Company there are only following categories employed in the factory: (1) Engine Driver, (2) Moulder, (3) Reinforcer, (4) Mason, (5) Office Peon, and (6) Watchman. The Company submits that according to the nature of work it has been held under awards of various Tribunals and under various settlements in respect of workmen employed in the factories of this Company that Engine Driver falls in skilled category, while Moulder, Reinforcer and Mason fall in semi-skilled category. There is nothing like a Senior Moulder category. There is no separate category of Mixer, Assembler, Dismantler, Helper Reinforcer and General Labour. The type of work which is performed by these workmen, as in the case of its other factories, is of unskilled nature and no skill of any sort is involved in their work. The persons referred to as Mixer have simply to carry sand, crushed metal and cement and water to the mixing machine and pour the same into it. In the case of proposed designation of Assembler, these persons have simply to screw and unscrew nuts and bolts of the pipe moulds so that the pipe is removed from the mould or so that the reinforced case is put into the mould. The same is the case in respect of the proposed designation of dismantler. Both are unskilled workers and there is no separate category of such workers. The general labour has also to do unskilled type of work. Similarly the work of peon and of watchman has always been treated on par with unskilled. It is a small factory and whenever necessary the workmen have to do all kinds of work as are allotted to them. There is no basis for Union's categorisation of the workmen as skilled, semi-skilled and unskilled. The fact that the Union demanded in the proposed grades minimum basic wage of Re. 1 for all of them would rather show that their work is akin to or is on par with those of the unskilled workers. There are only three watchmen in the factory and nature of work of these three men is the same and uniform. Shri Janak Bahadur who is on monthly basis is not the chief watchman as described by the Union. The salary which he has been getting is rather high.

No pay scale has been laid down or can be claimed as the very existence of the Company is dependent upon receipt of local orders. There can be no production in advance like consumer's goods as it is wholly dependent according to the specifications and requirements of individual customers. The stability of the Company thus being uncertain, no pay scales have been laid down or can be claimed. The Company has, however, a system of allowing increments in the basic wages at the rate of annas two per day after completion of two years' continuous service. The wages which the Company pays taken with the amount of dearness allowance, cannot be said to be low. The Company thus resisted the claims both for categorisation and for pay scales.

On the materials placed before the Tribunal, it is rather difficult to come to any definite conclusion in the matter of designation and classification. No evidence has been given apart from assertions in the pleadings. This is too technical a job which, in my opinion, should be done by experts in this line. The Central Pay Commission felt the same difficulty and made the following recommendations:—

> "The assignment of a particular worker to one category or another must largely be a matter of opinion based on standards recognised in industry. It seems to us that it will be convenient if each important industrial establishment will constitute a Board, say, of three of its officers, to determine the class in which every worker in that establishment is to be based. The classification will, of course, be reviewed from time to time."

The question of classification is essentially a matter for the Company, based upon standards recognised in any particular industry. Although the materials are not sufficient to come to any definite conclusion in the matter, it cannot at the same time be ignored that there are real causes for the workmen to become sore over the matter on account of absence of designation and classification. When according to the Company there have been designations and classifications in its Coimbatore Factory, there is no reason why it would not do so in this factory. The Company should, therefore, take immediate steps to designate the workmen and classify them according to the catogary of skilled, semi-skilled and unskilled having regard to the nature of work done by each. It is both in the interest of the employer and employees that this should be done at the earliest possible opportunity. After this is done if the Union thinks that justice has not been done in respect of any particular employee, such specific case may then be taken up for redress.

Regarding claim of incremental pay scales, the principles are to be found in the case of Britannia Building reported in 1954 L.A.C. 11. Incremental pay scales can be allowed only when the employer has both financial ability and stability. In the present case though the Company has not pleaded want of financial ability, it, however, appears that its stability is uncertain as claimed by the Company having regard to the nature of the production it undertakes in its factory at Barakar. As one cannot be certain about the stability of its factory at Barakar, I agree that incremental pay scales cannot be introduced here.

Regarding basic wages I, however, find no justification not to concede the minimum of Re. 1 per day as claimed for each of the daily-rated workmen (*vide* Ext. 3). It is to be considered whether the said sum should be regarded as the absolute minimum of a worker of the lowest category. In the matter of minimum an industry has to pay the same irrespective of the question of capacity to pay. The principles of fixation of wages

have been discussed and settled by the Hon'ble Labour Appellate Tribunal in Buckingham and Carnatick Mills Co., Ltd. *vs.* Workers of the Company. It has been found that the floor level of wages of an industrial worker must be such as would enable him to maintain three consumption units including himself in a state of efficiency with provision for education, medical expenses and amenities. This is the minimum which the worker must have irrespective of the capacity of the industry or of his employer to pay. In that particular case Their Lordships fixed the minimum wages at Rs. 28 per month considering the available materials bearing on the matter. On similar considerations the amount of minimum basic wage was fixed at Rs. 30 per month or Rs. 1-2-6p per day for the engineering industry. In the case of jute industry the total minimum emolument was fixed at Rs. 58.50nP. per month under First Award of 1948. It rose to Rs. 63.60nP. as a result of the Second Award of 1951 and it was enhanced to Rs. 67.17 nP. as a result of Third Award of 1955. In the case of engineering industry it was Rs. 55 under the First Award of 1948 and Rs. 61 as a result of the Second Award of 1950. Under the last award of Engineering Tribunal in 1958 the basic wage for an unskilled worker has been raised to Rs. 35 and dearness allowance to Rs. 36 yielding a total of Rs. 71. Even if the industry at Barakar would come under the classification of Ceramic Industry or Glass Industry and not under Engineering Industry, I would find no justification on the part of the Company not to give the minimum basic wage of Re. 1 per day as claimed. The said minimum basic wage of Re. 1 per day taken with dearness allowance of Rs. 1-6 per day would yield a total of Rs. 61-12 for 26 working days in a month and this must be considered to be the absolute minimum of a worker of lowest category. The awards relating to their own factories at Coimbatore and Delhi show that nowhere the Company pays basic wages below Rs. 30. The basic wage has, of course, to be determined on the basis of industry-*cum*-region. There is, however, nothing to show that a lesser minimum is current on industry-*cum*-region basis. I, therefore, allow the claim of the Union for a minimum basic wage of Re. 1 per day. The statement Ext. H filed by the Company giving existing wages show that out of 25 employees named therein, 19 get basic wages below Re. 1 per day. Their daily wages in some cases go as low as annas 8 per day (*vide* Ext. 10). The minimum of annas 10 as shown in the Company's statement (Ext. H) is apparently as a result of subsequent enhancement given to those who had basic wage of annas 8. Be that as it may, the existing basic wage below Re. 1 taken with the existing dearness allowance of Rs. 1-6 cannot be considered to be adequate minimum. The claim of the Union for a minimum basic wage of Re. 1 per day should, therefore, prevail. The Company is accordingly directed to pull up the workmen who get basic wage below Re. 1 per day to the said minimum of Re. 1. For those who get basic wage above Re. 1 per day, I find that the Company is under obligation to grant them biennial increment of annas two per day. So I do not allow separate increment to them. It is, however, hoped that the Company would continue the beinnial increment of annas two per day as stipulated in the agreement, dated 26th November 1956. Regarding the watchman Shri Janak Bahadur who is on monthly basis, it appears that his basic wage is Rs. 43 per month. I consider it to be fair compared to the basic wages of two other watchmen (Jit Bahadur and Bir Bahadur) which would be only Re. 1 per day. The issue is decided accordingly.

Issue No. 2: It has already been noted under preliminary objection that the matter was previously settled under the agreement and cannot be adjudicated afresh, the agreement having been in operation.

Issue No. 3: The Union demands that the workmen should be provided with housing or should be granted house rent allowance of Rs. 10 per month. The Company resists the claim. I find no justification in support of the claim. No doubt the evidence reveals that some 7 employees have been provided with quarters by the Company but this would be no sufficient ground for claim of similar facilities for others. The evidence shows that most of them are local men. The demand for providing accommodation or a house rent allowance has been too often made in industrial disputes and has been generally rejected on the ground that salary scales and dearness allowance which employees get do take into account the item of house rent they had to pay. Besides the question of providing suitable housing is truly the concern of the State and not of the employer. I do not, therefore, consider the Company should be saddled with liability in the shape of accommodation or house rent allowance. The demand is accordingly rejected.

Issue No. 4: The company grants five paid festival holidays in a year. During hearing the Union demands such number of paid holidays as are admissible under the award of the Engineering Tribunal. The Company opposes the claim. The Company, however, admits that no holiday is given in connection with Durga Puja which is the greatest festival so far the Bengalees are concerned. As the factory is situated in Barakar within West Bengal and as the employees are mostly Bengalees I think the Company should in fairness grant holidays with pay in connection with Durga Puja. Demand of the Union is at least for four days for Durga Puja (Ext. 8). It is a reasonable demand. The number of festival holidays is accordingly raised to 9 paid festival holidays including four days in connection with Durga Puja.

Issues Nos. 5, 6 and 7 are taken up together for consideration, as they are inter-connected.

Shri Ram Surat Prosad was admittedly the only qualified engine driver in the factory at Barakar. The Union was formed and registered on 22nd May 1955 with Shri Ram Surat Prosad as General Secretary of the Union. The evidence shows that he was the most active leader of the workmen employed in the factory of the Company at Barakar. It is the positive case of the Union that soon after formation of the Union the Company by way of victimisation transferred the said engine driver Shri Ram Surat Prosad to Gauhati Factory of the Company at Assam without any justification whatsoever although the Barakar factory of the Company had to function all throughout his absence on transfer without a qualified and regular engine driver. On 28th October 1955 the Union made an application under signature of the General Secretary Shri Ram Surat Prosad to the local management of the company for recognition [*vide* Ext. 1(b)]. Immediately on receipt of the said application Shri Ram Surat Prosad was asked on 29th October 1955 to get ready for going to Gauhati on transfer on permanent basis [*vide* Ext. 1(c)]. Shri Ram Surat Prosad was also given threats that unless he proceeded to Gauhati by 19th November 1955 at the latest the management would be compelled to mark him absent from 21st November 1955 [Ext. 1(c)]. Not only the transfer order was issued on 29th October 1955 immediately in the wake of submission of application by the Union on 28th October 1955 but also it was unusual that the only qualified engine driver was transferred from the factory of Barakar to Gauhati without making arrangement for another qualified and regular engine driver to work in Barakar in his place. In the face of Company's own recital in Ext. 1(c) that the transfer was on permanent basis, the transfer cannot be accepted to have been done for exigencies of service as

said during hearing. The circumstances rather support the Union's claim that it was done by way of victimisation. After having written on 11th November 1955 to Shri Ram Surat Prosad and having asked him to proceed by the latest on 19th November 1955, the management replied on 17th November 1955 to Union's letter, dated 28th October 1955, requiring Union to supply full details of its constitution before conceding recognition [Ext. 1(b)]. The evidence shows that on going to Gauhati Shri Ram Surat Prosad also formed union for workmen of the factory in Gauhati and as soon as he did it, the Company retransferred him to the factory at Barakar on 9th May 1957 [Ext. 1(a)]. Shri Ram Surat Prosad made protest but without any avail. He was asked peremptorily by letter, dated 24th May 1957, to proceed to Barakar. Threats were held out that unless he did so he would be proceeded for insubordination [Ext. 1(a)]. The evidence of the Manager D.W. 1 Shri A. N. Dange that his retransfer to Barakar was necessitated because workman Shri Benu Binode Dingal who was working in his place during the period consumed more oil than was done during the time of Shri Ram Surat Prosad is not supported by the records of the Company and is afterthought, unconvincing and unreliable. There can be no manner of doubt that the transfer as also the retransfer of Shri Ram Surat Prosad were by way of victimisation on acccount of his Union activities. This would show that the management was not prepared to tolerate any Union activities on the part of its workmen.

It is admitted on all hands that Shri Ram Surat Prosad left on transfer from Barakar to Gauhati on 7th December 1955. From then onwards Shri Benu Binod Dingal who was an ordinary workman in the factory at Barakar was employed by the Company to work as engine driver which he did for 1½ years until the qualified engine driver Shri Ram Surat Prosad resumed duty on retransfer on 12th June 1957. While working as engine driver Shri Benu Binod Dingal made application to the Company on 9th December 1955 for increment in his basic wages because of his employment as engine driver (*vide* Ext. B). Before employment as engine driver, he had been getting basic wage of Rs. 1-6 and D.A. of Rs. 1-6 in all Rs. 2-12 per day. On such application dated 9th December 1955 the management was pleased to reply on 1st March 1956 by granting him an increment in his basic salary by annas 4 per day from 1st March 1956 on condition that he should be able to run the engine satisfactorily for about two years (Ext. B). Shri Benu Binod Dingal was naturally dissatisfied with such paltry increment and that from a date after three months from the date he started to run the engine. On receipt of the letter, dated 1st March 1956, he forthwith on that very date wrote to the Company making grievances about it. On 5th March 1956 the Manager replied to him rebuking him for claiming wages of Shri Ram Surat Prosad and reminded him that he should not forget that he started as a mazdoor. He was also told that the increment of annas 4 in his basic salary which was granted by the Company was the maximum that could be done for him (Ext. B1). On 7th April 1956 Shri Benu Binod Dingal wrote to the management to say that as in the tripartite conference on 2nd April 1956 attended by Assistant Labour Commissioner, the Manager of the factory and the Chairman, the Manager assured that he would try his level best to secure identical wages for him as used to be paid to Shri Ram Surat Prosad and that from the date he was working as engine driver, he was in the circumstances reconciled to accept the increment of annas 4 offered from 1st March 1956 on the hope that his claim would in due course be conceded (Ext. 5). Exhibit B2 is claimed by the Company to be copy of a letter, dated 5th May 1956 by Shri Benu Binod Dingal to the local Manager. The contents of the letter are not strictly consistent with those in Ext. 5

and it is, therefore, doubtful whether Shri Benu Binod Dingal wrote such letter. Even if he did so, it appears that he also laid claim therein for increment from the date on which he was asked to run the oil engine. This would show that he was not at all satisfied with the increment of annas 4 per day from 1st March 1956 for such work. Be that as it may, nothing further came out of his demand. The Company did not allow any further increment to him up to the last date of his work in the Company. On 12th June 1957 the Manager asked Shri Benu Binod Dingal to hand over charge of the engine to Shri Ram Surat Prosad, engine driver, immediately (Ext. B3). He was also informed therein that the increment of annas 4 allowed to him on the basic wages per day would stop from that date as he would not have any longer to run the engine (Ext. B2). On 18th June 1957 Shri Benu Binod Dingal wrote to the Manager making grievance about discontinuance of the increment. He prayed for continuance of the increment. In the said letter he also requested the management that as in their letter, dated 1st March 1956, they wanted to designate him as engine driver on satisfactory work for about 2 years and as he had to run the engine for 1½ years and as he would be requested to do so again whenever Shri Ram Surat Prosad was on leave or reported to be sick, he should be designated Assistant Engine Driver with the increment in the basic wage to continue (Ext. 4). Although Company had no regular arrangement to run the engine in the absence of Shri Ram Surat Prosad, it summarily turned down the aforesaid prayer of Shri Benu Binod Dingal though they were modest. The chapter was thus closed.

Behind this background after resumption of duty at Barakar on retransfer, Shri Ram Surat Prosad was admittedly granted leave from 19th August 1957. On 19th August 1957 the Manager of the factory wrote to Shri Benu Binod Dingal (Ext. B11) and to Shri Ananda Behara (Ext. B14) on identical terms as follows:—

> "This is to confirm undersigned's talk with you this morning that you have been directed to take charge of the engine and to drive the same until Shri Ram Surat Prosad returns from his leave. If you refuse the above orders, we have no other alternative than to close down workshops for which you will be held responsible and necessary action will be taken against you" (Exts. B11 and B14).

Shri Benu Binod Dingal replied by letter, dated 19th August 1957, handed over in the morning of 20th August 1957 [Exts. 8(a) and B13] expressing his willingness to work the engine until Shri Ram Surat Prosad returned from his leave on condition that he should be paid wages equal to that of Shri Ram Surat Prosad for the period or he was designated as Assistant Engine Driver and given a permanent increment of annas 8 per day in his basic wage. He wanted a written reply in this respect before taking charge of the engine. In that letter it was also stated that these conditions were put forth during discussions in the morning on 19th August 1957. The evidence and circumstances show that in the morning Shri Benu Binod Dingal agreed to run the engine provided his terms as aforesaid were conceded, while the Manager was not prepared to give an increment beyond annas 4 a day and thus deadlock ensued. Ananda Behara, it on the contrary appears, refused to work the engine pleading incapacity to do so. On their refusal to run the engine in the morning, Manager closed the factory from 19th August 1957 under notice, dated 19th August 1957 (Ext. B7). On 20th August 1957 the Manager replied regarding the demands of Benu Binod Dingal. He stated that he had offered him an increment of annas 4 per day for the number of days he would be running

the engine in the absence of Shri Ram Surat Prosad and that was the maximum that he could do (Ext. B7). Shri Benu Binod Dingal was told in the said reply that if he failed to carry out the orders he would be held responsible for the consequences and appropriate action would be taken against him (*vide* Ext. B7). On that very date (20th August 1957) Benu Binod Dingal replied that the offer of an increment of annas 4 was not acceptable and that he stuck to his demands mentioned in his letter, dated 19th August 1957. It was also pointed out that he had accepted such increment in the past after protest on the hope that the management would ultimately sanction a reasonable increment (Ext. B15). On 22nd August 1957 Union wrote to the Manager to say how all the workers went to attend to their duties on 19th August 1957, 20th August 1957 and 21st August 1957 and how they were refused work on the plea that the engine driver was on leave. The Secretary accused the Manager for granting leave without making any arrangement to drive the engine in his absence. He also informed the Manager that if he would sanction at least half of the difference of wages between Benu Binod Dingal and Ram Surat Prosad, Benu Binod Dingal would agree to operate the engine. The Secretary ended with the assurance that he would not be wanting in co-operation to have an early settlement of the dispute honourable to both sides (Exts. B8 and 2). The Manager did not agree even to concede such modest demand. The contents of the letter would clearly support the Secretary of the Union (P.W. 1) that there was no concerted action in the matter except that the Union supported demand of Benu Binod Dingal considering it legitimate as within one's right of bargaining. The evidence and circumstances also make it abundantly clear that Benu Binod Dingal started bargaining as soon as he was asked to take up the work from 19th August 1957 having had bitter experience in the past. The fact that the workmen reported for duty on all the days would rule out any concerted action by them in the matter. Be that as it may, the undisputed fact is that the factory remained closed from 19th August 1957 to 27th August 1957.

The question is whether the closure is justified. I may forthwith state that I find no justification for it. The blame cannot be laid either on Benu Binod Dingal or on Ananda Behara. It was admittedly not their job which according to the Company was of unskilled category. When in the past Benu Binod Dingal was shabbily treated by the Company, Benu Binod Dingal rightly insisted for settlement of terms before agreeing to run the engine which is the work of a technical man of skilled category. Similarly Ananda Behara was within his right though had once run the engine, to decline to work on this occasion on the plea of incapacity to do so. In any case this would not justify the management to close the factory thereby to deprive the workmen of their wages when the evidence shows that the Manager himself knew how to run the engine and stop it. Nothing has been said why the Manager in the circumstances created by his own action of granting leave to Ram Surat Prosad did not himself run the engine and keep the factory open giving employment to the workmen as usual. Then had the Manager accepted the reduced demand put forth by the Union on behalf of Benu Binod Dingal on 22nd August 1957, which cannot be termed extravagent, there would have been end of the closure. I find no sufficient reason for non-acceptance of the said term of the Union. I also find no satisfactory explanation why requisition was not made for engine driver from the nearest place to end the deadlock as quickly as possible. Even if the Manager had written on 22nd August 1957 to Employment Exchange for supply of one engine driver temporarily as a copy of his letter (Ext. G) indicates and the Manager received reply to the

same as in Ext. G1 pleading inability to supply such, this would not absolve the management of their responsibility for the closure. The letter (Ext. G) bears two dates 21st/22nd August 1957, while the reply bears previous date 21st August 1957. I have, therefore, doubt about the genuineness of such correspondence. It seems that this was a mere rush to shift the responsibility from the management to workers for continuance of the closure. The management could have easily avoided both closure and its continuance had the Manager run the engine himself. It seems that the closure as also its continuance were allowed by the Manager not *bona fide* but from a motive to punish firstly the two workmen concerned as they failed to carry out unflinchingly without question his orders to drive the engine, and though unlawful and unreasonable, and secondly the workmen in general as they had joined the Union which the Manager could not tolerate as it has already been seen. In any case the workmen other than Benu Binod Dingal and Ananda Behara had not in any way been responsible for the closure. The fact that all of them reported for duty as before on 19th August 1957 and continued to do so throughout the period of the closure would negative that they were on strike and wanted to bring in stoppage of work. I am, therefore, of opinion that there was no justification either for commencement of the closure or its continuance. I so find that the workmen including Benu Binod Dingal and Ananda Behara are entitled to get full wages and D.A. for the period of the closure from 19th August 1957 to 27th August 1957. The Company is directed to make payment within 15 days from the date the award becomes enforceable. On the evidence and circumstances the situation cannot be accepted as one of lay-off. It was clearly a case of lock-out. The provisions regarding lay-off as in section 25A or in section 25E(iii) are, therefore, not attracted.

On 24th August 1957 workmen Shri Benu Binod Dingal and Shri Ananda Behara were given charge-sheets on identical terms (*vide* Ext. B9 addressed to Shri Benu Binod Dingal and Ext. B16 addressed to Shri Ananda Behara). The charge against them was that they each disobeyed the order of the Manager as required in his letter, dated 19th August 1957. Both ubmitted explanations to the said charges on 27th August 1957 on identical terms. They denied having disobeyed any lawful order and asserted that the order which the Manager gave was illegal and unconstitutional as he could not compel or order an ordinary labour of his factory getting wages of a non-technical staff to operate the main power engine which was the job of a technical staff without sanctioning the wage of a technical staff to them. It was stated that the charge of disobeying the order could not, therefore, stand (*vide* Exts. B17 and B18). Shri Benu Binod Dingal in addition alleged that the Manager realised subsequently that his order had been unreasonable and he accordingly annexed under post-script in the letter, dated 20th August 1957, statements to turn the whole case into one of trade union dispute for increase in wage.

On 27th August 1957 Shri Benu Binod Dingal was given additional charge-sheet. He was asked to explain within 24 hours from the receipt of the letter why disciplinary action should not be taken against him for using bad language and taking the Manager in his office on 26th evening (Ext. B10). Shri Benu Binod Dingal denied the said charge.

On 29th August 1957 Manager informed both Shri Benu Binod Dingal (Ext. B12) and Shri Ananda Behara (Ext. B19) that enquiry in respect of the charges against them would be held that very day at 2 p.m. They were asked to attend the enquiry with their evidence. They were also told that they would be allowed to defend themselves by one of their co-workers from the department.

As notified an enquiry was held into the charges on that day (29th August 1957). Shri K. S. Mehta conducted the enquiry against the workmen. The proceedings of the enquiry against Shri Benu Binod Dingal are contained in Ext. D written in Hindi and Ext. D2 rendered into English, while the proceedings against Shri Ananda Behara are in Ext. D1 written in Hindi and in Ext. D3 rendered in English. During the enquiry the Manager and one Shri G. P. Raha as also Shri Benu Binod Dingal and Shri Ananda Behara were examined. The engine driver Shri Ram Surat Prosad attended the enquiry on the side of the workmen. The enquiring officer submitted reports on 3rd September 1957 finding both the workmen guilty of the charges brought against them and recommending dismissal of Shri Benu Binod Dingal and suspension of Shri Ananda Behara for four days (*vide* Exts. E and E1). Shri H. K. Majumdar to whom the reports were submitted concurred in the findings as also regarding the punishments suggested. Thereupon Shri Benu Binod Dingal was dismissed on 4th September 1957 (Ext. B20) and Shri Ananda Behara was suspended without pay for four days from 1st September 1957 (Ext. B21).

The question now is whether dismissal of Shri Benu Binod Dingal and suspension of Shri Ananda Behara is justified. On giving careful consideration to the matter I may forthwith note that I am unable to accept either dismissal of Benu Binod Dingal or suspension of Ananda Behara as justified. The Company has admittedly standing orders (*vide* paragraph 8 of their written statement). The standing orders would, therefore, regulate the conduct of the parties and their service conditions. The Company has not produced the standing orders in support of management's actions against the workmen. There is nothing to show that under terms of their employment these workmen were liable to work anywhere and everywhere according to the direction of the management. They were admittedly ordinary workers of unskilled or semi-skilled category and cannot, therefore, *prima facie* be asked to operate the main power engine of the factory which according to Company is the work of a worker of skilled category. So the order in this respect by the Manager cannot be accepted as either reasonable or lawful. If the direction be not lawful or reasonable, it is obvious there would be no disobedience or insubordination. The mere fact that these two workmen in the past worked the engine—Benu Binod Dingal for 1½ years and Ananda Behara for a day on one occasion—would not authorise the management to direct them to run the engine against their will, and without payment of legitimate wages. Benu Binod Dingal did nothing wrong in imposing terms before agreeing to work the engine having regard to the treatment he had received in the past. Likewise Ananda Behara was within his right to refuse to work the engine as he was an ordinary worker of unskilled category, and not liable to work the engine under terms of employment. The whole question in this respect, therefore, resolves into whether the workmen had any obligation in terms of their employment to work the engine. The Company has nothing to show that they had such obligation. Even the standing orders, it has already been noted, has not been produced. This is presumably because they show otherwise. The manner in which the matter has been dealt with by the Manager from the very beginning suggests want of *bona fides* on the part of the management. It appears that the Manager was not so much keen as how to work the engine but how to force the workmen to run the engine without paying legitimate wages although it was not their job. Before one is held guilty of disobedience, it is to be shown that the orders which the workmen are purported to have disobeyed are reasonable and lawful. In the present case I am unable to hold so. The charge of disobedience cannot, therefore, be accepted to have been made

out. The finding of the management to the contrary has been clearly perverse.

As to the additional charge against Benu Binod Dingal as in Ext. B10 the charge is rather vague. During hearing it is said that Benu Binod Dingal remarked that "it was all *Badmashi* of the Manager". Only the Manager (D.W. 1) deposed before this Tribunal in this respect. His evidence is "Mr. Raha, the Circle Accountant, while on inspection of accounts happened to meet Benu Binod Dingal in his chamber. He asked Benu Binod Dingal why he was not driving the engine for which the factory had to be closed". On such query Benu Binod Dingal said that "it was all *Badmashi* of the Manager". As the Manager has clearly animus against Benu Binod Dingal, his evidence cannot but be accepted without grain of salt. Mr. Raha has not been examined before this Tribunal. His evidence before the enquiring officer was to the effect: "Sunil Babu of the Union had come there in connection with matters pending between Union and the Company. Sunil Babu told us that the factory was suffering loss because of Manager's adamant attitude". I told him that there was no adamant attitude or mistake on the part of the Company. When this talk was going on Benu Binod Dingal said that it was all Manager's *Badmashi*. I opposed this and spoke to Sunil Babu. Then Sunil Babu said that "he (Benu Binod) should not have said so" (*vide* Ext. D2). The Secretary, Sunil Babu (P.W. 7) deposed before this Tribunal. He denied that Benu Binod Dingal abused the Manager or said that this was *Badmashi* of the Manager. On the evidence I am unable to accept that the charge in this respect has been made out. The result is neither dismissal of Shri Benu Binod Dingal nor suspension of Shri Ananda Behara can be sustained. The Company is accordingly directed to reinstate Shri Benu Binod Dingal with continuity of service and full wages and D.A. on his reporting for duty within 15 days from the date the award is published. As suspension of Shri Ananda Behara has similarly been unjustified and wrongful, the Company is directed to treat him as on active service and pay him his full wages and D.A. for the period of suspension for four days within 15 days the award is published.

This is my award.

ANNEXURE

In the matter of an industrial dispute between Messrs. Badri Nath Spice Mills, 38 Shri Hariram Goenka Street, Calcutta, and one of their workmen Shri Duryyadhan Rough, represented by West Bengal Chakki Workers' Union, 5/2 Baranashi Ghosh 2nd Lane, Calcutta-7. (Case No. VIII-C-246/58.)

BEFORE THE SECOND LABOUR COURT, WEST BENGAL

PRESENT:

SHRI PROBODH CHANDRA MAITRA, M.A., B.L., *Presiding Officer, Second Labour Court.*

Government of West Bengal, Labour Department, by its order No. 4203-I.R./IR/11L-510/58, dated Calcutta, the 4th October 1958, referred to me an industrial dispute existing between Messrs. Badri Nath Spice Mills and one of their workmen, Shri Duryyadhan Rough, represented by West Bengal Chakki Workers' Union, for adjudication.

Issue formulated in the order of reference is in the following line:

Whether the discharge of Shri Duryyadhan Rough is justified? To what relief is he entitled?

Notices were issued on both the sides but while the Union submitted their written statement the Company took time for submitting the same. On 31st January 1959, both the parties appeared before me and filed a joint petition stating that the dispute has been amicably settled between the parties out of Court and prayed for passing a "no dispute" award. In view of the fact that the dispute has been amicably settled and the worker has obtained satisfaction, I would give a "no dispute" award in this case.

P. C. MAITRA,
Presiding Officer,
Second Labour Court.

The 2nd February 1959.

(10) Whether the dismissal of Shri Kamal Middya and Shri Kamaluddin is justified? To what relief are they entitled?

Decision

For proper appreciation of the dispute it is necessary to state certain facts as are either admitted by the parties or established in evidence. Messrs. Hamilton & Co. Ltd. (hereafter called the Company) was established in 1808. The Company is under European management. Its business is those of jewellers, gold-smith and silver-smith. It also deals in clocks and watches. For the purpose of its business it has a workshop and a show room. The Company employs workmen of different categories in them. They are silver polishers, gold polishers, wood polishers, case makers, carpenters, electric mistries, peons, jamadars, modellers, designers and clerical staff. Their total number is 55 comprising 13 clerks including Stenographers, 3 designers, one modeller, 29 salaried workmen and 13 sub-staff including durwans, chaprashis, duftries and sweepers. They are all monthly-paid employees. Besides, the Company has contractors who are paid on piece-rate basis. Their total number according to Company is 52. There are also 12 helper boys who according to the Company were appointed by those contractors.

In September, 1948, workers of some of the above categories formed Hamilton Jewellery Workers' Union (hereafter called the Union) for improvement of service conditions and for collective bargaining. The clerical staff, the modellers and the designers did not at the time join the Union. After formation, the Union on behalf of its members presented charter of demands. Thereupon conciliation proceedings started. As no settlement was possible there was reference of the dispute by the Government for adjudication to the Tribunal presided over by Shri A. Das Gupta on 14th November 1949. He gave his award on 3rd March 1950 and this was published in the *Calcutta Gazette* on 4th April 1950. The said award was in respect of gold, silver and wood polishers, case-makers, carpenters, electric mistries, peons, show room bearers, duftries, sweepers, durwans and jamadars. By the award the pay scales for each of the above categories and D.A. at the flat rate of Rs. 30 per month were, among others, fixed (Ext. A). The clerical staff, designers and modellers were not covered by the said award.

Subsequently there was an agreement on 25th April 1951 between the Company and the representative of the piece-raters. This did not concern any of the workmen of the Company. On 3rd December 1951 there was another agreement between the Company and the Union in course of conciliation proceedings whereunder the Company agreed to increase D.A. from Rs. 30 to Rs. 35 per month for the categories of workmen covered under the award of 1950 with effect from 1st December 1951 and the Union undertook not to raise any dispute on economic grounds for a year. Then at the instance of the Union there was another reference on 20th July 1952 wherein the following issues were directed to be adjudicated:—

(1) What arrangement should be made for ensuring adequate payments to piece-rated workers?

(2) How to revise the existing scale of pay with a view to giving relief to those employees who have reached the topmost scale but who have more years to serve in the firm?

(3) Revision of Provident Fund Rules.

(4) What arrangements should be made to ensure equitable distribution of work among piece-rated workers?

(5) Earned leave for piece-rated workers.

(6) Payment of bonus.

(7) Fixation of scales of pay for designers and modellers.

(8) Fixation for overtime rates for work on holidays.

(9) What holidays are the employees entitled to?

(10) What medical help are employees entitled to?

(11) Whether tools are to be supplied to the workers?

The Tribunal gave its award which was published in the *Calcutta Gazette* on 21st May 1953. Regarding issues 1, 4 and 5 in respect of piece-rated workers, the Tribunal found that it would not be proper to direct the Company to treat these persons as their employees. Regarding issues 2, 7 and 10, the Tribunal found that by reason of the agreement, dated 3rd December 1951, which was in operation, the Tribunal had no jurisdiction to entertain the demands under those heads.

Against the said award the Union preferred appeal to the Labour Appellate Tribunal. By the award published in *Calcutta Gazette*, dated 2nd February 1956, the Hon'ble Labour Appellate Tribunal held that 53 workers who were on piece-rate basis were not workmen. It also found that the helper boys were appointed and paid by the piece-raters and not by the Company.

The Union submitted fresh charter of demands for all categories of workers covered by the award of 1950 as also for designers and modellers on 30th July 1956 (Annexure A to Union's written statement); another demand for night guards on 27th August 1956 (Annexure A1 to Union's written statement) and an enlarged demand, among others, for grade of Balai Dutt and allowance for night guards on 27th February 1957 (Annexure A3 to Union's written statement); and lastly one more demand for clerical staff including typist and Stenographers on 26th June 1957 (Annexure A2 to Union's written statement). Ultimately the Union presented a comprehensive demand on 4th July 1957 to the Labour Commissioner (Annexure A4). Conciliation proceedings followed such demands. As no settlement was possible in course of the conciliations, the disputes were referred to this Tribunal for adjudication on 7th January 1958.

Now let us consider the issues separately.

Issue No. 1: This relates to minimum wages and scales of pay. It has already been noted that under the award of 1950 incremental pay scales have been fixed for workmen of different categories except for the clerical staff, designers and modellers. Four workmen of the workshop as below were not also included in them. The statement Ext. A shows the said pay scales of the workers as fixed under the award. Exhibit B2 gives the length of service, the existing salary and D.A. of the subordinate staff and Ext. B1 gives the length of service, existing salary and D.A. of the employees of workshop both as for November 1958. The Company contends that the pay scales as fixed under the award are intended to have long-term operation and this cannot be modified or revised without proof of change in circumstances since the award. It is said as the Union has not alleged or proved any such change, claim for revision of minimum wages and pay scales fixed for the aforesaid categories is barred. In support the Company relies on the decision of the Supreme Court in the case of Burn & Co. Ltd. Howrah Iron Works and their employees. I agree that in view of the said decision the claim for revision for workers covered by the award cannot be entertained without proof of change in the circumstances. The allegation of the Union that the award of 1950 lapsed or that the agreement, dated 13th December 1951, has ceased to be operative by afflux of the time fixed for its operation, would be no ground for revision. Such contention was repelled by the Hon'ble Supreme Court in appeal in the aforesaid case of Burn & Co. Ltd. Howrah Iron Works decided on 11th October 1956. As

the Union has not alleged or proved any change in circumstances, the claim for revision must be held to be barred for these categories of workmen, as mentioned in Exts. B1 and B2 save and except stone cutter P. L. Patel, odd job repairers Panchkori Das and Gopal Chandra Das and engine turner Balai Chandra Dutt. There has been, of course, rise in the cost of living index since the award of 1950 but this would be no ground for revision of pay scales. It is a subject more appropriate to the quantum of D.A.

Regarding the clerical staff, the designers and the modellers, it is agreed on all hands that the demands for fixation of minimum wages and scales of pay for them have come up for adjudication for the first time before this Tribunal. As to the clerical staff, the statement Ext. B filed by the Company gives the length of service, existing salary and D.A. of the members of the clerical staff including the Stenographers. The clerks and Stenographers have no pay scales. The basic salary in respect of two of them is below Rs. 70. The union demands pay scales for them as follows:

Clerks and Typist: 80—5—100—7—135—10—265.

Stenographer: 100—7—135—10—265—12—325.

The Company opposed the claims, but has no objection to introduction of proper pay scales (*vide* page 10 of its written statement). During hearing the Company offered the following grades and pay scales for the clerks and Stenographers (*vide* Ext. H):—

Jewellery Department—80—2.50—100—5—170.

Silver Department—80—2.50—100—5—170.

Watch Department—60—2.50—100—5—160.

A/Cs. Ledger—60—2.50—100—5—150

Cashier—80—2.50—100—5—170.

Coy. A/Cs. Sr.—100—5—160—E.B.—5—205.

Coy A/Cs. Jr.—60—2.50—100—5—160.

Despatch and Filing—60—2.50—80—5—110.

Stock Ledger Keeper—60—2.50—100—5—130.

Showroom—50—2—70—2.50—100.

Stenographer Sr.—150—6—240.

Stenographer Jr.—100—5—150—6—204.

On giving careful consideration to the matter it appears that neither the claim of the Union for one grade and pay scale for the clerks nor Company's offer of as many grades and pay scales as there are departments can be accepted as proper. In the present case no details of the nature of work done by clerks in different departments have been given by the Union or the Company. It cannot be accepted that work of all clerks is of similar nature throughout. Although the routine works of clerks are essentially of similar nature, it cannot be denied that some of the jobs require quick despatch, mature consideration, initiative and thorough mastery of the rules and practice of the establishment Even the care, intelligence and responsibility and initiative involved in different jobs vary from job to job. So, I do not think there should be one uniform pay scale for all. It is both in the interest of the employers and employees that there should be different grades and pay scales rather than one common scale for all of the clerical staff. Grades are essential features of an organisation and cannot be eliminated except at the sacrifice of incentive to work and efficiency. At the same time it cannot be overlooked that too many grades are injurious as these leave scope for nepotism. On a consideration of the materials placed before

this Tribunal, I prefer to adopt three grades and pay scales for the clerks having regard to the special features of this Company.

Regarding their minimum basic wage, it is not disputed that D.A. is paid for the cost of living index exceeding point 180. The basic wage should, therefore, be fixed with 180 point as cost of living index. The principles of fixation of minimum wages have been discussed and settled by the Hon'ble Labour Appellate Tribunal in the case of Buckingham & Carnatic Mills Co. Ltd. (reported in 1952 L.A.C. 490) and Caltex (India) Ltd. (reported in 1952 L.A.C. 402). It has been found that the floor level of wages of an industrial worker must be such as would enable him to maintain 3 consumption units including himself in a state of efficiency with provision for education, medical expenses and amenities. This is the minimum which the worker must have irrespective of the capactiy of the industry or of his employer to pay. Four factors laid down by the Fair Wages Committee Report were considered. In the case of Buckingham & Carnatic Company minimum was fixed for 3 consumption units on a cost of living index at 100. While in the case of Caltex (India) Ltd., the basic minimum salary of a clerk was fixed at Rs. 80 on the basis of cost of living index at 180, but on a lower estimate of 2½ consumption units at the start. The case of Caltex (India) Ltd. cannot however bear comparison with the present Company as the former is an Oil Company with considerable resources carrying monopoly trade. Besides, in the said case at every stage of calculation the figures were rounded. In the case of Karam Chand Thappar & Brothers Ltd. decided by the same Tribunal the minimum of a clerk was fixed at Rs. 70 on the cost of living index at 180 with 2½ consumption units at the start. The figures arrived at in this case were the exact figures found on calculation. The Mercantile Tribunal of West Bengal also fixed the minimum of a clerk at Rs. 70 for 3 consumption units but on the living index at 100. The minimum fixed in the award of Mercantile Tribunal which is in conformity with the one in the case of Karam Chand Thappar is more appropriate to the clerical staff in the present Company. I, therefore, think that Rs. 70 is the adequate minimum for a clerk in this Company. Similarly, I consider Rs. 100 to be adequate minimum basic salary for a Stenographer in this concern. Having regard to Union's claim, the Company's offer as in Ext. H and other factors, I lay down the following grades and pay scales for the clerks and Stenographers:—

For clerks and typists:

Grade C—70—[illegible] 9[illegible]—5—11[illegible]—[illegible]—170.

Grade B—11[illegible] 7—12[illegible] 8—180.

Grade A—16[illegible] 10—200—12—260.

Stenographers:

Rs. 100—7—184—E.B.—10—26[illegible]—12—304.

Those of the clerical staff including the probationer who were getting basic salary below Rs. 70 should be placed in Grade C and pulled up to the minimum basic salary of Rs. 70. Those whose basic salary is between Rs. 70 and Rs. 100 should similarly be placed in Grade C and start from the next higher stage in the pay scale of Grade C. Those with salary above Rs. 100 and below Rs. 160 should be placed in Grade B and start from the next higher stage in the pay scale of the said grade. Those with salary of Rs. 160 and above should be placed in Grade A and should start from the next higher stage in the pay scale of that grade. The clerks of C Grade will be eligible to promotion either to Grade B or to Grade A while the clerks on B grade will be eligible to promotion to A Grade according as the particular case may deserve.

The two Stenographers on probation should be fitted in the pay scale fixed for them by the Company while the other Stenographer, Shri S. K. Mukherji, should be placed in the next higher stage in the pay scale.

Regarding the Designers and Modellers:

There are three designers in this Company and one modeller. The existing basic salary of the designers is, respectively, Rs. 140, Rs. 80 and Rs. 80, while that of a modeller is Rs. 130. The Union demands following pay scales for the designers and modeller:—

Designer Senior—125—10—225—15—375.

Designer Junior—95—5—145—7½—220.

Modeller—125—10—225—15—375.

The company offered the following pay scales for them:—

Designers Senior—70—3—100—5—160.

Designers Junior—40—2—60—3—96.

Modeller—70—3—100—5—160 (*vide* Ext. H1).

It, however, appears that during conciliation proceedings better pay scales were offered for them. These are as follows:—

Grade A designer—85—5—250.

Grade B designer—50—3—200.

Modeller—125—5—250 (*vide* Ext.-2).

The Union is agreeable to accept the grades and pay scales for the designers and modellers as offered above in conciliation. I find no reason why the Company should go back upon their previous offer. The grades and pay scales as offered in conciliation as above are, therefore, accepted and laid down for the designer and modeller. The designer Prankrishna who held certificate for draftsmanship after 5 years' course, I think, is eligible to be placed in the senior pay scale of Rs. 85—5—200 for the designer. His evidence also reveals (P.W. 1) that he got no increment from 1952. He should, therefore, start from the next higher stage in the senior grade. The other two designers should be placed in the junior grade for designers. Designer Sudhansu Roy should start from the next higher stage in the grade: while Prosad Kumar Paul should start from the stage of Rs. 89. Prosad Kumar Paul is given three increments as he had put in 24½ years' service. The modeller Kalosashi Banerji should start from the next higher stage of his pay scale.

Regarding others, namely, stone cutter P. L. Patel and odd job repairers Panchkari Das and Gopal Chandra Das and engine turner Balai Chandra Dutt mentioned in Ext. B1 who are not covered by the award of 1950:

Engine turner Balai Chandra Dutta—The Company offered him a pay scale of Rs. 75—5—200 with D.A. of Rs. 35 per month by its letter, dated 17th August 1955. Balai Chandra Dutta accepted the said offer. So his pay scale continues to be Rs. 75—5—200.

Regarding stone cutter P. L. Patel:

He has put in about 6 years' service and his present salary is Rs. 165 with D.A. of Rs. 35. Having regard to the fact that the job of stone cutter is of a skilled category, I fix the pay scale of Rs. 50—3—200. The existing stone cutter should start from the next higher stage in the scale.

Regarding odd job repairers:

Panchkari Das has been getting a basic salary of Rs. 105 and Gopal Chandra Das Rs. 32 besides D.A. of Rs. 35 each. I lay down the following pay scale for odd job repairers:—

Rs. 35—1—45—E.B.—3—75—E.B.—5—125.

Panchkari Das should start from the next higher stage and Gopal Chandra Das should start from the bottom of the scale, namely, Rs. 35. The issue is decided accordingly.

Issue No. 2: This relates to D.A. Those who are covered by the award of 1950 had been allowed D.A. at the flat rate of Rs. 30 per month. Similarly, other workmen of the workshop were getting D.A. at the rate of Rs. 30 per month. As a result of subsequent settlement on 3rd December 1951 (Ext. D), their D.A. was increased to Rs. 35 per month. In the first charter of demand (Annexure A to Union's written statement) the Union demanded that their D.A. shuld be increased to the flat rate of Rs. 50 per month. In the subsequent charter of demands the claim was further inflated. The Company opposed the claims. There has been undisputedly rise in the cost of living index since the agreement in December 1951. The rise, it appears, has been by more than 20 points. The said rise would *prima facie* support Union's claim for increment in D.A. But at the same time it is an accepted principle that cent. per cent. neutralization is not desirable and that D.A. should not be considered in isolation but in conjunction with wages and other advantages. The Company, it appears, was agreeable to pay additional sum of Rs. 2 as D.A. in course of conciliation proceedings. So giving due consideration to all the relevant factors I grant an increment of Rs. 5 in D.A. to make it Rs. 40 per month for these workers.

Regarding clerical staff including the Stenographers, the designers and the modellers, they had formerly been getting D.A. at the rate of 25 per cent. of the basic pay and this was subsequently raised to 65 per cent. of which 5 per cent. was payable at the time of Puja. The Union originally demanded 80 per cent. of the basic pay as D.A. for designers and modellers (*vide* Annexure A) and D.A. according to Bengal Chamber of Commerce scale for the clerical staff. Subsequently it demanded uniformly Bengal Chamber of Commerce scale of D.A. for the clerical staff as also for designers and modellers. The Company opposed the claim. It stated that the present D.A. at 65 per cent. was adequate and should not be altered. The Company is not a member of the Bengal Chamber of Commerce and has, therefore, no obligation to grant such scale of D.A. The Bengal Chamber of Commerce scale of D.A. is too generous to be conceded. It has already been noted that D.A. should not be considered in isolation but in conjunction of wages and other advantages. I think 5 per cent. increase in their existing D.A. would be sufficient to meet the requirements of the situation having regard to pay structure and other amenities. The D.A. for the clerical staff, designers and modellers is accordingly raised from 65 per cent. to 70 per cent. of the basic pay per month.

Issue No. : Holidays: At the time of the award in 1950 there were 8 festival holidays. Since the award the Company increased the number of holidays from 8 to 14/15 days. Union claims holidays as per Negotiable Instruments Act. The Company opposed the claim. I find that the existing number is quite adequate and should not be disturbed.

Regarding leave, the Union's demand is as follows:—

Casual leave—10 days with pay in a year to accumulate in case of the employees coming from outside West Bengal for two years.

Privilege leave—One month with pay to accumulate up to 3 months.

Sick leave—14 days with pay to accumulate up to six months. In case of serious illness leave for 3 months should be granted with half pay.

The Company resists the claim. It says that the existing leaves are much in excess of what the workmen are entitled under the relevant Acts and should not be increased. From the previous award of 1950 it appears that the workmen get 10 days' casual leave with pay in a year. So new direction is necessary. The claim for accumulation of casual leave in case of employees outside West Bengal cannot however be granted. Regarding privilege leave, those who work in the showroom would be governed under the Shops and Establishments Act. They are under the said Act entitled to 14 days' privilege leave on full pay and D.A. to accumulate up to 28 days. On the other hand, those who are attached to the workshop would be governed by the Factories Act and would be eligible to get annual leave as provided in section 79 of the Factories Act. I do not think I can deviate from the provisions of those Acts. I, therefore, direct that the existing practice in this respect should continue.

Regarding the amount of sick leave, the previous award of 1950 provided 7 days' sick leave on full pay in a year on production of a medical certificate from a registered doctor. Considering the needs of the time I raise the quantum of sick leave to 10 days with full pay and 7 days on half pay in a year. The sick leave on full pay will accumulate up to 20 days. The issue is decided accordingly.

Issue No. 4: Under the award of 1950 working hours as then existed were upheld. The workmen in the Company can be divided broadly under two categories—those employed in the showroom and those employed in the workshop. For those employed in the showroom, the hours as prescribed in the Shops and Establishments Act would govern them, while for those who are employed in the workshop, the Indian Factories Act will govern them. There is nothing to show on the side of the Union that the existing working hours are in excess of those prescribed in these Acts. There is also nothing to show that since the award there has been change in the working hours of any category of workmen. The demand of the Union that the working hours of the clerks should be from 9-30 a.m. to 5-30 p.m. with one hour recess in place of the existing from 9-30 a.m. to 6 p.m. with one hour recess, cannot so be allowed. Merely because such working hours prevail for the clerks in the Dalhousie Square area would be no sufficient ground to introduce it in this Company when the existing hours are less than the maximum limit fixed under those Acts. The claim for reduction of working hours is accordingly rejected.

Issue No. 5: The Union demands a tiffin allowance of 10 annas per day. The Company opposes the claim. It is an *ex-gratia* payment and cannot be claimed as of right. The claim in this respect is accordingly rejected.

Issue No. 6: The Company closes its accounts on 31st October every year and pays bonus usually in April or May of the following year. For the year ended 31st October 1956 the Company admittedly paid bonus equivalent to one month's wages in April 1957. The Union demands one month's wages in addition as bonus for the said year. The Company opposes the claim. It contends that there will be no surplus after deduction of prior charges to justify such claim for one month more. Ext. C1 is the audited balance-sheet and profit and loss account for the year ended 31st October 1956. Company's calculation according to Full Bench Formula is contained in the statement Ext. I supported by valuation reports Exts. J and J1. These show that there would be a deficit of Rs. 10,147 after deduction of prior

charges. Union's calculation to the contrary as contained in statement Ext. 4 showing a surplus cannot be accepted as correct having not been drawn up according to the Full Bench Formula. I prefer to accept the Company's calculation. In any case it appears that after making due allowance of prior charges there would be no surplus left to justify grant of one more month's wages as bonus for the year ended 31st October 1956. Claim for additional bonus for the said year is accordingly rejected.

Issue No. 7: The existing rate of contribution to the provident fund is 6¼ per cent. of the basic pay. The Union demands that it should be 10 per cent. of the basic pay or 6¼ per cent. of the total of basic pay and D.A. with like contribution by the employer. The Company contends that the present rate is sufficient and reasonable. When the Company has conceded provident fund, it should in fairness fall in line with the provisions in the Provident Fund Act. The Act limits contribution up to 6¼ per cent. on the basis of the total emolument comprising basic pay and D.A. by the employer. The contribution is accordingly permitted to be 6¼ per cent. of the total of the basic pay and D.A. by the employees with equal contribution by the Company. Regarding registration of the provident fund, the Company submitted that it was not possible at the moment to do so because a portion of the fund was invested in preference shares of the Company carrying 4½ per cent. interest. It was alleged by the Company that under orders of the Registrar of Companies, the said investment had to be redeemed before the end of the year, that is before end of 1958 and that after such redemption, the fund would be registered. In the circumstances stated, the Company is directed to register the fund as soon as possible and not later than two months from the date of publication of the award.

Issue No. 8: Formerly the durwans of the Company used to be employed on guard duty during night without any extra payment. The Union demanded night guard allowance at the rate of Rs. 10 per month for them. But since the reference the Company has appointed separate night guards for the period of duty. So the occasion for the claim has ceased. If, however, the Company employs any durwan in night duty other than the night guards appointed for the purpose, it shall have to pay a suitable allowance to them. The allowance should be on the basis of overtime rate.

Issue No. 9: The matter was also considered in the award of 1950 under point No. 6. Subordinate staff gets regular medical aid. The clerical staff are also given assistance except in case of minor ailments. Besides, Employees' State Insurance Act has been extended to this Company. The Company accordingly contends that the system of medical aid as is now current is adequate and should not be enlarged. The matter is entirely within the discretion of the Management. The Company has no legal obligation whatever. The Tribunal cannot, therefore, direct enlargement of the benefits.

Issue No. 10: This relates to dismissal of one workman Shri Kamal Middya *alias* Kamaluddin and not to two workmen as suggested in the issue. The case made out in the written statement by the Union in respect of the said workman is as follows: Kamal Middya *alias* Kamaluddin was suddenly suspended on 29th March 1956, and thereafter dismissed on 5th April 1956, without any enquiry and in violation of principles of natural justice. The Union accordingly prayed for reinstatement of the workman as also for compensation for the period of forced unemployment. The Union examined the workman Kamal Middya *alias* Kamaluddin (P. W. 8) besides filing the orders of suspension and dismissal [Exts. 3 and 3(a)].

The Company opposed the claim. It pleaded as follows: "Kamaluddin (Kamal Middya) was a wood polisher and was a factory worker. He was

very irregular in his attendance and frequently absented hmiself without leave and withtout any prior intimation to the Company. In 1950 he had been dismissed for that reason and reappointed on terms and conditions contained in the Company's letter to him, dated 7th December 1950, that if he did not attend the place of his duties at the times published for workshop hours, he would be discharged unless a written request for leave was submitted in advance or a medical certificate was produced or sent within a period of two working days, and further on condition that he would fulfil all the duties entrusted to him with the greatest care and attention to the entire satisfaction of the Management. Notwithstanding such conditions of his reappointment the said Kamaluddin continued to absent himself without prior leave or sending medical certificates as provided in the said conditions of reappointment and also his work was far from satisfactory. As a result of his repeated absences without notice and of his continued bad workmanship the Company often failed to deliver goods to its customers in time and on various occasions he was warned therefor.

Prior to 29th March 1956, Kamaluddin absented himself for three days without any prior notice and also did not send any medical ceritficate. In the premises, by a registered letter, dated 29th March 1956, the company suspended him and after having gone through his records justly dismissed him by a letter, dated 5th April 1956, which was also sent by registered post. That Kamaluddin was absent without leave and had not sent any medical certificate would appear from the records of the Company and there was nothing to enquire about. Up till now either he nor the Union has offered any justification for the wrongful conduct of Kamaluddin as aforesaid. Although it appears that the matter was referred to the Labour Commissioner as early as June 1956, the matter had not been referred for adjudication until January 1958. Further the matter had not been included in the Union's charter of demands, dated 30th July 1956 or 27th August 1956. This is a stale dispute and should not be entertained. Another man has been appointed in his place for over a year and a half any interference now would lead to a fresh industrial dispute".

The Company examined its Managing Director Mr. C. A. Flanigan (D.W. 1) besides filing documents (Exts. E to E11, F and G series).

Kamal Middya *alias* Kamaluddin was the only wood polisher employed in the workshop of the Company. He had once been admittedly dismissed in July 1950 and was reappointed on 7th December 1950 by the letter, dated 7th December 1950 (Ext. E) which he had admittedly signed. Evidence of P.W. 8 Kamal Middya that the contents of the letter Ext. E were not read out and explained to him before he signed is unreliable. There is a clear recital in the letter that the contents were explained to him and he understood them and accepted them. The undertaking in that letter was that if he did not attend the place of his duties at the time published for working hours or he did not submit written application for leave in advance or if a medical certificate was not produced or sent to the Company within a period of two working days, he would be discharged. Kamal Middya further agreed to fulfil all the duties entrusted to him with the greatest care and attention to the entire satisfaction of the Management (Ext. E). Under the award of 1950 service rules were framed. These were incorporated in the booklet (Ext. F). Rule 11 of the service rules (Ext. F) enjoins that any workman who desires to obtain leave of absence shall apply in writing 7 days in advance to the Departmental Manager concerned. It has also been provided that 7 days' notice will be usually insisted upon but this rule may be relaxed in suitable cases where the employee has no means to foresee the grounds for which special leave is wanted. In clause (d) it has been laid down that if any employee remained absent without leave beyond the

period for which leave has been granted or subsequently extended he should lose his lien on his appointment. Rule 13 of the service rules lays down what acts or omissions would be considered as major misdemeanours. Absence without leave is a major misdemeanour under clause (n). Similarly, commission of misdemeanour after previous two warnings is a major misdemeanour under clause (j). A workman is liable to be dismissed without notice or any compensation in lieu of notice if he is found to be guilty of a major misdemeanour.

After Kamal Middya rejoined on terms as aforesaid on 7th December 1950 he again started absenting without previous leave or without sending medical certificate within 2 days as required under Ext. E or under the service rules. Attendance in the Company is recorded by clock stampings. Attendance for a week is maintained in one card. The employee concerned is to punch such card. Exhibit G series are such records of attendance of Kamal Middya for different weeks. On 16th June 1953 Kamal Middya received warning for absence without permission on 1st June 1953 (Ext. E1). On 13th September 1955 he similarly received warning for absence without leave from 6th September 1955 to 10th September 1955 (Ext. E2). On 17th November 1955 he was again warned for absence without leave (Ext. E3). On 22nd December 1955 he was warned for leave without absence (Ext. E4). It appears that he was absent for 44 days without leave during 1955 (Ext. E5). On 1st March 1956 he was warned for unsatisfactory workmanship in respect of the Grandfather Clock (Ext. E6). On 26th March 1956 he was given a small wooden shield for polishing which was due for delivery on 27th March 1956 to the Commandant, National Cadet Corps. The finish was not up to the mark and contained various defects as noted in the letter (Ext. E7). For this as also for his absence from 27th March 1956 the delivery could not be made on 27th March 1956. According to Kamaluddin he was given the work at 10 a.m. and was asked to finish by 1 p.m. and thus the finish was not up to the mark. He, however, admitted that the wor' could be finished in one hour. So there was no excuse on the part of Kamaluddin for not finishing it satisfactorily. He however absented without leave from 27th March 1956 to 29th March 1956.

On 29th March 1956 Company suspended him on the grounds as below:—

"Despite our repeated warnings that we would be forced to take disciplinary action if you continued to absent yourself from work you have again been absent for three days without applying for leave, giving any written explanation or submitting a medical certificate. No less than four urgent jobs have been held up and in each instance we have been unable to make deliveries of goods to customers on the dates promised.

You have also been repeatedly warned of bad and careless workmanship and a small wooden shield 6" high promised for delivery on 27th March 1956 to the Commandant, National Cadet Corps, is so badly finished we have had to remake it. Contrary to all custom the wood has not even been sand papered but spray painted with black paint without reference to anyone.

It is impossible for us to continue to disappoint customers on delivery dates and with bad workmanship and in the circumstances your services are forthwith suspended. In spite of our repeated warnings no effort has been made by you to improve your work or to attend regularly."

So the charges against him were sufficiently indicated in the said letter of suspension. Kamaluddin admittedly received the said letter sent to him through post. He did not submit any explanation. On 5th April 1956 the

Company dismissed him by the letter of that date (Ext. E8). Kamaluddin also admittedly received the said letter of dismissal sent to him through post.

According to Kamaluddin, he wrote a postcard to the Company for leave for the period of absence leading to his dismissal. The case is afterthought and unreliable. Then according to him after receipt of suspension order and dismissal order through post, he came to the office after one week with a medical certificate and gave it to D.W. 1. But D.W. 1 denied that Kamaluddin produced any medical certificate which I accept. Never before Kamaluddin stated that his absence was on account of illness. In the letter which the Union wrote on 30th May 1956 to the Labour Commissioner about him it was simply stated that "the absence referred to in the letter of dismissal was for very good reason and for reusons beyond control of the said workman". It was nowhere stated that he was ill. Even if he was ill, he was to submit medical certificate within a period of two working days under the terms of reappointment which he did not in any case do. The Company was, therefore, right in dismissing him in view of the terms of reappointment and service rules already referred to and having regard to his past conduct.

As the charge against him was indicated by the Company in their letter of suspension and as the workman has no satisfactory explanation to the said charges, I find nothing to interfere. Merely because he was not formally proceeded against, this would be no ground for interference. There is no allegation or proof that the action of the Company was *mala fide* or from a motive of victimisation. The circumstances show that the Company acted *bona fide* throughout. It, therefore, follows that the workman is entitled to no relief.

This is my award.

Asst. Secy. to the Govt. of West Bengal.

No. 438-I.R./IR/11L-318/57.—7th February 1959.—Whereas under the Government of West Bengal, Labour Department, Order No. 2322-I.R./IR/11L-318/57, dated the 3rd July 1957, the industrial dispute between Messrs. A. & J. Main & Co., Ltd., 16 Netaji Subhas Road, P.O. Box No. 36, Calcutta-1, and their workmen employed in the factory and in the Head Office represented by A. J. Main Workmen's Union, 164 Andul Road, P.O. Botanic Gardens, Howrah, and A. & J. Main Employees' Association, 45/1B Beadon Street, Calcutta, regarding the issue mentioned in the said order being a matter specified in the third schedule to the Industrial Disputes Act, 1947 (XIV of 1947), was referred for adjudication to the Fifth Industrial Tribunal;

And whereas the said Fifth Industrial Tribunal has submitted to the State Government its award on the said industrial dispute;

ANNEXURE

In the matter of an industrial dispute existing between Messrs. A. & J. Main & Co., Ltd., 16 Netaji Subhas Road, P.O. Box No. 36, Calcutta-1, and their workmen employed in the factory and in the Head Office represented by A. J. Main Workmen's Union, 164 Andul Road, P.O. Botanic Gardens, Howrah, and A. & J. Main Employees' Association, 45/1B Beadon Street, Calcutta.

BEFORE THE FIFTH INDUSTRIAL TRIBUNAL, WEST BENGAL

PRESENT:

SHRI G. PALIT, *Judge, Fifth Industrial Tribunal.*

Present for the Company: Shri J. N. Chatterji, Assistant Labour Adviser, Indian Engineering Association, Calcutta.

Present for the Workmen's Union: Shri Ram Sen, an officer of the Union.

Present for the Employees' Association: Shri Jiten Banerji.

By Government order No. 2322-I.R./IR/11L-318/57, dated the 3rd July 1957, the aforesaid dispute has been referred to the Fifth Industrial Tribunal, presided over by me, for adjudication under section 10 of the Industrial Disputes Act, 1947 (XIV of 1947). The said Fifth Industrial Tribunal was constituted under Government notification No. 808-I.R./IR/-3A-2/57, dated the 11th March 1957.

2. The reference was received here on 8th July 1957. After usual notices the Employees' Association filed written statement on 26th July 1957. The Workers' Union filed written statement on 26th August 1957. The Company filed written objection on 18th September 1957. After several adjournments the case was taken up for hearing on 2nd January 1959. It was continued on 5th January 1959 and 6th January 1959 when the hearing was concluded including the argument. The award was reserved.

3. The only issue arising for decision as per the order of reference stands as follows:—

Are the workmen at the factory as well as at the Head Office entitled to bonus for the years 1954 and 1955 and, if so, what should be the quantum of bonus for those years?

AWARD

According to the Union the Company is an old and well-reputed concern, and is steadily expanding its business. It manufactures railway fencings, steel fabrications, etc., as also does take undertakings of contract for agricultural and industrial buildings. It also does import business of barbed wires, nettings, etc. The Union claims four months' basic pay as bonus for the year 1954 and also a similar quantum for 1955. This claim is said to be exclusive of the customary Puja bonus of one month.

The Company contends that it is a branch of A. & J. Main & Co. Ltd., a firm of structural engineers incorporated in Great Britain. It is an engineering concern, pure and simple. It designs, fabricates and erects steel

structures. It has no import business. It employs 52 persons in the Head Office and 300 workmen in its Howrah factory. During the year 1954 there was an illegal strike by the workmen for several weeks resulting in loss in trade. But the Company still granted bonus of one month's salary *ex-gratia*, only to maintain amicable relation with the workmen, and to keep up increased production. It also granted one month's salary as bonus for 1955 though, it contends, there was no available surplus according to the formula set forth by the Labour Appellate Tribunal of India in the case of Bombay Mill Owners' Association *versus* Rastriya Mill Mazdoor Sangha. It stubbornly denies the existence of any Puja bonus or customary bonus in the Company as a condition of service. Lastly, it contends that the claim of bonus for 1954 and 1955 is a belated one and, as such, liable to be rejected.

Coming to the issue itself, I find on evidence that the balance-sheet as per the supplementary profit and loss account for 1954 shows a loss to the extent of Rs. 90,000 and odd. It is now well-established law, and it has also been held by the Hon'ble Supreme Court in the Muir Mills case that no bonus would be available for the year in which the Company has sustained a loss. "No profit, no bonus is the guiding principle". Particularly, the workmen here are not entitled to claim any bonus in the face of loss resulting from any strike or "slow down" resorted to by them. I need not go into the detailed calculation on the lines of the formula set forth for bonus in the aforesaid case in respect of the year 1954, because loss is fatal to such claim.

Regarding the claim of bonus for the year 1955, I have taken charts of computation both from the Company and the Unions based on the lines set forth in the aforesaid Labour Appellate Tribunal's formula. Before I go into the actual calculation I dispose of the preliminary objections raised by the Company to defeat the claim of bonus for the year 1955. The Company's first objection is that the claim is a belated one. It was held in the Muir Mills case by the Hon'ble Supreme Court that a belated claim for bonus, viz., when the accounts have already been settled and the amounts distributed, cannot be sustained. This position in law has not been controverted by the representatives of workmen before me. They, however, contend that the claim on fact is not a belated one. Exhibit C filed by the Company shows that the accounts for the year ending 31st December 1955 were closed on the 24th August 1956. I find from the Ext. 1 that the Workmen's Union already made a demand for annual bonus in respect of the year 1955 on the 28th September 1956. So the claim seems to have been made only a month after the accounts had been closed of the year 1955, as admitted by the Company in the Ext. C. If I take into account some time which is bound to lapse between the points of time of the closure of accounts and its coming to the knowledge of the workmen, I must hold that the claim for bonus in respect of 1955 is not at all a belated one. This disposes of the preliminary objection in respect of bonus claimed by the workmen.

The other objection about bonus is that it was never a customary or Puja bonus, and that it was not a condition of service. The Union on whom the onus lay in this respect, has not placed any evidence before me to come to the conclusion that there was any bonus which was either customary or which was treated as a condition of service. To answer the requirements in such a case it is necessary to show that such payment of bonus is continuous, and that it must trace back its origin to a distant date. It must also be shown that such bonus was paid despite losses. But such evidence is wanting here. So I find that there is no bonus here in this Company which can be claimed either as Puja bonus or customary bonus or as a condition of service.

Next, I come to the actual computation of the profits earned by the Company on the lines of the Appellate Tribunal's formula.

	(In lacs.)	
Balance as per supplementary profit and loss account		3·57 (omitting thousand).
Add :—		
(1) Depreciation charged in the said account ..	·49	
(2) Depreciation provided in branch profit and loss account.	·33	
(3) Interest on "Nett Capital" invested by the Head Office.	·99	
(4) Bonus in respect of 1954 paid in 1955 ..	·21	2·02
	2·02	5·59
Less normal depreciation		·89
		4·70
Less income-tax at annas 7 in the rupee on Rs. 4 lacs and 68 thousand.	2·05	
Plus 10 per cent. extra payable by Sterling Company	·46	2·51
	2·51	2·19
Less return on fixed capital of Rs. 16 lacs and 81 thousand.	1·00	1·00
		1·19
Less return on unremitted profit and reserves of Rs. 3 lacs and 35 thousand at 4 per cent.	·13	·13
		1·06
Less Rehabilitation allowance Rs. 50,000		·50
		·56

Working out on the lines supplied by the Company I get Rs. 56,000 as the surplus. The Company has assessed it at Rs. 48,000.

Next I come to the detailed calculation of Rehabilitation on the score of machineries, plants, etc., and buildings. For this I have the objections as filed by the Union.

Machineries, plants, etc.:

The Union has accepted that 2·36 is the total cost value of the machineries up to 1947. Since 1948 up to the end of 1955 the total cost stands at 4·76 lacs. It has conceded the multiple of 2·7 up to 1947 but has allowed no multiple regarding the subsequent years. I accept that. So the total according to this calculation would come up to—

(In lacs).

Total cost up to 1947—2·36×2·7=6·37

Total cost up from 1948 to 1955 =4·76

11·13 (*vide* Union's chart).

Less accumulated (normal depreciation) up to 1955.	4·13		
Breakdown value at 5 per cent. ..	0·36		
	4·49	4·49	
		6·64	(*vide* Co.'s chart).

This is divided by 15 which is the normal life and efficiency of machineries. In this case it would appear that the cost on the head of machineries subsequent to 1947 is double the cost on the score of machineries prior to that date. In that view 15 years should be the proper divisor in my opinion. So the total Rehabilitation allowance per year would be $\frac{(6\cdot64)}{15}$ =Rs. 44,000 roughly.

Buildings:

The cost up to 1951 is ·53×2·25 =1·20 (multiple is 2·25).

Subsequent cost up to 1955 for additions 1·79 .. .. .. =1·79

2·99 (*vide* Union's chart).

(I multiply the cost up to 1951 by 2·25. Not the entire cost but the cost incurred up to 1951).

Less depreciation	0·96	
Less 5 per cent. breakdown value	0·11	
	1·07 (*vide* the Union's chart).	1·07
		1·92

This being divided by 30 which is the normal life of a building, the Rehabilitation cost would be roughly Rs. 6,000. So the total annual Rehabilitation cost comes to Rs. 50,000. According to the Company the average monthly salary for 1955 would amount to Rs. 23,919 (*vide* Ext. 6). I think that half month's more of basic salary should be given as bonus for the year 1955 out of the available surplus in the hands of the Company. So my award is that for the year 1954 I grant no bonus except what has been given *ex-gratia* by the Company for the said year. For the year 1955 I grant six weeks' basic salary as bonus out of the available surplus from which one month's basic salary already given by the Company should be deducted. The balance of bonus is made payable within one month from the date the award becomes operative. This bonus would be available to all workmen and staff who had been on the muster-roll in the year 1955.

The Union contends that income-tax must be charged as annas 7 in a rupee and no extra 10 per cent. should be given because it is a Sterling Company. But I do not accept this objection because unlike companies incorporated in India, foreign companies have to pay tax at a fixed rate regardless of the dividend declared. So the tax allowed in the calculation should be the actual rate at which foreign companies are assessed. This comes to annas 7 in a rupee and 10 per cent. extra. In support of the rate for the year 1955 I refer to the correspondence of the firm Messrs. Lovelock & Lewes as per the letter, dated the 3rd January 1959, placed before me.

The Union has also taken objection that the Head Office charges in England as per supplementary profit and loss account should be deducted. But here the Company is in England and the branch only is in India. So the Head Office charges form an essential item of expenditure in the management. This cannot be left out of reckoning.

PRESENT:

SHRI N. C. CHATTERJEE, *Judge.*

The Government of West Bengal, in the Department of Labour, by order No. 1085-I.R./IR/4L-15/58, dated 18th March 1958, referred under sections 7 and 10 of the Industrial Disputes Act, 1948 (XIV of 1948), an industrial dispute between the Route Committee of Route Nos. 51 and 56, 371 G. T. Road, Salkia, Howrah, and their workmen represented by Howrah Motor Transport Employees' Association, 4 Nityadhan Mukherjee Road,

Howrah, regarding matters specified in the second schedule of the Act, to this Court for adjudication:—

Schedule

Whether the dismissal of Shri Amulyadhan Ganguly is justified? To what relief is he entitled?

AWARD

This is a case arising out of an alleged illegal dismissal of one Shri Amulyadhan Ganguly, previously employed as a Starter under the Route Committee of Route Nos. 51 and 56, 371 G. T. Road, Salkia, Howrah (hereinafter described as the Company for the sake of brevity).

The facts in this case, as stated by the Union, in brief, are as follows:—

The Company is a successor to the Joint Route Committee for Route No. 51, Route No. 54 and Route No. 56 after the aforesaid Joint Service Committee ceased to exist on or about 15th August 1957.

On 21st October 1957 one Shri Sudhir Kumar Deb, another employee of the said Route Committee and a near relation of Shri Sachindra Nath Bhowmic, the Secretary of the said Route Committee, came to the place of duty of Shri Ganguly and tried to interfere in an irregular manner against which Shri Ganguly protested. Shri Ganguly availed himself of 2 days' leave on 24th October 1957 and 25th October 1957 and on 26th October 1957 when Shri Ganguly went to the office of the Company to take some necessary papers Shri Sachindra Nath Bhowmic took away the 'starter sheets' from Shri Ganguly's hand and unjustly and abruptly terminated his service. Shri Ganguly was not charge-sheeted, nor was any enquiry held. Hence the reference.

The Company, in its written statement, denies the material allegations in the written statement of the Union, and contends that it was a case of voluntarily leaving services for reasons best known to the workman. He left the job without submitting any explanation while enquiry was pending.

27th January 1959 was fixed for hearing of the case when both the parties put in a joint petition of compromise stating that the matter was settled amicably and the terms of settlement are that Shri Ganguly will not press for reinstatement as the Company agreed to pay him a lump sum of Rs. 400 in two instalments first instalment by February 1959 and the second and last instalment in April 1959. Both parties therefore pray for an award in terms of the petition of compromise.

The terms of the petition of compromise appear to be fair, reasonable and lawful and may be given effect to.

The dispute is therefore disposed of in terms of the petition of compromise which do form a part of the award.

PRESENT:

AWARD

This industrial dispute regarding the following four issues, between Messrs. P. N. Kuthe (hereinafter referred to as the Company) and their workmen represented by the Engineering Mazdoor Sabha was referred to this Tribunal for adjudication by the Government of West Bengal, Labour Department, Order No. 1329-I.R./D/10L-107/56, dated Calcutta, the 29th March 1958.

The issues are:—

(1) Pay and dearness allowance.

(2) Leave and holidays.

(3) Bonus for 1956 payable in 1957.

(4) Revision of working hours.

Both parties filed written statements, adduced evidence, oral and documentary, and advanced arguments in the case.

Issue No. 1: This issue relates to pay and dearness allowance. In this connection the Union suggested four grades, with incremental scales of pay, alleging that at present practically no increments are allowed to everybody and that the total emoluments, including dearness allowance, which allowance is not allowed to all, are wholly inadequate to meet even partially the minimum needs of an average worker at this day. It is suggested in Ext. 1 (Annexure 'B' to Union's written statement) that an unskilled workmen should start with a basic wages of Rs. 1-8 per day, semi-skilled Rs. 2; skilled Rs. 3 and highly skilled Rs. 4 per day. In Annexure 'A' to the written statement, the Union suggested that a family of three consumption units would require a minimum of Rs. 262-2-6 for balanced diet and also for clothing and bedding, housing, etc., in a month. It is also suggested that the existing rates of wages, including dearness allowance are even lower than those allowed to workers in other comparable concerns in the locality and lower than the standard wages fixed under the Third Engineering Tribunal's award. The Company above

all pleaded financial incapacity to pay any further increase in wages including dearness allowance and contended that the existing rates are, considering the size of the concern in which the workers are employed, quite adequate.

This business is said to be fairly old and is engaged in the work of repairs of oil engines and machineries, etc. Now it is in evidence of both sides that this is a small proprietory concern and not strictly speaking a Company. Its main business is confined to repair works. It manufactures broken machinery parts. It undertakes such repairs in distant places too. It is said that that work is done by an additional staff, not involved in this dispute. It is in evidence of P.W. 1 Shri Lakshmi Kanta Ghorai that this business employed 12 workmen only before he joined and also at present. I have already referred to above that according to the Company the business has only a small capital and assets of the approximate value of Rs. 16,400 and that its expenditure, at least in the past three years, exceeded the receipts obtained from sales. Unfortunately, a true picture of the financial position of the Company is not available from either party. The proprietor, it is said by P.W. 1, has got a house and car out of this business. P.W. 1 does not know whether the proprietor inherited any fortune or had earned every bit of it out of this business. We are obliged to conclude that this is a small business in which a handful of workmen are employed to do repair works and some manufacturing works. Even, according to P.W. 1, moulding is done outside by another engineering firm and not in the Company's Workshop. This fairly gives an idea of the size of the business, the number of workmen employed and the capital invested in it. By no stress of imagination it can be compared with any other engineering firm which had been parties to any awards of the Major Engineering Tribunals. There is also no evidence on record to show that any other comparable concern in the locality pays comparatively higher wages to their workmen. The existing rates of wages are not very much in dispute although there are certain discrepancies between the Union's statement Ext. 1 and the Company's statement Exts. A and A(1). According to P.W. 1, Tarapada, Jatin and Sankar had already left the Company's service. Whether Tarapada had started an individual factory of his own is not very material for our present purpose. Benares, another employee out of a total of 15 in Ext. 1 is said to have gone on leave. According to the Company he also had resigned from its service. Practically speaking, we are now left with 12 workmen only whose pays and dearness allowance are in dispute. According to Company's own evidence Exts. A and A(1). Nimai Chandra Ghose and Nilmoni Mehta (sometime apprentice) are getting a total of Rs. 52 and Rs. 45-12 in a month of 26 days. Nilmoni does not get any dearness allowance at all. According to O.P.W. 1 Shri Porel, Nilmoni is now working independently on a machine after receiving his training as an apprentice. P.W. 1 said that Nilmoni was an apprentice two years ago. Now he was working independently on a machine. So there cannot be any justification for treating him any further as an apprentice. Now, the Third Engineering Tribunal, has awarded an initial pay of Rs. 35 for an unskilled worker, Rs. 40 for a semi-skilled worker and Rs. 75 for a skilled worker, and an unskilled and a semi-skilled gets dearness allowance of Rs. 36 and a skilled worker gets a dearness allowance of Rs. 47. An unskilled worker gets a total of Rs. 71 and semi-skilled a total of Rs. 76 and skilled a total of Rs. 112 per month. The award has allowed increment within different groups. It also allowed an increase of dearness allowance of Rs. 5 over the existing rates. According to the evidence of P.W. 1, which has been substantially corroborated by the evidence of Exts. A and A(1), the workmen, were not allowed increments, either in basic wages or in dearness allowance, for a

number of years varying between three to five. It goes without saying that in the meantime, the cost of living index has gone up by more than 20 points. Granting of dearness allowance no doubt depends primarily on two factors—(1) the capacity of the industry to pay and (2) the cost of living index justifying variation of its amount. Ordinarily neutralisation between 60 to 90 per cent. are allowed in the case of manual workers. At present, all except one out of a total of 12 gets dearness allowance at the flat rate of ten annas a day or Rs. 16-4 a month. Ten workmen, out of them one is skilled, are getting more than Rs. 68 per month. I see no justification whatsoever why Nimai Chandra Ghose and Nilmoni Mehta be paid, though doing the work of a regular worker, wages not exceeding Rs. 52 and Rs. 45-12, respectively. There is also no justification why Nilmoni should not be paid any dearness allowance at all.

Considering the fact that there has been admittedly a rise in the cost of living index in the last three or four years by more than 20 points and also the fact that the Company has the financial capacity to pay for an increase in the dearness allowance sufficient to neutralise this rise up to a certain point, I allow dearness allowance at the flat rate of thirteen annas per day in place of ten, i.e., a total increase of Rs. 4-14 for a month of 26 days, to all workmen, including Nilmoni Mehta. Nimai Chandra Ghose should also get an increment of eight annas per day over his existing rate of wages (Re. 1-6 per day). That would enable him to earn a minimum basic rate of wages.

As to the demand for allowing four grades with incremental scales of pay, I am afraid, I cannot do that. Considering the nature of the business and its present financial position, I should not introduce, for the first time in its history, any incremental scales of pay with grades. Further, classification of workmen according to grades demanded, is a fairly difficult job, which has become, more so, due to absolute absence of proper materials on record on this point. Classification of workers, according to skill is no longer considered desirable, for skill has now been transferred from the man to the machine. A man's work is now better assessed by his manipulating power to operate a machine. In classifying workers into grades, the length of service, physical and mental strain, effort, etc., of the workers are also to be taken into consideration. Therefore, the classification of workmen, into four grades as suggested on behalf of the Union, cannot be undertaken in this dispute for want of proper materials. I accordingly, do not make any endeavour to do it. The increment in wages and dearness allowance under this award should take effect from February 1959. I answer the issue accordingly.

Issue No. 2: This issue relates to a demand for leave and holidays. The Union's demand is for 15 days' sick leave, 7 days' casual leave and 21 days' privilege leave (accumulating up to a maximum of 63 days). It, however, claims 15 days' holidays with full wages in a year. The Company allows 7 days' festival leave and no other leave. But it allows further leave to workers in consideration of their individual requirements. P.W. 1 Shri Ghorai said that they get 7 festival holidays in a year (without any dearness allowance). O.P.W. 1 Shri Porel said that there are seven festival holidays for which wages are paid but no dearness allowance. There are ten to twelve statutory leave also in the year. This is a small proprietory concern which is doing some repair work and is manufacturing broken parts of engines, etc. It employs, not 25 workmen as stated in the Union's statement, but 12 workmen only. It cannot be compared with any Engineering Firms which were parties to the awards of Major Engineering Tribunals. It is a small concern and in view of the

alleged losses in the business and small capital employed in it, the existing number of festival holidays and other leave appear to be sufficient. This with the further assurance that the Company grants the workers leave according to individual requirement should satisfy the workmen for the present. At present, the festival holidays are paid holidays but dearness allowance is not paid for them. This should be paid in future. I answer the issue accordingly.

Isssue No. 3: This relates to a demand for payment of profit bonus for the year 1956 payable in 1957. It has been claimed at the rate of two months' wages only. The Company contests this demand on the ground that it had earned *marginal profits* with no available surplus left for payment of bonus. It, however, paid bonus at the rate of ten days' basic wages, both in 1956 and in 1957, in spite of absence of available surplus. It pleaded incapacity to pay any further bonus.

P.W. 1, Shri Lakshmi Kanta Ghorai, Vice-man in the service of this Company, said that the proprietor had his own house and motor car out of this business and he believed that the business had been earning profits every year. He said he got bonus at the rate of 10 days' wages every year for the last ten years. In cross-examination he admitted that the proprietor had one house originally. He did not know whether he inherited any property, or when he purchased his motor car. This is all the evidence on this point on the Union side. O.P.W. 1 Shri Profulla Porel is the staff clerk of this Company. He said that the factory establishment runs at a loss. The Company had no profits to pay bonus for 1956 in 1957, although it paid ten days' basic wages as bonus. This gentleman has got defect in his eye-sight and got several lists of account Exts. B to B(2) and C prepared by Arun Babu, another clerk. Arun Babu was not examined. It further appears from his evidence that this is a proprietory concern and not a Company. Income-tax returns are submitted every year. There are assessment orders for 1956 and 1957 which are not produced. The price of machinery given in Ext. C is according to the present market price and its original purchase price is not known.

Few scraps of paper have been filed showing total expenditure and total sales in the years 1955, 1956 and 1957. It appears therefrom that the total expenditure always exceeded the total sales, i.e., total receipts. The result is that this Company suffered repeated losses in these years. Another scrap of paper, under the Heading of Balance-Sheet for 1956-57 (although according to evidence of O.P.W. 1 the accounts are maintained with reference to Bengali calendar year) has been filed showing a capital of Rs. 15,000 and assets valued at Rs. 16,400 in machineries, buildings and furniture. There is nothing before this Tribunal to verify the accuracy of any of the entries in any of these papers. The assessment order (Income-tax) for the years in question could have conclusively shown, in the absence of any other evidence, the position of profits in these years. The evidence is in direct conflict with its allegation made in paragraph 8 of its written statement. In this state of evidence it is not possible to allow the workers' additional bonus at the rates claimed in addition to ten days' wages admittedly received on this account. I answer the issue accordingly.

Issue No. 4: This relates to a demand for revision of working hours. At present the working hours are from 9 a.m. to 1 p.m. and 2 p.m. to 6 p.m. with an hour's break for tiffin on week days and 9 a.m. to 4-30 p.m. without break for tiffin on Saturdays. The worker's demand is that this should be changed to 9 a.m. to 1 p.m. and 1-30 p.m. to 5-30 p.m. with only half-hour's recess for tiffin, and 9 a.m. to 2 p.m. without any recess for tiffin. It appears from the evidence of O.P.W. 1 that the existing

hours of work are observed in almost all factories in the locality. I, therefore, fail to see why this should be changed as demanded. The existing hours of work are to continue for the present.

PRESENT:

SHRI PROBODH CHANDRA MAITRA, M.A., B.L., *Presiding Officer, Second Labour Court, West Bengal.*

The original reference out of which these present complaints have arisen was made under G.O. No. 3830-I.R., dated 11th September 1958.

These are applications under section 33A of the Industrial Disputes Act filed by the above workmen against their employer Messrs. Calcutta Bullion Association. All these applications are based practically on the same fact and therefore all these cases are taken analogously and one judgment shall govern all the above cases.

The complaint of the workmen is that the opposite party Calcutta Bullion Association has contravened the provisions of sub-clause (a) of clause (1) of section 33 of the Industrial Disputes Act, and has refused payment of wages due to the applicants for the month of August, 1958. That the action of the Company is illegal, *mala fide* and unfair and they pray for their wages.

The Company, on the other hand, contends that the applications filed by the applicants under section 33A do not disclose any contravention of section 33 of the Industrial Disputes Act and were therefore not maintainable in law. That the main reference was made under G.O. No. 3830-I.R., dated 11th September 1958, and the alleged contravention relates to a time prior to the main reference and cannot attract provision of section 33 of the Industrial Disputes Act in law and equity. They further contend that there is no unfair labour practice or *mala fide* motive on the part of the Company and the Company prays that the applications should be rejected.

FINDINGS

On 17th January 1959 all the above workmen appeared before me and filed petition stating that they have been paid their wages and no further dispute exists. They further prayed for withdrawal of their respective applications under section 33A of the Industrial Disputes Act. The applications are therefore allowed to be withdrawn and are hereby rejected.

FINDINGS

An application under section 33A of the Industrial Disputes Act was filed by Shri Sachidanand Pandey against Messrs. Calcutta Bullion Association. AWARD

Decisions

The Company No. 1, Messrs. B. R. Agrahati, states that it is a contractor appointed by the Railway Board of the Government of India for handling railway goods at Howrah goods shed and it employs about 450 workmen. These workmen, commonly designated as coolies, are employed by the Cmpany as contractors on tenders for loading and unolading of goods from railway wagons to stations and *vice versa*. These contracts usually last for 3 years, but are liable to be terminated on three months' notice by the Railway at their pleasure. This Company states that the dispute had been preferred by the Union before the Regional Conciliation Officer of the Government of India, and was at no stage raised before the State Government. The appropriate Government for the purpose of this reference was the Central Government and not the State Government of West Bengal. The Company No. 2, being Messrs. S. C. Kundu, and the Company No.3, being Messrs. H. C. Dey & G. K. Agarwal, also raised the same objection, viz., that the appropriate Government competent to make the reference is the Central Government and not the State Government of West Bengal. In the circumstances, an additional issue has to be decided by the Tribunal and the following issue is, therefore, framed for decision:—

Issue No. 4.—Is the present reference of the dispute by the West Bengal Government competent?

The issues are taken up for decision here below.

Issue No. 4: The point for decision in this issue is whether the reference of the present industrial dispute by the State Government of West Bengal is competent. The learned Advocates for the Companies press that as the Companies, which are contractors under the Railway Administration, the appropriate Government for making the reference under section 2(a) of the Industrial Disputes Act is the Central Government and not the State Government. It is also stated that at all stages of the dispute, the conciliation proceedings between the Companies and the Union were conducted before the Regional Conciliation Officer of the Government of India, that for that reason, the State Government had no reason to hold that any such industrial dispute, as has been referred to the Tribunal, exists, or was apprehended. This contention that the appropriate Government for the present reference is the Central Government has been opposed by the learned Advocate for the Union.

On a consideration of the matter, I have no doubt that the objection is unworthy of support for the following reasons. It was argued by the learned Advocates for the Companies that as the Companies were contractors under the Railway Company, they were carrying on an industry under the authority of the Railway Company, and it is to be considered that the industry of the Companies in the present case was an industry carried on by or under the authority of the Central Government. The Companies are contractors under the Railway Board. Section 2(a)(i) of the Act does not provide that for an industry carried on under the authority of a Railway Company, the appropriate Company was the Central Government. In relation to a dispute of a Railway Company itself, the Central Government is the appropriate Government. The section does not provide that the Central Government will be the appropriate Government in relation to an industrial dispute *carried on by or under the authority* of a Railway Company. If the contractors are considered to be carrying on an industry under the authority of the Railway Company, their industry is not covered by section 2(a)(i) of the Act. I do not, however, consider that the Companies as contractors carry on an industry *by or under the authority of the* Railway Company. The next question for consideration is if the contractors carry on an industry by or under the authority of the Central Government. The decision of the Hon'ble High Court at Calcutta in Bharat Glass Works Private Ltd., reported in 1958(I) L.L.J., 467, shows that no business owned or carried on by a private person or a limited company can be a business carried on by or under the authority of the Government. In view of the decision of Harris C. J. in the case of Carlsbad Mineral Water Manufacturing Co. Ltd., reported in 1952(I) L. L. J., 488, which was approved and accepted by the Hon'ble Judge in the Bharat Glass Works case, it appears that the business of the present contractors was their own business, which they were conducting for their own personal profit and benefit and the contractors in the present case can in no sense be described as being persons authorised to carry on a business of the Government or the Railway Company. That being so, the appropriate Government for the present dispute under section 2(a) of the Industrial Disputes Act is the West Bengal State Government and not the Central Government.

It appears that the conciliation proceedings were held before the Regional Conciliation Officer of the Central Government. The West Bengal State Government made the reference to the Tribunal for reasons best known to them and the act of the Government in coming to the conclusion as to the existence or apprehension of an industrial dispute is administrative and its correctness cannot be questioned in a court of law. An administrative

order if not vitiated by *mala fides* is immune from being impugned in a court of law [*vide* case of Cashewnut Manufacturers' Association, reported in 1953(I) L.L.J., I, 563, 1950 S. C. 222 and 1953(I) L.L.J., 174, Supreme Court]. In these circumstances, it is awarded that the reference of the present industrial dispute by the State of West Bengal to this Tribunal is competent and the Tribunal is competent and even bound to adjudicate on it. This issue is accordingly answered.

Issue No. 1: The Union, in its written statement, states that though there is a condition in the relevant contracts between the Railways and the Companies for payment of "fair wage" to the workmen, the workers are only paid a daily wage of Rs 1-7 to Rs. 1-12, although the existing minimum earnings of a railway unskilled worker is Rs. 92-8 per month. The Union claims that in view of the fact that the workmen involved are in fact Railway employees, doing essential and regular works for the Railways, the Tribunal should award Rs. 110 per month of 26 working days as total minimum wage of the workmen.

Company No. 1, Messrs. B. R. Agrahati, Railway Goods Handling Contractor at Howrah Station, states that the Railway pays it on the basis of maundage of load and the Company also pays the workers on piece rate basis with a minimum fixed by the Regional Labour Commissioner, and not objected to by the Union, at Rs. 1-1½ per diem. The Railway has so adjusted the rate of remuneration to the Company that it is not possible to grant a higher rate to the coolies. There was a joint agreement between the Contractor Company and the Railway Godown Workers' Union representing the workers on 13th September 1956, in which the piece rates of wage on loads have been agreed upon. This agreement is working quite satisfactorily. This agreement has ont been legally and properly terminated and it is still in force and binding on the parties. The present rate paid by the Company compares favourably with the prevailing rates at the locality and the minimum works out at Rs. 52-8 for 30 full days' work in a month.

Company No. 2, Messrs. S. C. Kundu, Parcel Handling Contractor at Howrah Station, states in its written statement that the Railway pays this contractor on the basis of a certain rate of weight of load and the contractor used to pay the labourer at Rs. 1-5-6 per diem but a dispute having been preferred, the rate has been revised by a joint agreement in the presence of the Labour Commissioner, dated 6th October 1956. The present rate paid by the Company compares favourably with the prevailing rates at the locality.

Company No. 3, Messrs. H. C. Dey & G. K. Agarwal, Parcel Handling Contractors at Sealdah Station, states, in its written statement, that the question of fixation of minimum wages for the workers does not arise, as they are paid on load basis and their earnings are linked with the quantum of work they put in.

Evidence was adduced by both the parties. P. W. 1 Shri Ram Chandra Sharma, General Secretary of the Union, and P. W. 2 Shri Ram Lakshman Pandey, were examined for the Union. Documents, Exts. 1 and 1(a) were marked for the Union. O.P.W. 1 Shri Sudhir Chandra Kundu, one of the partners of Messrs. S. C. Kundu, Company No. 2, was examined for the Companies. Documents, Ext. A to Ext. E, were marked for the Companies.

Exhibit A is a Memorandum of Settlement between Messrs. S. C. Kundu, Parcel Handling Contractor, Howrah Station, and Shri R. C. Sharma, Secretary, Railway Godown Workers' Union, representing labour employed on the work of handling of parcel at Howrah Station. This

Memorandum of Settlement is dated 6th October 1956, and it was arrived at in a conciliation proceeding. It shows also the signature of the Conciliation Officer. Exhibit A is a copy of the Memorandum of Settlement. According to this Agreement, the contractors, Messrs. S. C. Kundu, were to pay Rs. 48 per month to 90 porters. This monthly rate works out at Rs. 1-9-7 for a month of 30 days. The contractors also agreed to pay at Rs. 1-7 per day to the labour engaged by them through sirdars. The contractors further agreed to pay Rs. 12-8 per thousand maund of parcel loaded in sheds Nos. 2 and 12 to those workers who would be required to work after their normal working hours. These are the three terms for payment to the workers working under Messrs. S. C. Kundu, Parcel Handling Contractor at Howrah Station, under the Memorandum of Agreement, Ext. A, dated 6th October 1956. The Memorandum of Agreement, Ext. A(1), dated 13th October 1956, shows an agreement in a conciliation proceeding on a dispute between the Company No. 1, Messrs. B. R. Agrahati, Railway Goods Handling Contractor at Howrah Station, and its workmen, represented by Railway Godown Workers' Union. This document is a printed copy of the original document and was admitted to be a correct copy of the original document. There are a number of agreements for payment to the workers on piece rate basis. The terms of payment show that for inward traffic, payment is made at the rate of Rs. 1-12 for 250 maunds and extra work over 250 maunds was to be paid at 12 annas per hundred maunds. In case of outward traffic, payment is made at Rs. 1-12 for 125 maunds and extra work over and above 125 maunds is payable at Rs. 1-8 per 100 maunds. In case of iron traffic, payment is made at the rate of Rs. 1-12 for 75 maunds and extra work over this quantity is paid at Rs. 2-4 per 100 maunds. For miscellaneous work, the rate is 3 annas per man per hour. It, therefore, appears that the minimum payment is at Rs. 1-12 per day for a specified quantity of work and excess work during the course of the day is also paid for at specified rates for various categories of work. P.W. 1 states that the minimum wage for a parcel porter is Rs. 1-7 per day and that for a godown porter, i.e., goods porter, it is Rs. 1-12 per day. The minimum wage of Rs. 1-7 per day appears from Ext. A, and the minimum wage of Rs. 1-12 per day appears from Ext. A(1). P.W. 1 also states that the tindals get Rs. 7-8 more than the ordinary workmen in a month.

Exhibit B is a Memorandum of Agreement between the Company No. 3, i.e., Messrs. H. C. Dey & G. K. Agarwal, and their workers, represented by Railway Godown Workers' Union, and is dated 16th October 1951. Company No. 3 carries on the work of handling parcels at the Sealdah Station. Exhibit B shows that the wages of workers were increased by that agreement from Rs. 1-8 to Rs. 1-10 per head per day for 8 hours' work on an assured outturn of 100 maunds double operation and 200 maunds single operation. It was also agreed that the workers would be granted two months' leave without pay in a year, save at the rush periods. The Company also agreed to employ a qualified Doctor for two hours daily for affording medical facilities to the workers.

The evidence on record shows that the Memoranda of Agreement, Exts. A and A(1), were terminated by the Union by notice, Ext. 1(a) and Ext. 1, respectively. It is, therefore, clear that the Agreements, Exts. A and A(1), have been terminated by notice in accordance with the provisions of section 19(2) of the Act. There is no evidence to show that the Agreement, Ext. B, has been terminated. In view of the fact that the Ext. B is an Agreement arrived at in a conciliation proceeding, it is absolutely binding on the parties thereto under sections 18 and 19(2) of the Act [*vide* case of Poona Mazdoor Sabha of Bombay High Court, reported in 1956(II) L.L.J., 319]. This question has been discussed in detail in my award in the

case of James Warren & Co., reported in 1956(II) L.L.J., 551. That being so, the Union is not entitled to any relief in this proceeding in regard to the matters covered by the Memorandum of Agreement, Ext. B, dated 16th October 1951. It is, therefore, awarded that the workers working under Company No. 3, being Messrs. H. C. Dey and G. K. Agarwal, Parcel Handling Contractors at Sealdah Station, shall continue to get the same wages as they were getting under the Memorandum of Agreement, Ext. B, for the duration of this Agreement.

In respect of the workers at Howrah under the Railway Goods Handling Contractor, being Company No. 1 and the Railway Parcel Handling Contractor, being Company No. 2, they are entitled to raise an industrial dispute on the basis that the Agreements, Exts. A(1) and A, with them have been since terminated. The Tribunal is also competent to adjudicate on the claims of these workers under Companies Nos. 1 and 2 at Howrah. It appears that the workers work for all the 30 days in the month and the monthly wage mentioned by the Companies in the document, Ext. A, or in the written statement of the Company No. 1, is that as can be earned by a worker working for all the 30 days in a month. It is nowhere the custom to make the labour work for all the 30 days in the month without rest. They should be given rest for at least one day in the week. Their wage should, therefore, be calculated at 26 days in the month. Considering the fact that it is not possible to raise the wage too much and to the proper level without creating difficulties for the Companies, a reasonable increase of wage is granted to the workers as mentioned below. These rates have been arrived at by a careful consideration of the whole matter.

For the workmen under the Parcel Handling Contractor, being Company No. 2:—

(a) workers receiving a daily wage of Rs. 1-7 shall get a daily wage of Rs. 1-12,

(b) workers getting a daily wage of Rs. 1-9-7 shall get Rs. 1-14 per day,

(c) the rate of Rs. 12-8 per thousand maunds of parcels, as mentioned in clause (3) of Ext. A, shall be increased to Rs. 14-4 under the same conditions as before.

For the workmen working under Company No. 1, Messrs. B. R. Agrahati, Railway Goods Handling Contractors, the wages shall be at piece rates, as agreed to in the Memorandum of Agreement, Ext. A(1), but the minimum rate shall be increased from Rs. 1-12 to Rs. 2 per day. All the rates in paragraphs (1), (2) and (3) of Ext. A(1) shall accordingly be increased at the rate of one anna for every 7 annas. In case of miscellaneous work, as mentioned in paragraph (4) of Ext. A(1), the rate shall be annas 3-6 per man per hour. These rates of wages are increased under the existing conditions of work under the contractors. The tindals shall get Rs. 8-12 more than a workman per month in place of Rs. 7-8 per month as he used to get.

Exhibits D and D(1) are the Wage Registers of the Company No. 2, Messrs. N. C. Dey & G. K. Agarwal, and Ext. F is the Payment Register for workers working under Company No. 1, Messrs. B. R. Agarhati. It appears from Ext. F that the workers earned varying wages according to the quantity of work done. It, therefore, appears to me that the increased rates as awarded above will enable them to earn a somewhat better wage than before. I shall also provide for higher wages for overtime work. I consider that in these circumstances, the wage as awarded above will considerably improve the remuneration earned by the workmen under Companies Nos. 1 and 2.

This issue is accordingly answered.

Issue No. 2: The Union claims the following holidays:—

(1) 1 day paid weekly holiday,

(2) 15 days paid casual leave,

(3) 15 days paid privilege leave,

(4) 15 days paid sick leave,

(5) 15 days festival holidays, and

(6) 45 days paid holidays in lieu of casual leave, privilege leave and sick leave.

The Companies state in their written statements that in view of the fluctuating character of labourers engaged by the Companies, the demand for leave and holidays is not maintainable.

On a careful consideration of the matter, it appears to me that the claim for casual leave, sick leave, privilege leave and festival holidays, with pay is inappropriate in the present case, as the workmen are not enployed on a permanent basis under the contractors and their service is always of a casual nature. It appears that many of the workers are continuing to work under a succession of contractors. The contractors are usually engaged for the work for a period of 3 years only. It is claimed that many of the workers are doing the job for more than 15 or 20 years. Even then, it is not possible to allow the amenities of casual leave, privilege leave, festival holidays and sick leave with pay to these workers, as they are not employed on a permanent basis and are free to go or be absent at their choice. It is, however, awarded that each worker shall get one day as unpaid holiday in the week. The wage has been fixed on the basis of 26 days' work in the month. It is awarded that all workers shall get one day as unpaid holiday in a week, or in other words, one day's unpaid holiday for 6 days' work in the week. All workers shall get two months' privilege leave without pay in the year to enable them to go home away from Howrah. No other leave or holiday is allowed to the workmen in the circumstances of the case.

This issue is accordingly answered.

Issue No. 3: The Union states that the normal working hours shall be 8 hours and for all work in excess thereof, as well as for work on holidays, the workmen shall be paid double rates of wages.

The Companies Nos. 1 and 2 state that there is no punctuality of arrival of trains and therefore no overtime allowance should be given.

On a careful consideration of the matter, it is awarded as follows: The normal duty hours of a worker shall be 8 hours in a day and 48 hours in the week. When a worker works for more than 9 hours in any day, or for more than 48 hours in any week, he shall, in respect of overtime work, be entitled to wages at the rate of twice his ordinary rate of wages.

This issue is acrordingly answered.

ANNEXURE

In the matter of an industrial dispute existing between Messrs. Aluminium Corporation of India Ltd., P. O. Jaykaynagar, district Burdwan (Managing Agents J. K. Industries Ltd., 7 Council House Street, Calcutta), and their factory workmen represented by Aluminium Mazdoor Union, P. O. Jaykaynagar, district Burdwan.

BEFORE THE FIFTH INDUSTRIAL TRIBUNAL, WEST BENGAL

PRESENT:

SHRI G. PALIT, *Judge, Fifth Industrial Tribunal.*

Present for the Company: Shri S. C. Sen, Advocate.

Present for the Union: Shri Ram Sen and Shri Patit Paban Pathak, officers of the Union.

By Government order No. 4586-I.R./IR/10L-88/57, dated the 30th November 1957, the aforesaid dispute was referred to the Fifth Industrial Tribunal, presided over by me, for adjudication under section 10 of the Industrial Disputes Act, 1947 (XIV of 1947). The said Fifth Industrial Tribunal was constituted under Government notification No. 808-I.R./IR/3A-2/57, dated the 11th March 1957.

2. The reference was received here on 4th December 1957. The Company filed written objection on 18th January 1958. After several adjournments the case was taken up for hearing on 7th January 1959 and it continued on 9th January 1959. The argument was heard on the latter date when the hearing was concluded. The award was reserved.

3. The only issue which arise for adjudication as per the order of reference is as follows:—

What should be the quantum of bonus for 1956-57?

AWARD

4. According to the Union Messrs. Aluminium Corporation of India Ltd. is the biggest composite unit of its kind having its factory at Jaykaynagor in the district of Burdwan. The total strength of its workmen stands at roughly 1,200, including the clerical staff. It is contended that the wages here are very low and that no bonus is paid here though the Company earns huge profits. The Union claims three months' total wages as bonus, for the year in question.

According to the Company, the present claim of the Union relates to the period from April 1956 to March 1957, as that is the financial year obtaining here. The Company denies that its profit would justify payment of any bonus under the Full Bench Formula of the Labour Appellate Tribunal in the case of Bombay Mill Owners' Association *vs.* Rastriya Mill Mazdoor Sangha. If the profit is worked out on the lines of the afresaid formula, the Company contends, it will show no available surplus for bonus for the year ending 31st March 1957. In response to the dispute raised by the Union in respect of the year ending on March 1957, an agreement was reached by which the Company agreed to pay 1/24th of the basic wages during the twelve months ended on the 31st March 1957 in respect of the Union's claim for bonus, and that this was without prejudice to the present adjudication. The Company reserved the right to recover this advance as

per the agreement in case the Tribunal finds that there is no available surplus for bonus and nothing is payable to the workmen. In case the Tribunal finds bonus payable to the workmen, then that will be set off against the amount of advance aforesaid.

Now, turning to the evidence, the Company has filed its balance-sheet for the year ended on 31st March 1957. The Company has also filed a chart working out the bonus formula with reference to the balance-sheet of the year ended on 31st March 1957. The Union too filed a counter chart in this respect. I set forth below the figures given by both sides:—

	(Rupees in lakhs)	
Profit for the year	27·34	
Add bonus already charged	·50	
	27·84	
(This is admitted by the Union)		
Less depreciation	6·02	
(This is normal depreciation)		
This is admitted by the Union in its chart. The Union wants to include the rehabilitation charge within this normal depreciation. That cannot be accepted because rehabilitation charge is never synonymous with depreciation		
	21·82	
Less income tax has been charged on this balance at 7 annas per rupee	9·91	
The Company has charged on the whole amount of 27·34, less bonus less depreciation. The Union has charged income-tax less rebate on bonus. I cannot accept this representation on behalf of the Union because rebate on bonus is an indeterminate figure till bonus is granted. So income-tax should be charged as such. So I accept the Company's figure in preference to that of the Union		
	11·91	
Less dividend at 6 per cent. and varying rate on the subscribed capital 5·80 lakhs	5·80	
	6·11	
Less return on working capital employed. Here the Company's version is *ex-parte*. The Company has charged 4 per cent. on Rs. 78 lakhs and odd shown as working capital. The Union has not allowed any return on working capital. There is no justification for not allowing any return on working capital. The Company is entitled to have a return on working capital as much as on the paid up capital, only at a lesser amount. This is admitted by the Hon'ble Supreme Court also. The rate of return is slightly less than the paid up capital. Its rate would depend upon the investment of profits which the Company could very well have taken away, but preferred to plough back, and also on the soundness or security of the investment. 4 per cent. is a fair return for such investment. The concern could not have investment or advance from bank at a lesser rate of interest. So I allow 3·15 (lakhs) as the return on the working capital at 4 per cent. per annum	3·15	
	2·96	
Less rehabilitation.—Here is the chart of rehabilitation on the value of machineries and buildings as decided by an Expert Committee set up for the purpose. The report of the said Committee was asked to be treated as confidential. The Union disputes the revaluation decided by the Expert Committee. In such circumstances I am unable to take the revaluation report which has been asked to be treated as confidential, as binding on the matter. In its place I would like to proceed independently under the Labour Appellate Tribunal's formula as worked out by the Union in its chart. In the composite chart filed by the Union for 1956 and 1957 I take the figure which is relevent, *viz.*, the figure for 1957. In the said chart I get that the original cost of buildings as per the balance-sheet (schedule B)		50·08

		(Rupees in lakhs)
Less break down value amounting to 5 per cent.=2·50 lakhs depreciation provided	12·25	14·75
	14·75	25·33
The Union has asked the Tribunal to arrive at the cost of rehabilitation by applying the divisor of 50·. I see no reason why I should apply the said divisor, particularly, when I do not apply the multiplier 2·57 as is usually done. I have reasons for not applying the multiplier 2·57 in this case with an eye to the general reserve, as well as the sound position of the Company being broad based on huge share capital and capitalised reserve —		
Buildings	35·33	=1·17
	30	
(Similarly) Machineries	146·14	
Less break-down value at 5 per cent. .. .. 7·30		
Depreciation .. .. 51·53	58·83	
58·83	87·31	
I apply the divisor of 15 (years) but do not apply the multiplier 2·5 for reasons already given. As I do not apply the multiplier I do not make the divisor 20 (years) as contended by the Company.		
Machineries	87·31	=5·82
	15	6·99

So this is the total cost of rehabilitation. I have not taken rehabilitation cost on the score of furniture, Rly. siding, laboratory, equipment, etc. Even without them there is a deficit of about 4 lakhs under this bonus formula of the Appellate Tribunal. So there is no available surplus for bonus for the financial year 1956-57.

The Company has given 1/24th of the year's total basic wages as bonus for the said year under an agreement already. Whether the same is recoverable would depend upon the agreement, and I am not required to pronounce any judgment on that. All that I say is that no bonus is available on profits of the year 1956-57 under the Labour Appellate Tribunal's formula which has been accepted by the Hon'ble Supreme Court.

ANNEXURE

In the matter of an industrial dispute existing between Messrs. Aluminium Corporation of India Ltd., P. O. Jaykaynagar, district Burdwan, and their workmen represented by the Aluminium Mazdoor Union, P. O. Jaykaynagar, district Burdwan.

BEFORE THE FIFTH INDUSTRIAL TRIBUNAL, WEST BENGAL

PRESENT:

SHRI G. PALIT, *Judge, Fifth Industrial Tribunal.*

Present for the Company: Shri S. C. Sen, Advocate.

Present for the Union: Shri Patit Paban Pathak, an officer of the Union.

By Government order No. 2140-I.R./IR/10L-88/57, dated the 21st January 1957, the aforesaid dispute was referred to the Fifth Industrial Tribunal, presided over by me, for adjudication under section 10 of the Industrial Disputes Act, 1947 (XIV of 1947). The said Fifth Industrial Tribunal was constituted under Government notification No. 808-I.R./IR/3A-2/57, dated 11th March 1957.

2. The reference was received here on 28th June 1957. After usual notices the Union filed written statement on 26th July 1957. The Company filed written objection on 13th September 1957. After several adjournments the case was taken up for hearing on 5th January 1959. Before that on 29th August 1958 the Union filed a petition praying for an interim award. That petition was heard on 13th September 1958 and the order in that respect was passed on 23rd September 1958. The hearing of the case continued on 6th January 1959 and 9th January 1959 when the argument including evidence was concluded. The award was reserved.

3. The issues contained in the schedule to the order of reference stand as follows:—

(1) Whether the workmen of all categories are entitled to Annual Bonus for 1956? If so, what should be the extent thereof?

(2) Is there any basis in the allegation of change in the Laboratory Bonus Scheme? If so, to what reliefs are the workmen entitled?

(3) Whether the Paste Plant Workers are entitled to any extra bonus for the extra paste for outside sale? What should be the basis and extent thereof?

AWARD

4. According to the Union Messrs. Aluminium Corporation of India Ltd., is a manufacturing unit having its factory at Jaykaynagar in the district of Burdwan, employing about 1,200 workmen including clerks and subordinate staff. The Union claims bonus for the year 1955-56 payable in 1956, on the profits of the said financial year. The Union contends that there has been a change in the system of payment of production bonus in the laboratory and that the workmen are entitled to relief on that score. It is further contended that the paste which is produced for outside sale

does not bear any production bonus though there is production bonus in respect of paste produced by the said plant for internal consumption in the Cell House. The Union contends that production bonus should also be granted on the quantum of paste produced and sold outside. The Union placed its claim on profits for 3 months' basic pay.

According to the Company there is no available surplus for bonus for the year in question based on the formula set forth by the Labour Appellate Tribunal. Regarding the alleged change in the laboratory bonus scheme, the Company gives on emphatic denial. It urges that it adheres to the practice of giving production bonus to all employees who are directly connected with production, and that the rate of bonus has not been altered at any time with decrease or increase in the number of men. Regarding Mr. Garg who was appointed as a Metallurgist it is said that he was shown in the Laboratory Section right from the beginning. After some controversy he was paid bonus from the laboratory section because of the fact that he was working there as a research chemist. Regarding the paste plant workers' claim for extra bonus on account of extra paste sold outside, the Company contends that the bonus scheme in this section was introduced by an agreement, dated 20th July 1951. The said agreement would clearly show that the paste plant workmen were paid bonus on the metal produced in the Cell House, and that it did not depend on the quantity of production in the paste plant. The agreement still operates. Of course, the Company admits that some extra paste in excess of what was required in the Cell House was produced in the plant. The said paste was sold to outsiders. This was produced within the normal working hours. But in September 1956 the Company in response to a representation made an *ex-gratia* payment of a sum of Rs. 600 to the paste plant workers for production of extra paste. But that has nothing to do with the production bonus scheme in the paste plant.

Issue No. 2: According to P. W. 1 Shri Sudhangshu Shekhar, the change complained of has occurred since 1956. Previously in the general shift there were two chemists, four shift chemists and three laboratory chemists. Now in place of that, the number of general chemists has been three and the number of shift chemists and laboratory assistants remains the same. The additional chemist Mr. Garg used to work previously in the Power House. But if I look to the evidence of Shri Dubey, O. P. W. 1, I get that Mr. Garg used to look after the chemical and metallurgical works of the Company. He left the service of the Company in 1957. There was some controversy whether he would get bonus in the rolling mill or in the laboratory department. Ultimately, as he worked in the laboratory, the laboratory department gave him bonus. Mr. Garg was taken in place of Shri R. D. Tewari who was working originally in the laboratory. Shri Tewari's service was transferred to the Power House. So there were never three chemists in place of two. Now, in the vacancy of Shri Garg in the laboratory Shri Tewari has been brought back again from the Power House. So it is clear that this change does not affect materially the position, so far as bonus was concerned. If Mr. Garg was getting bonus, why should not Shri R. D. Tewari get the same when he was put in place of Mr. Garg. So there can be no point in this contention of the Union. The Union next raised the contention that previously bonus was distributed on the basis of 318 points. Now it has been raised to 348 points. That reacts to the extent of a loss of 6 or 7 pice in a rupee in the earning of a workman (*vide* P. W. 1 Shri Sudhangshu Shekhar). According to Shri Dubey O. P. W. 1, the present scheme is calculated on 348 points. I get from the Ext B that originally bonus was fixed on 335 points. It is admitted that the volume of production has been increased and the amount granted as bonus has also been increased.

That the method of distribution of bonus has undergone a change has not been mentioned in the written statement filed by the Union. It was only raised during the hearing. I, however, fail to see why will the workmen be aggreived if the total amount of bonus is raised along with the increase in the volume of production. The raising of poinst merely relates to the method of distribution among the workmen. If one workman loses, the other workman gains to that extent. When the total amount of bonus is not questioned, this method of distribution does not go far enough. I could have understood the original case of the Union in its written statement that one extra chemist has been taken contrary to what has been provided for in the Ext. B with the result that the earnings of workmen have fallen. But I have shown that Mr. Garg was originally there participating in bonus payment. Shri Tewari as come in only when Mr. Garg had left. So because of this change the workmen do not suffer. The points allocated to different types of workmen remain the same, viz., 30 points for chemists, 26 points for shift chemists, 18 points for labour assistants and so on and so forth. If the total number of points has increased, that may have been the result of taking more men. But there is no evidence on this point. I have also evidence, viz., that the total earning under the said bonus scheme has increased in most cases. So the contention of the Union fails. It is the result of some misunderstanding So the position taken up in the written statement of the Union has been shifted during the hearing.

Issue No. 3: The facts are admitted here. There was an original agreement regarding bonus given to the paste plant workmen. The agreement is Ext. C. It is also admitted that there was some extra quantity of paste produced by the plant and that Rs. 600 was given in response to the prayer of the workmen for this extra paste. It is also admitted that the production bonus does not depend on the quantity of paste produced. It rests on the quantity of metal produced in the Cell House (*vide* Ext. C). Now, if this agreement Ext. C still operates, no bonus can be had on any quantity of extra paste produced in the Paste Plant for the simple reason that the quantity does not come into the picture at all in the matter of granting bonus. So that is fatal to the Union's claim. But the Union contends that there was a subsequent agreement which related to this extra quantity of paste produced by the Paste Plant for selling outside. That is Ext. 1. But if this Ext. 1 is scrutinised, it will appear that it is not a full fledged agreement between the parties. There was a sort of tentative talk that the Corporation would install equipment to manufacture this special paste, and that the bonus system may be revised for the special paste. Special paste means paste to be supplied against orders for arc furnaces. Mr. Phillip, O.P.W. 2, who is the Assistant Works Manager, Production, says that he did not receive any such representation from the Union. He got this petition, Ext. 1, from the departmental officer. He did not accept the said proposal and he explained to the workers verbally why he did not accept it. He admits that Rs. 600 was given as an *ex-gratia* payment. So legally I cannot hold that this alleged agreement about extra paste was either a separate entity by itself fully operative or that it did supplant the previous agreement about production bonus. To accept it as binding would raise legal complications. It is not an agreement *ex facie*. The Union does not dispute that the original agreement about the paste plant still holds good and that it is complete in itself. That being so, how can there be another agreement partially modifying the aforesaid agreement? Besides, I am told that some extra hands have been taken for production of this excess paste. They receive no bonus. So there can be no reason why the workers of the paste plant who do already participate in the bonus scheme will get further bonus while those others who also do contribute to the said production will get nothing. That will not be fair. The payment of Rs. 600

cannot make the Ext. 1 valid and binding any more than what it intrinsically is. I have already shown that intrinsically it is not an agreement. So no claim for bonus which is based on it can be sustained. I would, however, like that the entire bonus scheme about the paste plant may be revised on a solid basis to include such extra production of paste. But that can only be done when the bonus scheme is made to rest on the quantity of paste produced. This is no more than a mere recommendation, and I can give no direction in the matter. The issue as it stands fails against the Union.

Issue No. 1: The Union claims bonus of three months' basic pay in respect of the financial year ending on March 1956. Both sides have given charts working out the formula as set forth by the Labour Appellate Tribunal in the case of Mill Owner's Association, Bombay.

(In lakhs rupees.)

Net profit for the year 1955-56		25·21 (Omitting thousands).
Add—Depreciation on cars and lorries (This is not disputed)		·16
		25·37
Less depreciation		6·94
		18·43
(This is not disputed, but the Union only wants to include rehabilitation charged within this figure. That cannot be accepted. Depreciation is not the same thing as rehabilitation. It has been held in a series of cases that rehabilitation charge should stand separate. So the Union's contention fails)		
Less income-tax at 7 annas in the rupee		6·85
		11·58
The Union has deducted 6·30 lakhs while the Company deducts 6·85 lakhs. The Company has given income-tax on 25·30 lakhs, less normal depreciation. The Union has excluded rebate on bonus. I cannot accept the Union's contention because bonus is still indeterminate, and rebate cannot be granted on it.		
Less dividend at 6 per cent. per annum		5·20
		6·38
(There is no dispute on this point).		
Less—Return on working capital		2·42
		3·96

The Union has not granted anything. The Company has claimed 4 per cent. on 60 lakhs and odd as working capital. The evidence on this point of the Company is *ex-parte*. It has included in the claim, capital reserve, debenture loan, provident fund, etc., and I find no reason why they should not be treated as working capital.

Less Rehabilitation. The Company has claimed 7·96 (lakhs) on this head. The Company bases its calculation on the revaluation made by the Expert Committee set up for the purpose. But the report of the said Committee is asked by the Company to be treated as confidential. The Union disputes the said Committee's finding. In the circumstances I am unable to accept the finding of this Committee on the matter of revaluation of buildings, plants and machineries. So I turn to the conventional calculation given in the chart by the Union.

Original cost of building (as per the schedule B to the balance sheet)	48·34	48·34
Less- Break-down value	2·41	—13·46
Less—Depreciation provided	11·05	=34·88 lakhs.
	13·46	

(In lakhs rupees.)

This is divided by 50 (years) according to the Union. I do not accept this divisor because I do not apply the multiplier of 2·7. I could not fix the multiplier because the Company has not supplied the age of building. So divided by 30 (years) it comes to 1·16 on the score of buildings		..	1·16
Machineries.—The total original cost as per the balance-sheet ..		142·08	
Less break-down value at 5 per cent.	7·10	52·91	
Depreciation	45·81	89·17	
	52·91		
The Union divides it by 20 (years). I do not accept this stand of the Union. Here also I have not multiplied it by 2·5, the usual multiplier because the age of machineries, so far as the pre-war and post-war is not forthcoming. I apply the divisor 15 (years)			
So, 89·17 divided by 15=5·94			5·94
			7·10

So the total Rehabilitation cost in the year in question would be 7.10 (lakhs). Thus there is no available surplus for bonus in the year in question. So the Union's claim for bonus in respect of 1956 fails under the formula of the Labour Appellate Tribunal.

I do not, however, decide if 15 days' wages said to have been already given by the Company as bonus should be recovered. That depends upon the agreement reached between the parties. It falls outside the scope of adjudication in the present reference.

ANNEXURE

In the matter of an industrial dispute existing between Messrs. Hooghly Docking and Engineering Co. Ltd., 4 Howrah Road, Howrah, and their workmen represented by Hooghly Docking and Engineering Workers' Union, 77 Upen Mitra Lane, Salkia, Howrah.

BEFORE THE FIFTH INDUSTRIAL TRIBUNAL, WEST BENGAL

PRESENT:

SHRI G. PALIT, *Judge, Fifth Industrial Tribunal.*

Present for the Company: Shri Lala Himangshu Das, Accountant of the Company with Shri B. B. Nan, Solicitor of Messrs. Sandersons & Morgans, Solicitors.

Present for the Hooghly Docking and Engineering Workers' Union: Shri Ram Sen, representative of the Union.

Present for the Hooghly Dock Employees' Union: Shri D. L. Sen Gupta, Advocate.

By Government order No. 4444-I.R./IR/10L-144/57, dated the 26th November 1957, the aforesaid dispute has been referred to the Fifth Industrial Tribunal, presided over by me, for adjudication under section 10 of the Industrial Disputes Act, 1947 (XIV of 1947). The said Fifth Industrial Tribunal was constituted under Government notification No. 808-I.R./IR/3A-2/57, dated the 11th March 1957.

2. The reference was received here on 30th November 1957. After usual notice the Employees' Union filed written statement on 3rd January 1958. The Workers' Union filed written statement on 8th February 1958. The Company filed written objection on 12th May 1958. After some adjournments the case was taken up for hearing on 18th December 1958 when the argument was closed. The award was reserved.

3. The only issue which stands for adjudication as per the order of reference is as follows:—

Bonus for 1956 payable in 1957.

AWARD

According to the Union the concern is a highly prosperous one employing about 1,500 workmen of whom 260 are designated as supervisory staff, clerks and subordinate staff while 1,240 are manual workers. The clerical staff were represented by the Employees' Union while the operatives and the workers were represented by the Workers' Union. The Union contends that the Company granted bonus on a uniform rate up to 1955 with Messrs. Burn & Co. Ltd. under the same managing agency. A difference arose when Messrs. Burn & Co.'s monthly-paid employees were paid two months' salary as bonus while in this Company bonus was paid at 1½ months' basic pay for 1955. The Unions clamoured for bonus on the profit earned by the Company. The Company on 10th September 1957 wrote to the Assistant Labour Commissioner that it agreed to pay usual Puja bonus of one month's salary. Later on there was a joint conference on 13th September 1957 in which the Company agreed to the proposal of bonus dispute relating to 1956 being sent to the Tribunal for adjudication. In the meantime one month's basic salary as Puja bonus and half-month's basic

salary as an advance was to be paid to the clerical and the subordinate staff. The Union now claims six month's salary as profit bonus including one month's salary already conceded by the Company as Puja bonus.

The Company contends that the bonus paid by this Company had nothing to do with the bonus granted by Messrs. Burn & Co. It denies that one month's salary that was granted was a Puja bonus. In the year 1950 the Company suffered a loss and no bonus was given. As a matter of fact the workers were never paid bonus during 1950. The Company makes no discrimination among the clerical staff and other workers in the matter of granting bonus. In the year 1956 the clerical and the subordinate staff were granted one month's salary as Puja bonus and further half month's salary as a loan to be adjusted against any bonus in the award of the Tribunal. To the workers the Company paid 1½ months' salary as a loan to be similarly adjusted. But it was stipulated that if the Tribunal does not grant any extra bonus then one month's salary given as bonus would not be recovered, but only the remaining half month's salary would be recoverable. So, practically, both the sections of workmen stood on the same footing *vis-a-vis* the bonus matter. Regarding the huge profits alleged to have been made by the Company in 1956, it is contended that the gross profit no doubt went up, but the net profit did not show a corresponding rise. The Company asserts that under the Labour Appellate Tribunal's formula there would be no available surplus for bonus in respect of the year 1956.

Both sides have relied on the said formula of the Labour Appellate Tribunal as set forth in the case of the Bombay Mill Owners' Association *versus* Rastriya Mill Mazdoor Sabha.

I have taken the charts from both sides regarding respective computation on the basis of the said formula. I set forth below how much of the one I take and how much I reject of the other:

		(Rupees in lakhs.)
Net profit as per the profit and loss account		2·68
Add—back—		
(a) provision for taxation	2·30	
(b) provision for sales tax	2·87	
(c) provision for depreciation	1·20	
(d) loss on sale of fixed assets	·15	
(e) subscription and donation	·01	6·53
	6·53	9·21
Less normal depreciation	1·20	1·20
		8·01
Less income-tax at 7 annas on rupee one of Rs. 8 lakhs	3·50	3·50
		4·51
Less six per cent. dividend on paid up capital	·75	·75
		3·76
Less 4 per cent. on working capital	·92	·92
		2·84

Less Rehabilitation charges amounting to Rs. 6 lakhs.

Thus there is a deficit of 5½ lakhs, and there is no available surplus.

In the calculation given by the Union no Rehabilitation cost has been provided for. It is said to have been included in the depreciation. But this I cannot accept because Rehabilitation cost is never synonymous with depreciation awarded annually.

Regarding income-tax, the Union has given deduction of rebate as bonus. But this is not as per the Labour Appellate Tribunal's formula. Rebate on bonus is indeterminate. Income-tax notionally has been given in the formula on the balance after deduction of normal depreciation. The Company has deducted income-tax as per their return on the net profit of Rs. 2 lakhs and 30 thousand. That may be correct according to the assessment made by the income-tax authorities. But in the formula of bonus a notional amount has been allowed and that on the balance as it stands after the deduction of depreciation in the formula. So I do not accept the Company's version about the income-tax.

Regarding the return on working capital at 4 per cent., the Union has made no submission. The Company has given how the working capital has been found out. I am at one with the said calculation. The Company has shown written down value of fixed assets on 31st December 1956 as Rs. 20,48,000 and odd. It has deducted subscribed capital of Rs. 12½ lakhs. The balance of Rs. 7 lakhs and 98 thousand was found out of the reserves. So it must be taken that this amount of reserve was actually utilised as working capital.

Regarding the other branch of the liquid working capital, the Company has added together current assets, loans, advances and cash and bank balances amounting to Rs. 1 crore and 50 lakhs. Current liabilities as per the balance-sheet amounted to Rs. 1 crore and 12 lakhs. So the working capital stood at Rs. 37 lakhs and 87 thousand. This was met partly by bank overdraft of Rs. 22 lakhs and 71 thousand. So Rs. 15 lakhs and 15 thousand which stood as the balance was met by drawing upon the reserve. So the total working capital stands at Rs. 7 lakhs and 98 thousand, and Rs. 15 lakhs and 15 thousand, i.e., together Rs. 23 lakhs and 13 thousand.

Now, even if 2 per cent. is given on the working capital the total balance would not be upset except to the tune of Rs. 46 thousand.

There is no dispute regarding the return of dividend on the subscribed capital.

Regarding the Rehabilitation charge, the Company has worked out in the following manner:

The total original cost value on 31st December 1956 as per the balance-sheet stood at Rs. 39 lakhs and odd. From that Rs. 2 lakhs have been deducted as additions made during the year. The balance Rs. 37 lakhs was multiplied by 2.7. Then the breakdown value at 5 per cent. and the total depreciation were deducted. The balance stood at Rs. 74 lakhs and odd. This was divided by 15, that being the normal life and efficiency of macheneries. So the annual replacement value would be Rs. 5 lakhs.

Regarding the fixtures of workshop buildings and offices, the original cost value stood at Rs. 20 lakhs and odd. It was multiplied by 2.25 and depreciation was deducted. The balance was Rs. 31 lakhs and odd. It was divided by 30. So the annual replacement cost came to Rs. 1 lakh and odd on this head. So the annual total replacement cost stood at Rs. 6 lakhs and odd. This is the calculation on the lines as given in the Appellate Tribunal's formula. I accept the Company's computation on this head as correct.

So regard being had to all the facts and circumstances I find that there is no available surplus for giving any bonus on the profits of 1956 as per the Labour Appellate Tribunal's formula.

Whether the 15 days' basic wages given as an advance would be recovered and, if so, how, would depend upon the agreement arrived at between the parties. I have nothing to do with that in the present case. So I give no direction in the matter.

ANNEXURE

In the matter of an industrial dispute existing between Messrs. Bishnu Kapok Mills, 9-A Guha Road, Ghusury, Howrah, and their workmen represented by Howrah Tulakal Mazdoor Union, 71 Jaibibi Road, Ghusury, Howrah.

BEFORE THE FIFTH INDUSTRIAL TRIBUNAL, WEST BENGAL

PRESENT:

SHRI G. PALIT, *Judge, Fifth Industrial Tribunal.*

Present for the Company: Shri S. K. Bhanja Choudhuri, Labour Adviser of the Company.

Present for the Union: Shri Ram Chandra Singh, General Secretary of the Union.

By Government order No. 3071-I.R./IR/8L-19/58, dated the 23rd July 1958, the aforesaid dispute has been referred to the Fifth Industrial Tribunal, presided over by me, for adjudication under section 10 of the

Industrial Disputes Act, 1947 (XIV of 1947). The said Fifth Industrial Tribunal was constituted under Government notification No. 808-I.R./IR/3A-2/57, dated 11th March 1957.

2. The reference was received here on 29th July 1958. Shri Jagannath Pandey, the President of the Union, appeared on two dates and filed applications for time. Finally, Shri Ram Singh, the General Secretary of the Union filed written statement of the Union on 15th September 1958. But the Company could not be made to appear till 5th December 1958 when it filed a petition praying for time. Thereafter it did not file its written objection even when it was definitely given out that no further time in the matter will be granted. Then the case was fixed for *ex-parte* hearing on 30th January 1959. On 30th January 1959, none of the parties did appear before the Tribunal.

3. The only issue which arose for determination under the order of reference was as follows:—

To what relief including monetary compensation the workmen are entitled to due to temporary closure of the factory from 16th April 1958?

AWARD

As already stated, none of the parties did appear on the date fixed for *ex-parte* hearing in spite of repeated notices. So the award which I pass is one of "no dispute" on the presumption that the subsisting dispute, if any, must have been made up between the parties out of Court. So I dispose of the dispute referred to me accordingly with a "no dispute" award.

Notices were issued on both the parties to file their written statement. And

Their workmen, represented by the West Bengal Confectionery & Food Products Mazdoor Union, 90 Lower Chitpore Road, Calcutta-7, workmen.

The joint petition of both parties abovenamed

MOST RESPECTFULLY SHEWETH:

1. That Shri Lakshman Ram has been allowed to rejoin his duty with effect from 2nd January 1959, the period of unemployment being treated as special leave without wages.

2. That in consideration of his reinstatement in the factory the said workman will not be entitled to any other relief and/or claim against the Company in any shape or form.

3. That all workmen and the Union admit that the layoff period was from 19th July 1958 to 26th July 1958 and the workmen admit that they were not entitled to any layoff compensation because the provisions of layoff benefits as contained in section 25(c) of the Industrial Disputes Act are not applicable to this factory inasmuch as the number of workmen has always been below fifty.

AWARD

By order No. 2680-I.R./IR/11L-151/57, dated the 27th June 1958, the Government of West Bengal, in the Labour Department, referred under section 10 of the Industrial Disputes Act, 1947, the industrial dispute between Messrs. British Paints (India) Ltd., Shalimar, Howrah, and their technical and clerical staff represented by British Paints (India) Ltd. Employees' Union, 23A Netaji Subhas Road (top floor), Calcutta, regarding the matter specified in the schedule, to the Third Industrial Tribunal, constituted under section 7A of the Industrial Disputes Act, 1947, by notification No. 808-I.R./IR/3A-2/57, dated the 11th March 1957, for adjudication.

2. After usual summons the parties put in appearance and filed their written statements. The pleadings were completed on 6th September 1958. The parties were thereafter directed to file lists of documnts. Then the dispute was heard and award was reserved.

3. The matter of dispute as stated in the schedule to the order of reference is as follows:—

Leave and holidays for the technical and clerical staff.

Decision

Issue 1: Messrs. British Paints (India) Ltd. (hereinafter called the Company) is one of the reputed paint manufacturers in India. The present claim has been laid on behalf of the technical and clerical staff attached to the factory of the Company at Howrah. The members of the technical and clerical staff of the factory get 10 days' festival holidays with pay and 14 days' privilege leave with pay in a year cumulative up to 28 days besides "declared holidays" (a special feature of this Company and said to number about 6 days in a year) and 10 days' casual leave with pay.

The Union demands leave and holidays as follows:—

Festival holidays—All the holidays as per Negotiable Instruments Act excepting 30th June, 31st December and Easter holidays.

Privilege leave—One month with full pay in a year.

The Company opposes the claim for increasing the number of festival holidays while it is agreeable to increase the number of privilege leave to 21 days cumulative up to 42 days in supersession of the "declared holidays" which according to Company number about 6 days in a year. In support of claim for festival holidays, the Union alleged that formerly the members of the technical and clerical staff attached to the factory were getting all the holidays as per Negotiable Instruments Act excepting those as aforesaid and that since the Head Office was shifted to Calcutta in 1952, the number of such holidays was gradually curtailed so as to come to 10 days at present. The Company, on the other hand, denied that it ever granted holidays under the Negotiable Instruments Act and that there has been any curtailment in the number of festival holidays. The Assistant Secretary of the Union, P.W. 1 Shri R. S. Krishnaswami Narayanam, who deposed in this case had in a way to admit that the existing 10 festival holidays have all been current and that at no time holidays were granted according to those under Negotiable Instruments Act. So there would be no foundation for the claim for increment in the number of festival holidays according to Negotiable Instruments Act. The claim cannot also be justified having regard to what prevails in other paint manufacturing concerns as per statement (Ext. A) filed by the Company in opposition to the statement (Ext. 3) filed by the Union in this respect. The number of festival holidays in those four firms are respectively 9, 10, 11 and 13. Regarding 13 festival holidays prevalent in India Paint, Colour and Varnishing Co., Ltd., the award, dated 20th March 1956, of Shri M. C. Banerji published in the *Calcutta Gazette*, dated 12th April 1956, goes to show that out of these 13 festival holidays, 10 are paid holidays while the remaining three are holidays without pay. So the maximum number of paid holidays is 11 days. In the circumstances, the existing 10 days' paid festival holidays in this Company for the technical and clerical staff attached to the factory cannot be considered to be inadequate. The claim for same number of holidays as are granted under the Negotiable Instruments Act, I agree, would cause dislocation in the smooth working of the factory. Then no distinction should be made regarding the number of festival holidays between the technical and clerical staff on one hand and purely factory workers on the other. Both the First and Second Major Engineering Tribunals of West Bengal made no distinction between these categories of workmen in the matter of festival holidays. Under the award of the First Major Engineering Tribunal 8 festival holidays were granted and under the award of the Second Major Engineering Tribunal 10 festival holidays were granted, to all classes of employees in the factory. There would be no justification to make innovation in the present case. It is not disputed that factory workers get 10 festival holidays. So claim for more festival holidays only for technical and clerical staff cannot be sustained. In this view of the matter the claim for increment in the number of existing festival holidays is rejected. Likewise claim of the Union during argument for inclusion of the number of "declared holidays" in this category cannot be conceded as this would bring the total number of festival holidays to abnormally a high figure at 16 days which is not desirable in the interest of smooth running of the factory and industrial peace.

Regarding privilege leave, the Union alleged that technical and clerical staff of most of the offices carrying on similar trade enjoyed privilege leave of not less than 28 days with full pay in a year. In support the Union files statement (Ext. 3). Out of the five companies mentioned therein it is admitted that No. 1 Messrs. Shalimar Works Private Ltd. is not a paint manufacturing concern but an engineering concern. None from the four other concerns has been brought to show that really 28 days' privilege leave are granted in those concerns. The statement does

not also show whether the said 28 days' privilege leave are all paid leaves. The Assistant Secretary of the Union (P.W. 1) admitted that he has no knowledge whether the privilege leave shown in Ext. 3 are paid holidays. There is also no evidence to show what other kinds of leave are granted in these concerns to the clerical staff. If really these four concerns grant 28 days' privilege leave with pay, the existing quantum of 14 days' privilege leave in a year as prevalent for these categories of workmen in the factory of this Company can be said to be inadequate. At the same time it cannot be overlooked that in this Company there is a practice of granting "declared holidays" which is a special feature of this Company alone. It is not disputed that such type of holidays does not exist anywhere else (*vide* P.W. 1). The number of "declared holidays", it appears, is variable and is so liable to be a source of dispute. I, therefore, agree that there would be no justification to continue the "declared holidays" separately. It appears that number of such holidays in a year is usually about 6 days. The Company can rightly claim that the number of such holidays is to be taken into account in determining the quantum of the privilege leave. The Company is agreeable to grant 7 days more privilege leave in lieu of "declared holidays" of about 6 days per annum [Ext. 1(a)]. I consider the proposal to be fair and accordingly accept it. This would raise the quantum of privilege leave to 21 days with full pay in a year. Although the total would not come up to what is said to prevail in four other concerns as mentioned in Ext. 3, this would certainly be an improvement over what actually prevails for the clerical staff attached to the Head Office of the Company in this respect. As further rise would make a great disparity and necessarily bring discontentment amongst the clerical staff attached to the Head Office, I think it will not be in the interest of industrial peace to go further in the matter. It appears that under awards of both First and Second Major Engineering Tribunals privilege leave for 21 days with pay in a year had been granted for the clerical and supervisory staff attached to the factory. So giving due consideration to all aspects of the matter I fix the number of privilege leave with full pay in a year at 21 days cumulative up to 42 days as fair and adequate. The leave as aforesaid is granted in supersession of the leave as is now granted by the Company under the nomenclature "declared holidays". The privilege leave as fixed above will be operative from 1st January 1959.

This is my award.

ANNEXURE

In the matter of an industrial dispute existing between Messrs. Steel and Allied Products Limited, Temple Chambers, 6 Old Post Office Street, Calcutta-1, and having their factory at 2/1 Hossain Shah Road, Calcutta-23, and their workmen represented by Steel and Allied Products Ltd. Workers' Union, 15 Braunfield Row, Calcutta-27. [Case No. VIII-168(94) of 1957.]

BEFORE THE FIFTH INDUSTRIAL TRIBUNAL, WEST BENGAL

PRESENT:

SHRI G. PALIT, *Judge, Fifth Industrial Tribunal.*

Appearances:

Present for the Union: Shri Ram Sen.

Present for the Company: Shri P. C. Ghosh, Advocate.

By Government order No. 2601-I.R./IR/11L-333/57, dated the 19th July 1957, the aforesaid dispute was referred to the Fifth Industrial Tribunal presided over by me for adjudication under section 10 of the Industrial Disputes Act, 1947 (XIV of 1947). The said Fifth Industrial Tribunal was constituted under notification No. 808-I.R./IR/3A-2/57, dated the 11th March 1957.

2. The reference was received here on 23rd July 1957. After usual notices to the parties the Union filed written statement on 3rd November 1957. The Company filed written objection on 25th November 1957. After several adjournments the case was taken up for hearing on 27th January 1959. The evidence including the argument was concluded on that date. The award was reserved.

3. The issues which arise for determination under the order of reference stand as follows:—

(1) Whether the management was justified in dismissing Shri Arun Kumar Sarkar and Shri K. N. Chaklader and what relief are they entitled to?

(2) Scale of pay.

(3) Dearness allowance.

(4) Leave and holidays.

AWARD

4. According to the Union the concern employs about 175 workmen and is equipped with most up-to-date machineries. It manufactures wooden screws of different types, screw machines, SAP blades of standard sizes, etc. The Union was formed in January 1957 just to claim the legitimate economic demands. But the Company was perturbed by the formation of the Union and dismissed two permanent workmen who were Assistant Secretaries of the Union and who took active part in organising the workmen. There was a conciliation proceeding which yielded no tangible results. Hence the present reference.

According to the Company it is not at all prosperous but has been sustaining systematic losses for the last five years. It raises two legal objections, viz. (1) that the Tribunal is not competent to go into the issues Nos. 2, 3 and 4 which were not before the Conciliation Officer, (2) that the issue No. 1 is pre-mature because the Company has not yet dismissed the two workmen mentioned. It has only placed them under suspension. But as the case was pending before the Conciliation Officer it applied for permission to dismiss the said workmen. The said permission is not yet forthcoming. It is further stated that since January 1959 the Company has introduced the minimum scales of pay for different workmen as enjoined by the Third Major Engineering Tribunal of 1958.

Next I turn to the issues.

Issue No. 1: It could not be disputed by the Union that Shri Arun Kumar Sarkar and Shri K. N. Chaklader have not yet been dismissed by the Company. The Company decided to dismiss them and for that reason has put in an application before the Conciliation Officer for permission to dismiss. The Conciliation Officer has not either granted the permission or rejected the application. These two men are at present under suspension. So it is clear that the issue as framed by the Government is misconceived. The Tribunal has been called upon to decide the question whether the management was justified in dismissing the two workmen and to specify the consequential relief. But it is clear that they have not been dismissed. So the propriety of the order of dismissal which is yet to come cannot be gone into by the Tribunal. Neither can the Tribunal decide what should be the consequential relief following their dismissal which is still in the future. So I hold that the issue is pre-mature and I am unable to decide it on the facts elicited. I have not been called upon to go into the question of the propriety or otherwise of the order of suspension. That was evidently a security measure. At all events, it has not been referred to this Tribunal for adjudication. So it does not arise.

Issue Nos. 2 and 3: These two issues are taken up together because the Company grants only a lump-sum as wages. That includes dearness allowance also. Such practice is not very unusual though it is always desirable to split up the two and specify the salary and the dearness allowance separately. In the case of retrenchment as in the case of bonus, the salary and not the dearness allowance is granted. So in such circumstances the salary is required to be determined. But since this is the practice to grant consolidated wages I do not like to disturb in the present case. I only see how far the two together is adequate or not. The Company has given a list marked Ext. A in which the minimum pay of unskilled, semi-skilled and skilled workmen have been mentioned. Under the Third Major Engineering Tribunal the minimum salary of unskilled workmen is Rs. 35 per month. The minimum dearness allowance up to

Rs. 50 is Rs. 36. The two together make up Rs. 71 per month which the Company is granting since January 1959.

For the semi-skilled category of workmen, the minimum salary is Rs. 40 per month and the minimum dearness allowance up to Rs. 50 is Rs. 36. So the two together will make Rs. 76, i.e., what the Company is granting since January 1959 as per Ext. A.

For the skilled category the minimum salary is Rs. 75, the minimum dearness allowance from Rs. 51 to Rs. 100 will be Rs. 47. So the two together will make Rs. 122 per month, i.e., what the Company has been granting since January 1959 as per Ext. A. So I get that the present Company has conformed to the minimum salary and dearness allowance as provided under the award of the Third Major Engineering Tribunal of 1958. I find from Ext. A that other workmen in these different categories have been getting more than this minimum salary. That must be taken to have been adjusted to the respective merit of the said workmen. No salary in particular calls for any specific interference from this Tribunal in the present case.

Regarding the introduction of grade. I do not think that the Tribunal would be justified in placing this heavy economic burden on a Company which is already struggling hard against extinction. This unit is hard put to it to keep up its existence as I find that it has been suffering systematic losses ever since its inception spreading over the last five years. In such circumstances if the grade and scales as outlined by the Third Major Engineering Tribunal are introduced, that will only precipitate the crisis and spell disaster to this already tottering concern. I quote from the award of the Third Major Engineering Tribunal to which I was a party at page No. 5441, *Calcutta Gazette, Extraordinary*, dated the 5th November 1958: "Before this award is concluded, it remains to be answered whether the marginal units who are already hard hit by trading reasons will be subjected to this new burden of increased basic pay and dearness allowance and this incremental scale. My first answer will be that I am averse to make any differential treatment in respect of any trading unit which is a party to this industry-wise Tribunal and that for the following among other reasons: (1) disparity in wage will be the result. That may give rise to discontent already noticed; (2) prices of commodities manufactured, being linked up with wage, will be different; (3) low wages in one will push up sales in one at the cost of another and that there will be an unhealthy competition among the employers. But all these considerations cease to be important when the very existence of the trading unit is at stake. That is why the 'capacity to pay' is so essential in granting dearness allowance and also fair wage. So I am bound to make a differential treatment concerning companies which cannot bear a heavy financial burden". These remarks which were made by the Major Engineering Tribunal with reference to the marginal units in the industry-wise award, apply *mutatis* and *mutandis* to the facts of the present case. So regard being had to the systematic losses sustained by this Company I turn down the claim for grades and scales. So I do not allow any scale and uphold the salary introduced from January 1959 as meeting the ends of justice.

Issue No. · Leave and holidays: The Union has claimed for the clerical section 12 days' festival holidays, 10 days' casual leave, 21 days' privilege leave and 15 days' sick leave on full pay. For the workers, it is claimed 12 days' festival holidays, 15 days' statutory leave and 6 days' casual leave all on full pay. If I turn to the award of the First Major Engineering Tribunal I get that clerks get 8 days' festival holidays, 21 days'

privilege leave, 15 days' sick leave on half pay and casual leave of one week on full pay. For the workmen the Tribunal provided 8 days' festival holidays and 10 days' statutory leave, 5/6 days' other leave and sick leave 15 days' on half pay.

Here I get from the Manager that the Company grants 10 days' festival holidays and 3 days' National holidays, viz., the Republic Day, the Independence Day and the Biswakarma Puja day. So on the score of holidays the workmen as well as clerks are getting more than what they have claimed. Regarding the statutory leave the Company grants what is allowable under the Factories Act. During the Engineering Tribunal there were 10 days' statutory leave before the amended Factories Act. But now they get under the amended Factories Act, one day for 20 working days. It works out to 18 days or so in a year. So the workmen are getting on the score of statutory leave more than what they have claimed. But the clerks are getting less. I award that they should get 21 days' privilege leave on full pay. Regarding sick leave the clerks have claimed 15 days. In pursuance of the First Major Engineering Tribunal I grant 15 days' sick leave both for the workers as well as for the clerks but on half pay in a year. To get such leave there should be a certificate from a competent or qualified doctor or the Company's doctor as may be enjoined under the Standing Orders of the Company. Though sick leave has not been claimed specifically for the workmen I have granted it because I have disallowed their claim for casual leave. Regarding casual leave I allow 7 days' casual leave in a year only to the clerks on full average pay. For the workers I do not grant any casual leave. My reason is that the First Major Engineering Tribunal granted 5/6 days' other leave because Dr. Radhakamal Mukherjee opined that 22 days' leave in a year should be granted to the operatives. At that time only 10 days' statutory leave was allowable under the Factories Act, 8 days' festival leave were granted. So altogether 18 days' leave was there and to make up 22 days, these five days' other leave was provided for. But now after the amendment of the Factories Act, the statutory leave has been increased to 18 days in a year or more. Over and above there are 10 festival holidays. There are also 3 National holidays. So altogether the workers get 31 days' holidays in a year. I am unable to grant them other leave in such changed setting. So the claim for casual leave or other leave as made by the workers is rejected. So I award as below:—

For the Clerks

Festival leave—10 days+3 National holidays, on 15th August, the 26th January and the Biswakarma Puja. Casual leave—7 days; privilege leave—21 days, all on full pay and only sick leave of 15 days on half pay.

For the Workers

Festival holidays—10 days+3 National holidays and statutory leave under the amended Factories Act; Casual leave—No; sick leave—15 days on half pay.

Before I part with the records of the case, I dispose of the objection on the score of alleged want of jurisdiction in the absence of no issue before the conciliation officer about scale of pay, etc. This objection is misconceived. It was held by Mr. S. N. Modak in the Calcutta Corporation case that even without any report from the Conciliation Officer, the Government is competent to make a valid reference. So it is not necessary or essential that a matter must be mooted or raised before the Conciliation Officer before it can be referred to a Tribunal. Government is competent

to add or include any other matter that was not placed before a Conciliation Officer in its reference to a Tribunal. Section 10 of the Industrial Disputes Act, 1947, is very wide in its scope. So this contention is turned down. The other legal objection I have already dealt with.

NOTIFICATION

No. P.H./719/2R-17/59.—27th February 1959.—Whereas the Governor is satisfied that the district of Hooghly is threatened with an outbreak of small-pox;

Now, therefore, in exercise of the power conferred by section 2 of the Epidemic Diseases Act, 1897 (III of 1897), the Governor is pleased to prescribe the following temporary regulations for the prevention and control of small-pox and for the medical inspection, isolation, observation and surveillance of persons suffering from, or suspected of being infected with, small-pox in the said district for a period of six months with effect from 28th February 1959:—

TEMPORARY REGULATIONS FOR THE PREVENTION AND CONTROL OF SMALL-POX.

1. In these regulations unless there is anything repugnant in the subject or context,—

(*a*) "Health Officer" means the Health Officer of the district appointed by the State Government, the Chief Medical Officer of Health of the district or the Subdivisional Health Officer of any of the subdivisions of the district within their respective subdivisions;

(*b*) "Sanitary Inspector" means a Sanitary Inspector appointed by the State Government;

(c) "Union Board" means a union board constituted under the Bengal Village Self-Government Act, 1919;

(d) "Small-pox" means any disease accompanied by an eruption of vesicles or pustules;

(e) "Patient" means a person suffering from or suspected to be suffering from small-pox;

(f) "Medical practitioner" means any person practising the medical profession.

Notices

2. If in any case the Health Officer considers that the issue of a notice under these regulations is likely to lead to such an amount of delay as might facilitate the spread of small-pox he may forthwith take such steps as he may think fit for carrying out the work, and shall thereafter, as soon as possible, issue a notice on the person concerned stating the reasons why such work has been carried out.

3. If any measure which the Health Officer has by a notice issued under these regulations, required to be carried out, be not carried out to his satisfaction within the time stated in the notice the Health Officer shall be entitled to carry out the measure.

Costs and compensation

4. (1) All expenses incurred in carrying out any work in pursuance of an order issued under these regulations shall be paid by the board except in any case where the order directs a person to carry out any work in relation to property in his possession, in which case the expenses shall be paid by such person:

Provided that where the conditions which led the Health Officer to pass such an order, are not attributable to any act or default of the person in possession of the property, the State Government may pay to such person the whole or a part of the expenses incurred by him in carrying out the order.

(2) The State Government may recover all expenses incurred by the Health Officer in carrying out the measure under regulation 3 from the person or persons to whom the notice was originally issued.

5. The State Government shall pay adequate compensation to any person who has sustained substantial loss or damage by reason of anything done under these regulations:

Provided that no person shall receive any compensation for anything done or suffered under these regulations if he has failed to carry out an order issued under these regulations. He shall not direct the patient to be removed from the house unless it is, in his opinion, impossible to make proper arrangements for his isolation therein within the time specified in the order and to the satisfaction of the Health Officer.

Location of disease

6. When a case of small-pox occurs in a house, the nearest male relative in attendance upon the patient, or in the absence of any such relative the occupier of the house, or if the occupier be the patient, the senior male inmate of the house other than the patient of the house shall, within twenty-four hours of the onset of the disease, give information regarding the occurrence of such case either personally or in writing or by means of the chaukidar or other village watchman to the nearest Sanitary Inspector.

7. (1) Every medical practitioner called in to attend upon any case of small-pox shall forthwith give notice of the case by a special messenger to the nearest Sanitary Inspector or to the Health Officer by post and the cost of such messenger in each case shall be defrayed by the State Government.

(2) The doctor-in-charge of a hospital or a dispensary within the district shall forthwith give notice of any case of small-pox brought to such hospital or dispensary for treatment to the nearest Sanitary Inspector by a special messenger and to the Health Officer by post, and the cost in each case shall be defrayed by the State Government.

8. Presidents of union boards in union board areas and thana officers in non-union board areas shall supply to the Health Officer such periodical returns of cases of small-pox as he may from time to time call upon them to furnish.

9. The Health Officer or a Sanitary Inspector may examine any person who is, or suspected to be, suffering from small-pox or who in his opinion, may be infected with or likely to spread small-pox.

Isolation of patients

10. When the Health Officer or a Sanitary Inspector considers that the isolation of any patient is a precaution necessary for the protection of the neighbouring population, he shall order the patient to observe isolation and may order the nearest relative in attendance on the patient, or the occupier of the house in which the patient is staying, to arrange for the isolation of the patient in such a manner and for such a time as may be approved by the Health Officer.

11. The Health Officer or a Sanitary Inspector may order that any person, who has been in contact with a person found to be suffering from small-pox, shall be segregated for a period not exceeding a fortnight in a manner and in a place to be approved by the Health Officer.

12. The Health Officer or a Sanitary Inspector may order that any person who has been in contact with a person found to be suffering from small-pox shall be vaccinated or re-vaccinated within a time to be specified in the order.

13. No person shall enter any place wherein a patient is isolated under regulation 10, without the permission of the Health Officer or a Sanitary Inspector.

14. When a patient has been removed from a house for isolation under regulation 10, the State Government shall provide for him free of charge a suitable place, with necessary attendants, diet, etc.

15. No person, who is or has been suffering from small-pox, shall leave the place where he has been staying until he has received from the Health Officer or a Sanitary Inspector written permission to do so.

16. No person while suffering from evident symptoms of small-pox or in the convalescent state of the disease with scabs of pocks on his body shall expose himself in any street, road, public place, shop, bazar or any place used in common by persons other than members of the family or household to which such infected person belongs or shall move from place to place unless he is proceeding to a hospital for admission and treatment.

17. The Health Officer or a Sanitary Inspector authorised by the Health Officer in writing in that behalf may, during the prevalence of any outbreak of small-pox, order that any bazar, shop or other public place shall remain closed for such time as may appear to him to be necessary and may forbid the holding of any fair, *mela*, or other gathering to which people from several villages commonly or periodically resort.

Miscellaneous

18. The Health Officer or a Sanitary Inspector may require any person to allow to be carried out by such agency and within such time as may be specified in the order, such measures for the disinfection of any premises in the occupation of such person or for the disinfection or destruction of any of his personal effects, as the said officer or inspector may consider necessary.

19. The Health Officer or a Sanitary Inspector may direct the owner or occupier of any premises to take steps to have vaccinated or re-vaccinated within a time to be specified in the order any person residing on such premises and under the control of such owner or occupier if the Health Officer is of opinion that such person has been in contact with any one suffering from small-pox.

20. The Health Officer or a Sanitary Inspector may forbid any person who has been a patient or who has to his knowledge been in contact with a patient to act as vendor of any article for such period as may be specified in the order.

21. No person shall sell any article which has been in contact with a patient until it has been disinfected to the satisfaction of the Health Officer or a Sanitary Inspector.

22. The Health Officer or a Sanitary Inspector may issue general orders that by a specified date certain sanitary precautions of a simple nature, such as lime-washing of houses, clearing of latrines or the removal of filth or rubbish shall be carried out to his satisfaction.

23. The Health Officer or a Sanitary Inspector may prohibit persons from retaining or selling clothes taken from the bodies of persons who have died of small-pox and may cause any such clothes to be destroyed.

24. No person shall carry or permit to be carried in a public conveyance a patient except in the case where a patient is carried to a hospital with the following precautions against spreading the disease, namely:—

(1) that he is so well covered that the discharge and scabs from the lesions do not come directly into touch with the body of the conveyance;

(*ii*) that he is taken to the hospital direct and the conveyance does not halt at any other place for transacting any business; and

(*iii*) that excepting one or two attendants for the patient no other person is carried in the conveyance at the same time.

25. No person shall expose in any street, shop, bazar or any public place any clothing, bedding or other article which has been in contact with a patient or shall cause or suffer such articles to be carried in any public conveyance, but nothing in this regulation shall apply to a person who transmits any such article for the purpose of having the same disinfected with the following precautions against spreading the disease:—

(*i*) the article is so well covered with a cloth soaked in strong solution of formalin (1 in 400), lysol (1 in 500), izol (1 in 500), or of saponified cresol (1 in 160), that it does not come directly into touch with the body of the conveyance;

(*ii*) the article is taken to the disinfecting station direct and the conveyance does not halt at any other place for transacting any business; and

(*iii*) excepting one attendant for the purpose of taking the infected articles to the disinfecting station no other person is carried in the conveyance.

26. Every conveyance in which a patient or a dead body of a person who has died of small-pox or any article that has been in contact with a patient is carried shall be disinfected before it is used again. The disinfection will be effected—

(*i*) in the case of a conveyance carrying a patient to hospital, by the authorities of the hospital before such conveyance leaves the hospital;

(*ii*) in the case of a conveyance carrying any clothing, bedding or other article of a patient to the disinfecting station, by the authorities of such station; and

(*iii*) in the case of a conveyance carrying a dead body to the burial or cremation ground, by the owner of the conveyance himself and such owner shall effect the disinfection with a strong solution of formalin (1 in 400), lysol (1 in 500), izol (1 in 500) or of saponified cresol (1 in 160).

27. No person shall carry or permit to be carried in a public conveyance the dead body of any person who has died of small-pox without the previous written permission of the Health Officer, or a Sanitary Inspector and without taking the following precautions against spreading the said disease:—

(*i*) the dead body is so well covered with a cloth soaked in a strong solution of formalin (1 in 400), lysol (1 in 500), izol (1 in 500), or of saponified cresol (1 in 160) that the discharge and scabs from the lesions do not come directly into touch with the body of the conveyance;

(*ii*) the dead body is taken to the burial or cremation ground direct and the conveyance does not halt at any other place for transacting any business; and

(*iii*) excepting attendants for the dead body no other person is carried in the conveyance at the same time.

28. No person shall, without the written permission of the Health Officer, dispose of any corpse except by burning or burial.

29. The Health Officer may approve burning or burial grounds and may by order direct either generally or specially in respect to any specified area, that corpses shall not be burned or buried at places other than those so approved by him.

30. Any person burning or causing to be burnt any corpse shall cause the same to be completely reduced to ashes and shall likewise cause the clothes or other articles brought with such corpse to be reduced to ashes.

31. The Health Officer may direct that no person shall bury or cause to be buried any corpse, which, in the opinion of the Health Officer, is likely to spread small-pox, in a grave, not constructed of masonry and less than 6 feet deep.

32. The Health Officer may order that no *dome* or other person employed for the disposal of corpses shall withdraw from his duties without the permission of the Health Officer unless such *dome* or other person has given notice in writing not less than one month previously of his intention so to withdraw.

33. The Health Officer or a Sanitary Inspector may themselves or through any person authorised by the Health Officer or the Sanitary Inspector in that behalf seize and dispose of any corpse which in the opinion of the said officer or inspector is infected with or is likely to spread small-pox, unless the relatives or friends of the deceased person satisfy him that they are prepared and able to dispose of the corpse in a manner which will prevent the spread of small-pox.

34. (1) The Health Officer or a Sanitary Inspector may require any person who appears to be acquainted with facts in connection with any case or suspected case of small-pox to attend before him at a time to be stated in the order and at any place not more than one mile from the place where such person resides or is staying when the order is issued, and such person shall appear as so required.

(2) When the person summoned to appear under paragraph (1) is a female who, by the custom of the country does not appear in public, suitable precaution shall be taken to respect the said custom.

35. (1) The Health Officer or a Sanitary Inspector may examine orally any person who appears to be acquainted with the facts and circumstances of a case or suspected case of small-pox.

(2) When the person to be examined under paragraph (1) is a female who, by the custom of the country, does not appear in public the officer shall take her statement under such conditions as shall admit of due respect of the said custom.

(3) Such person shall be bound to answer questions relating to such case put to him or her by such officer, other than questions the answers to which would have a tendency to expose him or her to any criminal charge.

36. The Health Officer or a Sanitary Inspector may, with such assistants (if any) as he thinks fit, enter upon any land, or after two hours' notice in writing, into any premises or building used for human habitation at any time between sunrise and sunset for the purpose of carrying out any measure or making any enquiries authorised by these regulations.

37. The crew of any inland steam vessel or boat which plies in any canal or river and other persons on board such vessel or boat shall be subject to these regulations.

38. (1) All vaccinations under these regulations shall be performed gratuitously provided they be done (*a*) at such public vaccination stations as may be opened or (b) by house-to-house visits in the case of such females as are by the custom of the country unable to attend at public vaccination stations and are too poor to pay fees.

(2) Persons desirous of being vaccinated in their own houses other than those specially exempted under sub-regulation (1) shall pay a fee of two annas for each vaccination for which they shall get a printed receipt: provided that the total amount of fees payable for any number of operations performed in one family at the same house and at the same time shall not exceed annas eight.

39. (*i*) Orders issued by the Health Officer or a Sanitary Inspector under these regulations shall be in writing.

(*ii*) The officer issuing such orders shall cause copies of them to be served upon any persons named in them.

(*iii*) The nearest relative of a patient or the occupier of the house in which the patient is staying shall, if a copy of the order under regulation 10 has been served upon him, give to the nearest Sanitary Inspector or to his office immediate notice of any disobedience of the order by the patient.

By an order, dated the 11th October 1958, the Governor of West Bengal referred all outstanding disputes between the Calcutta Tramways Co., Ltd. and its workers and the matters connected with such dispute for adjudication on the following issues:—

Issues

(I) Whether the workers should be given any benefit in the shape of

(a) improved grades or scales of pay,

(b) Dearness allowance,

(c) house rent allowance,

in addition to 5 per cent. increase in basic wages subject to a minimum of Rs. 5;

(II) Whether increased benefit on retirement should be given in the shape of contribution to the provident fund on the basis of total emoluments and not on the basis of basic wages only as at present or in the shape of retiring gratuity; and

(III) Whether the present resources of the Company are adequate for maintaining its assets properly and for meeting its statutory liabilities under the Calcutta Tramways Act, 1951, as well as for meeting the additional liability which may devolve on the Company for the purpose of granting increased emoluments to the workers in accordance with the decisions on issues (I) and (II); if not, whether the proposal to increase the existing fares by one naya paisa should be given effect to.

INTERIM AWARD

On 12th August 1958 the workers of the Company went on a strike. Negotiations for a settlement were going on for some time. While talks of settlement were in progress, a proposal was made that as the workers had not drawn their pay for a pretty long time, the Company would make an advance payment at the rate of Rs. 75 per month to the Ministerial staff and at the rate of Rs. 55 per month to other workers, such advance would be realised by monthly deductions from the wages of the workers from January, 1959, in 11 equal instalments.

Before the Tribunal, the workmen at first prayed for stay of payment of the instalments pending the final adjudication of the present reference. The offer was not ultimately accepted by the Company.

Failing in the above attempt, the workmen filed this petition on 4th February 1959 praying for an interim award or order of decision by granting an increase of Rs. 10 per month in wages with effect from October, 1958, or for a direction upon the Company to stop all deductions of wages on account of advances taken by the workers.

It was asserted that the effect of issue No. (I) was that in the final adjudication, a sum in excess of Rs. 5 per month might be awarded as basic wages, and in addition increased emoluments in the shape of dearness allowance, house rent allowance, improved grades or scales of pay might also be awarded. It was also asserted that the workers had made a *prima facie* case for the award of the above emoluments as also for other retiral benefits set forth in item No. (II). It was also stated that in those days of soaring prices, it would be very hard on the workmen if the monthly deductions are made during pendency of the adjudication proceedings. The workmen accordingly prayed for stay of the monthly deduction or in the alternative for an interim award for Rs. 10 per month from October, 1958.

The Company filed a petition of objection alleging, *inter alia*, that the Tribunal had no jurisdiction to stop the deduction, which was unconditional, and that there are no cogent reasons for making an interim award, that there will be no hardship if the monthly deductions are made from the wages of the workers.

The first part of the prayer is taken up first. It appears that while the proposals for making an advance payment were being discussed the Joint Central Committee of the Tramways men suggested that the question whether the advance would be repayable or not, should be decided by an independent authority. In reply, the Company by its letter, dated 22nd September 1958, paragraph 5, point No. 2, clearly stated that the repayment was unconditional.

It is argued by the workmen that their prayer can be adjudicated upon by the Tribunal as the matter was incidental to the industrial dispute which has been referred to it. In Stroud's Judicial Dictionary it has been said that a matter is incidental to another matter if the former necessarily depends on the latter. This interpretation has been accepted by the Labour Appellate Tribunal in the case of The Punjab National Bank Ltd. *vs.* Their workmen (1952) L.A.C., page 73. In this view, the deduction being unconditional cannot be said to be incidental to the dispute referred.

The Tribunal has thus no jurisdiction to give a direction to the Company to stop all deductions in realisation of the emoluments in respect of the advance.

The question remains whether the alternative prayer for the interim relief by way of an award should be granted or not. At the time of hearing, the amount of interim relief claimed was limited to Rs. 5 per month. It was argued that there can be no doubt that the final award by way of basic wages and increased emoluments would exceed Rs. 5 per month.

Evidence has been led on the question whether the agreement to pay Rs. 5 as minimum increase in basic wages was unconditional or not. The condition attaching to the increase, as alleged by the Company but which the workmen dispute, are that the strike should be called off and that the funds of the Company should permit the increase. The fact is that the strike was called off immediately afterwards.

As regards the other condition, the evidence is conflicting. But there is evidence that the introduction of decimal coinage is expected to bring in an additional revenue of 13 lakhs of rupees. It is said by the Company that the expectation has not been fully realised and that it will not be so realised so long as the system of double coinage remains. Such time is not far off.

In these circumstances there is a *prima facie* case that the minimum addition to the wages of the workmen would not fall below Rs. 5 per month.

As regards hardship, it seems to me that in these days, the workmen will be hard put to it if there is a monthly deduction of Rs. 5 or more till December, 1959. It has been pointed out by the workmen that the State of West Bengal has granted increased dearness allowance to a section of their employees and that several awards of Industrial Tribunals have in recent times conferred additional monthly benefits on the workmen. It is also said that a Central Pay Commission is considering the claims of the employees for the award of monthly benefit. On behalf of the Company it has been pointed out that workmen in many other concerns draw less wages. It must be remembered that the workmen did not draw their salary for the strike period which runs into about six weeks.

No question of *mala fide* on the part of the workmen arises. From the fact that the first prayer of the workmen was misconceived and failed, it does not follow the workers' action in pressing a good claim should be considered as *mala fide*.

I may add that the power of the Tribunal to pass an interim award was not challenged. It will not be difficult to adjust the claims of the parties if the final award does not implement the interim award of Rs. 5 per month.

My interim award is that the workmen will be entitled to a sum of Rs. 5 per month in addition to their present wages.

Such award will take effect from the 1st February 1959.

This is my interim award.

Judge, Special Industrial Tribunal.

ANNEXURE

In the matter of an application under section 33A of the Industrial Disputes Act, filed by Shri Hrishikesh Sarkar, an employee, against his employer, the Howrah Municipality, in connection with C.O. No. 431-I.R./IR - 14L-7 57, dated 6th February 1958. (Case No. 160/58 under section 33A.)

BEFORE THE FOURTH INDUSTRIAL TRIBUNAL, WEST BENGAL

PRESENT:

SHRI M. N. GAN, *Judge, Fourth Industrial Tribunal.*

For the Union: Shri P. S. Basu, Advocate.

For the Municipality: Shri J. Banerjee, Secretary of the Howrah Municipality.

This is a complaint by Shri Hrishikesh Sarkar, an employee of Howrah Municipality, against his employer, in which he alleged that he was dismissed from service, by a letter, dated 21st July 1958, without the approval of this Tribunal before which an industrial dispute between the parties was pending for adjudication. He was not paid one month's wages as provided in section 33(2) of the Industrial Disputes Act. He served the Municipality as a Collecting Sarkar for the last 15 years. He was suddenly charge-sheeted on 28th January 1958 to which he submitted an explanation on 10th February 1958. Thereafter, without any enquiry, the opposite party on some extraneous consideration dismissed him from service. He had preferred an appeal before the Chairman, Howrah Municipality, on 5th August 1958. The Opposite Party contested this case alleging that Shri Sarkar, the complainant, was guilty of grave misconduct and negligence for which he was dismissed on 21st July 1958. The dismissal was fully justified, which was not on extraneous consideration, and there was no violation of the principles of natural justice. The complainant was dismissed after proper charge-sheet and enquiry for temporary defalcation, non-affixation of Revenue Stamp, where necessary, and misappropriation of stamp money.

During argument, Shri J. Banerjee, appearing on behalf of the Howrah Municipality, contended that the complaint was not maintainable for (i) the complainant was not a workman under the Industrial Disputes Act, and as such, the provisions of the Industrial Disputes Act do not apply, (ii) there has not been any violation of the provisions of section 33 of the Industrial Disputes Act for, the complainant was dismissed for an offence and not for a misconduct for which an approval of the authority is

necessary and (iii) payment of monthly wages and taking approval are conditions subsequent and not precedent.

Points for decision

(1) Whether this complaint is maintainable?

(2) Whether on merits the dismissal of the complainant is justified?

(3) To what relief, if any, the complainant is entitled?

AWARD

Points Nos. 1 to 3: Shri Banerjee contends that there is no evidence on the side of the complainant to show that he is a workman within the meaning of section 2(s) of the Industrial Disputes Act although the complainant's allegations as to the nature of the duties, made in paragraph 4(b) of his complaint, were denied by the Opposite Party in paragraph 11 of its written statement. Shri P. S. Basu, Advocate for the complainant, refutes this contention by pointing out that the pleadings require a categorial and specific denial of the adversary's allegations in the pleadings in order to be effective in any judicial proceedings and that an omnibus denial, like the one, made in paragraph 11 of the Opposite Party's written statement is no denial at all. Therefore, the complainant is not obliged to adduce evidence to prove that his duties were clerical in nature, and as such, he was a workman. Further, this question affects the jurisdiction of the Tribunal and is a mixed question of facts and law. Shri Banerjee has taken this objection, during argument, and did not put any question to the complainant, when he was being examined and cross-examined in the witness-box in this case. The duties alleged in his petition of complaint and not denied categorically by the Opposite Party, do not, in my opinion, require particular proof in this case. The parties went to trial on the assumption that Shri Sarkar was a workman who was dismissed for grave misconduct, during the pendency of adjudication proceedings before this Tribunal. A municipal employee may be a workman. It has been so held by the Supreme Court in a case of D. N. Banerjee *vs.* P. R. Mukherjee, reported in 1953, L.L.J. I, p. 195. Since there is no specific denial of the allegation as to the nature of the duties of complainant, which allegations definitely show that he was mainly performing clerical duties, the Tribunal is entitled to hold and do hold that Shri Sarkar, the complainant, is a workman under section 2(s) of the Industrial Disputes Act. That being so, the provisions of the said section apply to this case.

The question now is whether there has been any contravention of the provisions of section 30 of the Industrial Disputes Act by the employer, entitling the employee concerned to file this complaint under provisions of section 33A of the Industrial Disputes Act. The complainant contends that an adjudication proceeding was pending before this Tribunal at a time when he was dismissed for an alleged misconduct when (i) payment of a month's wages and (ii) an application for approval of the action by the employer, as required under proviso of section 33(2) of the Industrial Disputes Act, were not made. An industrial dispute, in which the complainant was concerned, in respect of several issues, was adjudicated by this Tribunal by an award, dated 6th June 1958. This was directed to be published in the *Calcutta Gazette*, on 26th June 1958, and was published in the *Calcutta Gazette, Extraordinary*, dated 7th July 1958. This would appear from the written statement of the Opposite Party at paragraphs 2 and 3, and also on a reference to the said copy of the *Gazette*. It is conceded by the Opposite Party that, technically speaking, the adjudication

proceedings were pending till the 6th August 1958, i.e., 30 days from the date of the publication of the award in the *Calcutta Gazette*, and Shri Sarkar was dismissed on 21st July 1958 without compliance of the provisions of section 33(2) of the Industrial Disputes Act. Shri Banerjee, on behalf of the Municipality, contends that the provisions of section 33(2) of the Industrial Disputes Act are not attracted to the facts of this case for, Shri Sarkar was punished with dismissal from service for an "offence", and not for a 'misconduct'. The section applies only in the event of dismissal from service for a misconduct not connected with the dispute. He further contends that the conditions laid down in the proviso of section 33(2) of the said Act are to be observed, not previous to the action taken, but on some subsequent days, i.e., such conditions are not precedent but subsequent. Misconduct has not been defined in the Industrial Disputes Act. It means any improper conduct, transgression, misdemeanour or illegal act. It includes offence, acts and omissions which have made punishable under the Indian Penal Code. Shri Banerjee has overlooked his own written statement on this point. The Opposite Party, in paragraph 1 of its written statement, has stated that Shri Sarkar was guilty of 'grave misconduct' and 'negligence' for which he was dismissed on 21st July 1958. It is true that the misconduct, for which Shri Sarkar was charge-sheeted, amounted to temporary defalcation of money and misappropriation of stamps which are, no doubt, offences punishable under the Indian Penal Code. The Company has punished Shri Sarkar for alleged misappropriation of the Company's property, an offence under the Penal Code. Although the Penal law provides punishment for such offence, it does not cease to be a misconduct, as has been specifically stated in this case, nor does the provision affect the right of the Opposite Party to dismiss its employee for such misconduct. The decision of the Labour Appellate Tribunal, in Assem Oil Co. Ltd. *vs.* L. N. Mahanti & ors., reported in 1952, L.A.C., p. 488, is a case to the point. It lends support to the finding that this is a misconduct for which the Opposite Party can punish although it amounts to an offence as well.

The last objection taken by Shri Banerjee that the conditions laid down in the proviso to section 33(2) of the Industrial Disputes Act are conditions subsequent and not precedent is not sound. It is true that no period of limitation for filing of the application for approval is stated in the Act. And an approval of an action necessarily implies, in the context of what has been provided for in the foregoing sub-section, that the application may be filed after the action has been taken. But it should be filed within a very reasonable period of time. But then, there is no warrant for ascribing a meaning as suggested by Shri Banerjee, to the other provisions of the said sub-section, viz., for payment of a month's wages. The law requires that this payment, or offer of it, should be made before the action is taken. In any event, the provisions of section 33(2) of the Industrial Disputes Act, which applies to the facts of the case, were not complied with by the Opposite Party at the time of dismissing the complainant from service. Therefore, there has been contravention of the provisions of section 33, Industrial Disputes Act, and this complaint under section 33A lies to this Tribunal. It is, in my opinion, maintainable.

The scope of enquiry on a complaint of this description is the same as in a case on a regular reference under section 10(1) of the Industrial Disputes Act. The complainant's story is that he was wrongfully dismissed on charges of which he was not guilty. He was duly charge-sheeted by the Opposite Party, and he replied to the charges. Since then, there was no enquiry and, as such, the employer was guilty of the violation of the principles of natural justice.

It appears that the decision of the Labour Appellate Tribunal, in Buckingham and Carnatic Co. Ltd., 1952, L.A.C., p. 490, received the approval of their Lordships of the Supreme Court in Indian Iron & Steel Co. Ltd., and another *vs.* their workmen reported in 1958, L.L.J. I, p. 260-13. F.J.R., p. 391. This taken along with the decision of the Supreme Court in Lakshmi Devi Sugar Mills Ltd. *vs.* Ram Sarup and others, reported in 1957, L.L.J. I, p. 17, leave no room for doubt that on an industrial dispute being raised by a workman, after his wrongful dismissal from service, an Industrial Tribunal on a reference of that dispute, is entitled to scrutinise every fact and circumstance leading to the dismissal, and to give the workman appropriate relief in the case.

Turning to the merits of the case, it is evident from a reading of the charge-sheet, and the complainant's reply thereto that the complainant was, on his own admission, guilty of a temporary defalcation of money, and misappropriation of stamps. The Municipality held an elaborate enquiry before the issue of a charge-sheet. It appears that there was no enquiry after the explanation was submitted by Shri Sarkar.

Question is whether this amounted to a denial of natural justice? Natural justice does not imply unfettered liberty to a litigant to determine and direct the course of hearing of a matter. All that it implies is that no man should be condemned unheard. In other words, it means that the party whose civil rights are affected must have reasonable notice of the case he had to meet and an opportunity of stating his case. In my opinion, the complainant had both reasonable notice of the case, he was called upon to meet and also an opportunity of stating his case. The authority concerned was in full possession of facts and knew what the complainant had said on them. It found the explanation so manifestly unbelievable, that it was not necessary to direct further enquiry into the case. In my opinion, the absence of any further enquiry in this matter in the circumstances of the case does not amount to any violation of the principles of natural justice. This Tribunal, therefore, will not interfere with the decision of the Municipality to dismiss the complainant from service.

Further, the materials on which the complainant, relied in support of his explanation, are before this Tribunal. A careful consideration of these materials cannot but impress the Tribunal that the decision taken by the Municipality is a possible view of the evidence before it. His explanation cannot be accepted in view of admissions made therein, from which inference of guilt can reasonably be made. In view of the complainant's previous record of service, the extreme punishment of dismissal from service cannot be said to be unduly harsh or excessive. I am, therefore, unable to say that the order of dismissal of Shri Sarkar was unjustified or that it was wrongful. Shri Sarkar is, therefore, not entitled to any relief in this case. The complaint is dismissed.

Schedule

Is the dismissal of Shri Kali Kumar Banerjee justified? To what relief is he entitled?

AWARD

This is a case arising out of alleged illegal dismissal of Shri Kali Kumar Banerjee previously employed in Messrs. Cheviot Mill Company Ltd., Budge Budge (Mg. Agents: Messrs. Andrew Yule & Co., Calcutta), hereinafter described as the company for the sake of brevity.

The Union's case in brief is as follows: The aforesaid workman was employed as a permanent Jute Tally Clerk in the company which issued a charge-sheet against the workman on false allegation, and dismissed him without holding any enquiry. The Union therefore seeks the reinstatement of this workman together with back wages.

The company, on the other hand, justifies the dismissal as the workman deliberately made false entries in respect of issue calculations in the Jute Godown Stock Book. The workman was found guilty of the charge framed and the company thus rightly dismissed him.

This case was fixed for hearing on 5th May 1959. The parties however compromised the dispute and put in a joint petition of compromise. The terms of compromise appear to be fair, reasonable and lawful and may thus be given effect to. The petition of compromise do form a part of the award.

This is my award.

In the matter of an industrial dispute existing between Messrs. Shekhar & Co. (Private) Ltd., 5 1 Nirode Behari Mullick Road, Calcutta-6, and their workmen represented by Shekhar & Co. Mazdoor Union, 82 Raja Dinendra Street, Calcutta-6. (Case No. VIII-C-111 of 1958.)

BEFORE THE SECOND LABOUR COURT, WEST BENGAL

PRESENT:

SHRI PROBODH CHANDRA MAITRA, M.A., B.L.,
Presiding Officer, Second Labour Court.

Acting under sections 7 and 10 of the Industrial Disputes Act, Government of West Bengal, Labour Department, by its order No. 2221-I.R./-IR/11L-91/57, dated Calcutta, the 2nd June 1958, and subsequent corrigendum No. 5558-I.R./IR/11L-636/58, dated Calcutta, the 29th December 1958, referred to me an industrial dispute between Messrs. Shekhar & Co. (Private) Ltd. and their workmen, represented by Shekhar & Co. Mazdoor Union, for adjudication.

Issues formulated in the order of reference are in the following lines:—

(1) Whether Shri Nandalal Singh is entitled to wages for 23rd and 24th January 1958.

(2) Whether the following workmen are entitled to wages for the days mentioned against their names:—

(i) Shri Ramen Chakraborty—25th October 1957.

(ii) Shri Kaloo Patra—26th October 1957.

(iii) Shri Bharat Natya—2nd December 1957.

On receipt of the reference, notices were issued on both the sides and both parties submitted their written statement and the learned Advocates of both sides opened their cases. Witnesses were also examined and when the case was fixed for argument on 30th December 1958, all on a sudden the Union submitted to me a corrigendum, copy of which was also sent to me by the Government later in the afternoon. On receipt of the corrigendum both parties were asked to submit additional written statement and while the Union in their additional written statement stated that the corrigendum is in order, the company objected to the issue of this corrigendum at this stage by the Government. After the written statement and the counter-written statement were submitted the case was finally argued by the learned Advocates of both the sides and the hearing was concluded.

The case of the Union is that the employer carried on the business of manufacturing paints, etc., for long years and the said business is a very profitable and lucrative one. The employer earns substantial profits though the employees are paid low wages but finding no chance of improvement of their economic grievances the employees united together and formed the above Union. That the Union is an eyesore to the company and the company resort to all possible chances for crushing the Union. That 23rd and 24th January 1958 are the holidays declared by the company and all the employees have enjoyed the above holidays and have received wages for the same. That the workmen Shri Nandalal Singh applied for one day's leave on 22nd January 1958 and accordingly the workmen did not report for duty on 22nd January 1958 as the leave was granted and

23rd and 24th January were holidays on account of Netaji's birthday and Saraswati Puja. That Shri Singh reported and resumed duty on 25th January 1958 but the workman was not paid wages for the above holidays.

That the employer illegally deducted the wages of the workman Shri Singh and thus illegally effected a change in the conditions of service applicable to the said workman. That Shri Singh is entitled to wages of Rs. 4-8 for the above two days and Rs. 45 as compensation for illegal deduction. Shri Ramen Chakraborty, Shri Kalu Patra and Shri Bharat Nattya were not allowed to resume duty respectively on 25th October 1957, on 26th October 1957 and on 2nd December 1957 though they reported for duty but were late by a few minutes in attendance. That as a rule the company grants a grace period of half an hour after the schedule time to the workmen for attending the factory. That the company was not justified in refusing employment to the above three workmen and further was not justified in withholding and deducting their wages of Rs. 2-4, Rs. 1-14-6 and Rs. 2-9, respectively, and Rs. 22-8, Rs. 19-1 and Rs. 25-10 as compensation for illegal deduction.

Company in their rejoinder states that the Government order of reference is defective, bad in law and illegal. That no industrial dispute is existing between the company and its workmen at the address as given in the order of reference. That the Shekhar & Co. Mazdoor Union does not represent any employee of the company at P. 49/1 C.I.T. Scheme VII-J, B. K. Paul Avenue. That the Union has, therefore, no *locus standi* to represent this case before this Court. That the concerned workmen are not employees of Shekhar & Co. (P.) Ltd. at P. 49/1 C.I.T. Scheme. That the order of reference being defective and there having been no industrial dispute at P. 49/1 C.I.T. Scheme VII-J, B. K. Paul Avenue, this Court has no jurisdiction to try this case at all. The order of reference should, therefore, be rejected by this Court. That there cannot be any industrial dispute relating to the issue of non-payment of wages on the particular dates as mentioned in the order of reference. That the issues referred to for adjudication to this Court are not industrial disputes.

That the Payment of Wages Court is the competent authority for the adjudication of the issues involved in this case, and no other Court or Tribunal can try these issues. That the issues involved in this case come under the specific provisions of section 2(vi)(b), section 7(2)(b) and section 9 of the Payment of Wages Act, and this Court has no jurisdiction in the matter at all. That there having been no industrial dispute and this Court having no jurisdiction in this case, the order of reference should be rejected by the Court. That it is the system, practice or rule of this company that whoever wants to enjoy the benefit of festival holiday he must attend his duties on the date immediately preceding the holiday. In other words, there is no rule of prefixing festival holiday. It is also the practice and rule of this concern that whoever wants to enjoy the statutory leave, must apply for such leave at least 14 days before the date of his leave. These rules are obeyed by all the workmen of the factory. The concerned workman Shri Nandalal Singh instead of applying for any leave within proper time left a small slip of paper in which he applied for one day's leave and without knowing the decision of the Management did not attend the factory on 22nd January 1958. That as the application was not made in accordance with the rules of the factory, the said application for leave was not allowed by the Management. The concerned workman having remained absent on 22nd January 1958 without any leave having been granted to him, he was debarred from getting the benefit of festival holidays on the 23rd and 24th

January 1958. That the three workmen, viz., Shri Ramendra Chakraborty, Kalu Patra and Bharat Nattya were late in attendance by more than half an hour on the 25th, 26th October and 2nd December 1957, respectively, and as such they were refused admission into the factory by the time-keeper. The company allows a grace of 10 minutes in attendance. The allegation that it is the rule of the company to grant a grace period of half an hour after the schedule time is hereby categorically denied by the company. That the allegation that this company is reaping substantial profits and/or the allegation that the Union is an eyesore of the company and/or the allegation that the leave was granted to Shri Nandalal Singh on 22nd January 1958, and/or the allegation that there has been change in the condition of service of the concerned workmen and/or the allegation that concerned three workmen were very regular in attendance are all hereby categorically denied by the company. The Union should prove these allegations.

In their subsequent written statement after corrigendum was issued, as I have noted, the company submitted that the corrigendum No. 5558-I.R., dated 29th December 1958, is defective, bad in law and illegal. That the said corrigendum does not create and or confer any jurisdiction upon the Court. It is void and ineffective in law. That this Court should therefore take no notice of the corrigendum sent by the Government of West Bengal, dated 29th December 1958. That in view of the provisions of the Industrial Disputes Act, a corrigendum and/or addendum does neither create nor take away any jurisdiction of the Court.

That this Court should therefore reject the corrigendum No. 5558-I.R., dated 29th December 1958 and should proceed with the adjudication of the dispute as referred to this Court under G.O. No. 2221-I.R., dated 2nd June 1958. The company submits that the aforesaid legal objections may be treated as additional written statement.

Both the sides very hotly contested the case through their Advocates. It was merely a test case and while the company was adamant that a *prima facie* illegal reference should be rejected, the Union thought that as the workers an on just ground and no matter it is the wage of one day or two days, the Union should fight out the issue. Four concerned workmen were examined on behalf of the Union and they were cross-examined by the learned Advocate of the other side. The company examined two of their witnesses, their time-keeper at Nirode Behari Mullick Road and Shib Prosad Chatterjee, an employee of Shekhar Co., in their Head Office, at B. K. Paul Avenue, who deals with labour matters. These witnesses were also cross-examined by the learned Advocate on behalf of the Union.

Appearances of the parties are as follows:—

For the company: Shri K. K. Maitra, Advocate.

For the Union: Shri S. K. Dhar, Advocate, assisted by Shri Mani Mukherjee, General Secretary.

FINDINGS

Learned Advocate Shri K. K. Maitra, Advocate on behalf of the company, had raised some interesting points of law, and for the ends of justice I think they should be fully discussed. Shrijut Maitra had argued that the original order of reference is defective and bad in law and is not sustainable. In the original order of reference it is stated:

"Whereas the Governor is of opinion that an industrial dispute exists between Messrs. Shekhar & Co. (Private) Ltd., P. 49/1 C.I.T.

Scheme VII-J (B. K. Paul Avenue), Calcutta-5, and their workmen represented by Shekhar & Co. Mazdoor Union, 82 Raja Dinendra Street, Calcutta-6, etc."

But no industrial dispute exists between Messrs. Shekhar & Co. (P.), Ltd., at their address at P 49/1 C.I.T. Scheme VII-J (B. K. Paul Avenue) and their employees there (i.e., the address of the Head Office and the workers therein). It is to be noticed that nowhere in the original reference it is stated that industrial dispute exists between Shekhar & Co. (P.), Ltd., and their workmen working in the factory at 5/1 Nirode Behari Mullick Road, Calcutta, and after the case proceeded to a great extent, and the witnesses were examined and only argument remained to be heard, the Union rushed to the Labour Department and got one corrigendum No. 5558-I.R., dated 29th December 1958, which states:

"In the preamble to the Government of West Bengal, Labour Department, order No 2221-I.R./IR/11L-91/57, dated 2nd June 1958, *for* the figures and words 'P. 49/1 C.I.T. Scheme VII-J (B. K. Paul Avenue), Calcutta-5', *substitute* '5/1 Nirode Behari Mullick Road, Calcutta-6',"

which is the address of the factory. So by the subsequent corrigendum only, it appears that there is dispute existing between the workmen of the factory of Shekhar & Co. at their factory office and the employer of Shekhar Co. Shrijut Maitra further objects that even this corrigendum has not been drafted in like manner and under like sanction and the Government (Labour Department) purporting to act under General Clauses Act, 1897, under section 21 has not drafted the corrigendum in like manner and is not subjective to like sanction and condition, if any. Section 21 of the General Clauses Act provides:

"Power to make, to include power to add to, amend, vary or rescind, orders, rules or bye-laws—where, by any (Central Act) or Regulation, a power to (issue notifications) orders, rules or bye-laws is conferred, then that power includes a power, exercisable in the like manner and subject to the like sanction and conditions (if any), to add to, amend, vary or rescind any (notifications) orders, rules or bye-laws so (issued),"

and evidently the corrigendum has not been drafted in the like manner, just like the original order of reference which is the standard form of reference of an industrial dispute by the Government to the Industrial Triunals and Laour Courts for adjudication. Shrijut Maitra argued that the oribinal order of reference is defective and is bad in law. The corrigendum is also defective and has not been drafted in the proper manner and the Court of law which is to adjudicate into the matter, cannot ignore this vital question and cannot proceed to adjudicate on a reference which is defective and bad in law and is not maintainable.

The learned Advocate Shri K. K. Maitra had referred to me a Supreme Court decision reported in L.L.J., 1958, Volume II, page 630 (between State of Bihar and D. N. Ganguly and others), where the Hon'ble Supreme Court says:

"that after the dispute is referred to the Tribunal, during the continuance of the reference proceeding, it is the Tribunal which is seized of the dispute and which can exercise jurisdiction in respect of it." (Page 639, L.L.J., Volume II, 1958.)

So the appropriate Government cannot issue any further reference or corrigendum at the last moment and is expected to remain neutral so long

the Tribunal does not submit its award. Shrijut Maitra had further argued that once this power is taken away by the Government from the Law Court and the Tribunal, it will create a dangerous precedent and the voice of justice will cry in agony, under the pressure of executive high-handedness. Let us take a concrete instance. A big and influential industrialist or a big influential trade Union is, may approach the Government during the continuance of the proceedings, and may cry that the corrigendum be issued and the issues be changed or that the case be transferred to some other Tribunal under section 33(b) of the amended Industrial Disputes Act. What will the Government do? Will the Government concede to the request and issue fresh corrigendum? And if the Government issues subsequent notification or corrigendum it may always not be *bona fide* and the Government may do it for the sake of expediency and the very foundation of justice will be at stake. In 1947 (176) L.T. 312-1948, A.C. 87, it has been observed (Franklin *versus* Minister of Planning):

> "On the other hand, decision of the administrative authorities are usually subjective in the sense they are reached without applying any standard at all except that of expediency."

If the Government thinks it expedient, they may issue further corrigendum or even transfer the case but whether such issue of subsequent notification or corrigendum will be valid or legal is a matter of decision by the Law Courts and of Law Courts alone. "The validity of an executive act, to be tested by a mind free from executive bias", has been observed by Shri M. C. Sitalvad, Attorney-General of India, in the International Congress of Jurist, that was opened in New Delhi in January, 1959. If that be so, I am inclined to think it is the Tribunal who is to determine the validity of the executive act.

I confess, there is much logic in the argument of learned Advocate Shrijut Maitra but we shall have to go deep into the matter and see whether the issue of corrigendum vitally affects the case or not or whether there is *bona fie* on the part of the Government for issue of such corrigendum. After all, "to err is human" and the Government means Government officials and for a technical error on the part of the Government or of the Union official who supplied the address, the case cannot be dismissed and the Court of Law cannot deny justice to the poor aggrieved workmen. I am quoting below relevant portion of the Hon'ble Supreme Court decision reported in L.L.J., 1958, Volume II, page 638:

> "It is not in every case where the parties allege the existence of an industrial dispute that a reference would be made under section 10(1); it is only where the test of subjective satisfaction of the appropriate Government is satisfied that the reference can be made. Thus it is clear that the appropriate Government is given an important voice in the matter of permitting industrial disputes to seek adjudication by reference to the Industrial Tribunal. But once an order in writing is made by the appropriate Government referring an industrial dispute to the Tribunal for adjudication under section 10(1), proceedings before the Tribunal are deemed to have commenced and they are deemed to have concluded on the day on which the award made by the Tribunal becomes enforceable under section 17A. This is the effect of section 20(3) of the Act. This provision shows that after the dispute is referred to the Tribunal, during the continuance of the reference proceedings, it is the Tribunal which is seized of the dispute and which

can exercise jurisdiction in respect of it. The appropriate Government can act in respect of a reference pending adjudication before a Tribunal only under section 10(5) of the Act, which authorises it to add other parties to the pending dispute subject to the conditions mentioned in the said provisions." (*vide* L.L.J., Vol. II, page 638.)

Viewed from this context, as I have noted above, I cannot offhand reject the case saying that the reference is bad in law. I should think that it was a technical error on the part of the Government in issuing the original reference and in issuing the subsequent corrigendum and that the corrigendum has not been drafted in the proper way but merely because there was technical error, I cannot dismiss the case as I do not find any substantial error on the part of the Government and lack of *bona fide*. In principle, I quite agree with the learned Advocate Shri K. K. Maitra, but since each case is to be decided on its own merit, so far as this case is concerned I cannot dismiss the case on the preliminary ground. Reference or corrigendum should only be ignored if there is substantial tampering of justice or lack of *bona fide* on the part of the Government or if the Government does it at the instance of either party, for which there is no provision in the Industrial Disputes Act.

Learned Advocate Shri K. K. Maitra had further argued that this case would have been a fit case under the Payment of Wages Act but so far as the Tribunal is concerned, this Court has no jurisdiction to deal with deduction of wages and non-payment of earned wages thereof. Shrijut Maitra had further argued to me that in the written statement submitted by the Union it is stated that the employer illegally deducted the wages of the workman Shri Singh and thus illegally effected the change in the conditions of service applicable to the workman. Shri Singh is entitled to wages of Rs. 4-8 for the above two days and Rs. 45 as compensation for illegal deduction. Regarding three other workmen who were not given wages for their respective days as they came very late, the Union had stated in their written statement that the three workmen were not given any notice or opportunity of hearing and the workmen are entitled to wages of Rs. 2-4, Rs. 1-14-6 and Rs. 2-9, respectively and Rs. 22-8, Rs. 19-1 and Rs. 25-10 as compensation for illegal deduction. Shrijut Maitra argued that the Union used the word "deduction" and even prayed for compensation at 10 times for the deducted wages, as is provided in the Payment of Wages Act and where a special statute for wages is there, this Court cannot adjudicate into the matter. Shrijut Maitra had further referred to me to page 17 of Shri Chakraborty's Laws of Industrial Adjudications in India, First Edition, wherein the learned author had stated:

> **"Claim for arrear wages:** A claim for recovery of arrears of wages only while in service or on discharge cannot be an industrial dispute. Such a claim can be made if it be connected with a dispute and covered by the language of section 2(k). The recovery can be made by an application under the Payment of Wages Act or by a suit, where the Payment of Wages Act does not apply."

Learned Advocate of the Union Shri S. K. Dhar had referred to me section 2(k) of the Industrial Disputes Act which runs as follows:

> "Industrial dispute" means any dispute or difference between employers and employers, or between employers and workmen, or between workmen and workmen, which is connected with the employment

or non-employment or the terms of employment or with the condition of labour, of any person;".

Learned Advocate Shrijut Dhar had also argued that non-payment of wages is always a term of employment and the Union can raise an industrial dispute over term of employment. It is to be noticed that the dispute has been raised over the terms of employment although deduction of wages is an accidental feature. In A.I.R. (36) 1949, Federal Court, page 150, Shamnagore Jute Factory *versus* S. N. Modak, it has been held:

"The Tribunal contemplated by section 15, Payment of Wages Act, is not, in our opinion, one which could affect the jurisdiction of the Tribunal set up under section 7, Industrial Disputes Act and to which a reference could be made under section 10 of that Act. The Tribunal set up under the Industrial Disputes Act has a much wider jurisdiction. In our opinion the two Acts are not in *pari materia* and the contention that the jurisdiction of the Tribunal set up under the Industrial Disputes Act is excluded by the provisions of the Payment of Wages Act is unwarranted."

Viewing from this context of the matter, I accept the argument propounded by the learned Advocate Shrijut Dhar in this respect. I should hold that the Industrial Tribunal had much wider jurisdiction and can adjudicate even any matter over wages provided that it raises an industrial dispute as contemplated in section 2(k) of the Industrial Disputes Act.

Now let us enter into the merits of the case.

Issue No. 1: Whether Shri Nandalal Singh is entitled to wages for 23rd and 24th January 1958.—It is to be noted that Nandalal Singh was absent on 22nd January 1958. He was not paid wages for the day. This was the day just preceding 23rd January, when it was closed for festival holidays (Netaji's birthday) and 24th January (Saraswati Puja) and it is the practice of the company that in order to earn wages for the festival holidays one should remain present just on the day preceding. Learned Advocate of the Union argued that there was no standing order of the company, neither the company published his rule in the Notice Board and as such the company is bound to pay wages for the festival holidays. Although it is doubtful if this rule has been published in the Notice Board, it appears that the workmen must be apprised of this rule. Long years of custom and convention forms the basis of contract and surely there was unimplied contract of service between the workmen and the employer over the custom and convention that in order to earn wage for the festival holidays, one should have to remain present and work the whole day preceding such holidays. This has also been further corroborated from an examination of the attendance register produced as exhibit where workers have not been paid for festival holidays, being absent on the preceding day. This has also been provided in the Cotton Textile Award made by Shri M. C. Banerjee, published in the *Calcutta Gazette*, dated June 10, 1958 In page 2090, the learned Judge has said "that with regard to the enjoyment of festival holidays, religious or national, on full pay, the following conditions shall apply:

In order to qualify for a festival holiday with full pay an employee will be required to work the full normally scheduled hours during the working day immediately preceding the holiday."

So this is corroborated by the principles of natural justice and I regret I am unable to allow two days' wages for the festival leave to the workman concerned in view of the fact that he did not attend just on the day

preceding the festival holidays. I would therefore disallow the claim of festival holidays of Shri Nandalal Singh.

Issue No. 2: Whether the following workmen are entitled to wages for the days mentioned against their names:—

(i) Shri Ramen Chakraborty—25th October 1957.

(ii) Shri Kaloo Patra—26th October 1957.

(iii) Shri Bharat Natya—2nd December 1957.

As regards the second issue whether the workmen are entitled to wages for the days mentioned against their names, viz., Ramen Chakraborty for 25th October 1957, Kaloo Patra for 26th October 1957 and Shri Bharat Natya for 2nd December 1957, the learned Advocate of the Union had argued that these three workmen were late by few minutes and that they are not habitual late comers. How the company could lock them out and refuse them admittance when they came late by few minutes only? It is in evidence that the company closed their factory gate at 8-10 a.m. and the usual hour of attendance is 8 a.m. and 10 minutes grace is allowed to enable the workers to come within the schedule hours. The Union contends that before the formation of the Union, the workers were late in attendance even half an hour or one hour and there was no fixed principle and while some were allowed late attendance of half an hour, some were not allowed late attendance of 10 minutes only. It is in evidence that these workers are not habitual late comers. It was on a particular day that they came late and while they contend that they came 15 or 20 minutes late than 8-10 a.m. the schedule hour including grace, the company contends that they were late for more than half an hour. Even assuming that they came late by half an hour, what right the company had to shut them out to enter into the factory which is more or less considered to be a public institution (for, the factory does not belong to employer only but to the employees also and now when we hear so much of partnership in the business concern). The company could mark them late, they could even mark them absent, but even in spite of that, if the workers are agreeable to work for the day, how could the company stop the workers from entering into the factory after the schedule hour of 8-10 a.m.? Here the company is overzealous and suffering from the punctuality complex of 8 a.m. Punctuality is a good virtue, no doubt, but so many factors are to be considered as, for example, climatic condition, transport difficulties on the way and specially when the workers are not habitual late comers. I am inclined to think that the company should not have been so overzealous and should have condoned the late attendance only for the single day, in case of each of the three workmen concerned. I do not find any motive of victimisation on the part of the company as alleged by the Union. I would therefore allow these workers their respective wages, viz., to Ramen Chakraborty Rs. 2-4, for Kaloo Patra Rs. 1-14-6 and Bharat Natya Rs. 2-9 for the day. I will not allow them any compensation, neither I can allow them 10 times compensation for their deducted wages as provided in the Payment of Wages Act. After all, these workers came late and I am prepared to give them one day's wages for the day under the special circumstances but further if any compensation is allowed, it will be putting premium to indiscipline in the industry. While I would allow each of the three workers named above their one day's wages, I will disallow them any compensation under the Industrial Disputes Act. The payment mentioned above should be made within seven days from the date of publication of the award in the *Calcutta Gazette*.

I have discussed law and facts connected with this case and I have answered all the issues.

This is my award.

GOVERNMENT OF WEST BENGAL

DEPARTMENT OF HEALTH

Public Health

NOTIFICATION

No. P.H./1552/2R-22/59.—26th March 1959.—Whereas the Governor is satisfied that the district of 24-Parganas is threatened with an outbreak of small-pox;

Now, therefore, in exercise of the power conferred by section 2 of the Epidemic Diseases Act, 1897 (III of 1897), the Governor is pleased to prescribe the following temporary regulations for the prevention and control of small-pox and for the medical inspection, isolation, observation and surveillance of persons suffering from, or suspected of being infected with small-pox in the said district for a period of six months:—

TEMPORARY REGULATIONS FOR THE PREVENTION AND CONTROL OF SMALL-POX.

1. In these regulations, unless there is anything repugnant in the subject or context,—

(*a*) "Health Officer" means the Health Officer of the district appointed by the State Government, the Chief Medical Officer of Health of the district, or the Subdivisional Health Officer of any of the subdivisions of the district within their respective subdivisions;

(*b*) "Sanitary Inspector" means a Sanitary Inspector appointed by the State Government;

(c) "Union Board" means a union board constituted under the Bengal Village Self-Government Act, 1919;

(d) "Small-pox" means any disease accompanied by an eruption of vesicles or pustules;

(e) "Patient" means a person suffering from or suspected to be suffering from small-pox;

(f) "Medical practitioner" means any person practising the medical profession.

Notices

2. If in any case the Health Officer considers that the issue of a notice under these regulations is likely to lead to such an amount of delay as might facilitate the spread of small-pox he may forthwith take such steps as he may think fit for carrying out the work, and shall thereafter, as soon as possible, issue a notice on the person concerned stating the reasons why such work has been carried out.

3. If any measure which the Health Officer has by a notice issued under these regulations, required to be carried out, be not carried out to his satisfaction within the time stated in the notice the Health Officer shall be entitled to carry out the measure.

Costs and compensation

4. (1) All expenses incurred in carrying out any work in pursuance of an order issued under these regulations shall be paid by the State Government except in any case where the order directs a person to carry out any work in relation to property in his possession, in which case the expenses shall be paid by such person:

Provided that where the conditions which led the Health Officer to pass such an order, are not attributable to any act or default of the person in possession of the property, the State Government may pay to such person the whole or a part of the expenses incurred by him in carrying out the order.

(2) The State Government may recover all expenses incurred by the Health Officer in carrying out the measure under regulation 3 from the person or persons to whom the notice was originally issued.

5. The State Government shall pay adequate compensation to any person, who has sustained substantial loss or damage by reason of anything done under these regulations:

Provided that no person shall receive any compensation for anything done or suffered under these regulations if he has failed to carry out an order issued under these regulations. He shall not direct the patient to be removed from the house unless it is, in his opinion, impossible to make proper arrangements for his isolation therein within the time specified in the order and to the satisfaction of the Health Officer.

Location of disease

6. When a case of small-pox occurs in a house, the nearest male relative in attendance upon the patient, or in the absence of any such relative the occupier of the house, or if the occupier be the patient, the senior male

inmate of the house other than the patient of the house shall, within twenty-four hours of the onset of the disease, give information regarding the occurrence of such case either personally or in writing or by means of the chaukidar or other village watchman to the nearest Sanitary Inspector.

7. (1) Every medical practitioner called in to attend upon any case of small-pox shall forthwith give notice of the case by a special messenger to the nearest Sanitary Inspector or to the Health Officer by post and the cost of such messenger in each case shall be defrayed by the State Government.

(2) The doctor-in-charge of a hospital or a dispensary within the district shall forthwith give notice of any case of small-pox brought to such hospital or dispensary for treatment to the nearest Sanitary Inspector by a special messenger and to the Health Officer by post, and the cost in each case shall be defrayed by the State Government.

8. Presidents of union boards in union board areas and thana officers in non-union board areas shall supply to the Health Officer such periodical returns of cases of small-pox as he may from time to time call upon them to furnish.

9. The Health Officer or a Sanitary Inspector may examine any person who is, or suspected to be, suffering from small-pox or who, in his opinion, may be infected with or likely to spread small-pox.

Isolation of patients

10. When the Health Officer or a Sanitary Inspector considers that the isolation of any patient is a precaution necessary for the protection of the neighbouring population, he shall order the patient to observe isolation and may order the nearest relative in attendance on the patient, or the occupier of the house in which the patient is staying, to arrange for the isolation of the patient in such a manner and for such a time as may be approved by the Health Officer.

11. The Health Officer or a Sanitary Inspector may order that any person, who has been in contact with a person found to be suffering from small-pox, shall be segregated for a period not exceeding a fortnight in a manner and in a place to be approved by the Health Officer.

12. The Health Officer or a Sanitary Inspector may order that any person who has been in contact with a person found to be suffering from small-pox shall be vaccinated or re-vaccinated within a time to be specified in the order.

13. No person shall enter any place wherein a patient is isolated under regulation 10, without the permission of the Health Officer or a Sanitary Inspector.

14. When a patient has been removed from a house for isolation under regulation 10, the State Government shall provide for him free of charge a suitable place, with necessary attendants, diet, etc.

15. No person, who is or has been suffering from small-pox, shall leave the place where he has been staying until he has received from the Health Officer or a Sanitary Inspector written permission to do so.

16. No person while suffering from evident symptoms of small-pox or in the convalescent state of the disease with scabs of pocks on his body shall expose himself in any street, road, public place, shop, bazar or any place

used in common by persons other than members of the family or household to which such infected person belongs or shall move from place to place unless he is proceeding to a hospital for admission and treatment.

17. The Health Officer or a Sanitary Inspector authorised by the Health Officer in writing in that behalf may, during the prevalence of any outbreak of small-pox, order that any bazar, shop or other public place shall remain closed for such time as may appear to him to be necessary and may forbid the holding of any fair, mela, or other gathering to which people from several villages commonly or periodically resort.

Miscellaneous

The Health Officer or a Sanitary Inspector may require any person to allow to be carried out by such agency and within such time as may be specified in the order, such measures for the disinfection of any premises in the occupation of such person or for the disinfection or destruction of any of his personal effects, as the said officer or inspector may consider necessary.

(i) that he is so well covered that the discharge and scabs from the lesions do not come directly into touch with the body of the conveyance;

(ii) that he is taken to the hospital direct and the conveyance does not halt at any other place for transacting any business; and

(iii) that excepting one or two attendants for the patient no other person is carried in the conveyance at the same time.

25. No person shall expose in any street, shop, bazar or any public place any clothing, bedding or other article which has been in contact with a patient or shall cause or suffer such articles to be carried in any public
